We will provide you with reasonable advance notice that your service is about to be migrated. After your service has been migrated, you can terminate your service at any time in which case we will not charge you the standard early termination charges for your service (if any), but we may charge you an amount equal to the actual third-party costs and expenses that we have incurred or committed to in anticipation of providing the service to you and that cannot be reasonably avoided by us as a result of the termination. Monthly Mobile Data Allowance

- 3.27 Each Mobile Data Plan has a non-shareable monthly data allowance for use within Australia. Any unused monthly data allowance expires at the end of each billing month. You'll receive notifications of your data usage at approximately 50%, 85% and 100% of your data allowance to help you make the most of your data allowance. You can also check how much data you've used via the My Telstra app or My Account.
- 3.28 Your Monthly Mobile Data Allowance cannot be shared with the data allowances of services on the same account as your Mobile Data Plans.
- 3.29 Your Monthly Mobile Data Allowance excludes content charges (including third party charges) and use while overseas. You may use your Monthly Mobile Data Allowance to access data in Australia over the Telstra Mobile Network
- 3.30 If you use more than your monthly data allowance in a month, you will not be charged extra for use of data within Australia and will continue to receive additional data with speeds capped at 1.5Mbps for the rest of the month until your next billing period. This is not suitable for HD video or high-speed applications, and means that some webpages, video/social media content and may take longer to load. You can still use your device to tether or create a wireless hotspot for other devices, but your speeds may be slowed further. We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.
- 3.31 If you have exceeded your monthly data allowance, you can increase your plan once a month to increase your monthly data allowance. See clause 3.19 on how to change your plan.
- 3.32 When calculating mobile data volumes:
 - a. if the volume of data transferred is not a whole number of kilobytes, it is rounded up to the next kilobyte at the earlier of the end of each session or 24 hours; and
 - b. 1024 bytes = 1 kilobyte (KB) and 1024 kilobytes = 1 megabyte (MB) and 1024 MB = 1 gigabyte (GB).

Voice calls and SMS

- 3.33 As of 22 April 2020, your plan cannot be used to make or receive calls.
- 3.34 To access SMS capability, your SIM card must be placed in an SMS capable device. Not all tablet/mobile broadband devices have this functionality.
