Activating users with Liberate

- If you wish to auto-activate users with Liberate, enter your Mobile account numbers from the dashboard user dropdown menu. We will validate the mobile numbers associated with that account and the users will be activated with Liberate automatically. The end user will not be prompted to accept the offer. They will receive an introductory text message with a link to download the Liberate app.

Where can I find my Mobile account number?

You can contact a Telstra representative. Alternatively, you can contact Telstra Mobile support team on 1800 730 062. (Ask for a MICA number, the Telstra team member will supply you with the correct account number)

- Head to the Services dashboard located at the menu on the top of the page.

- Enter the fixed phone number(s), names and/or part of names/numbers, you wish to add to Liberate, in the search field. You can search up to 20 numbers per page at a time. You can separate the search with a comma. Try to narrow down your search by using more specific names and numbers for quick results.

The screenshot shows the Liberate search interface. The search bar contains 'John' and '0282400321'. Below the search bar, a table displays search results:

NAME	FIXED NUMBER	MOBILE NUMBER	STATUS	SERVICE	ACTIONS
Catharine Foster	0282400321		Ready	Liberate Mobile (Unassigned)	Invite or Activate
John Smith	0282400301		Ready	TIPT	Invite or Activate

- Your completed search will provide details of each TIPT or SIP Connect number, such as username, corresponding mobile number for active services, status of the numbers and the Telstra Liberate service type attached.

The screenshot shows the Liberate search interface with a search for '0347347004', '0392020986', '0280154134', '0280154135', '0347347005', '0385203198', '0280154136', and 'Alexandras'. Below the search bar, a table displays search results:

The status reflected can be either of the following:

Ineligible	The number is currently not eligible and needs to be upgraded. Head over to our FAQs section, under the Support tab, to learn more about eligibility.
Ready	Denotes all licenses and packs are aligned for this number and you can send an invite to Liberate this fixed number.
Pending	An invite has been sent to the user's Mobile number, but the end-user hasn't yet accepted and activated it.
Active	This number has already been invited and the end-user has already completed activation.
Accepted	The invite has been accepted by the user and Liberate is currently being provisioned. No changes can be made to the service until provisioning is completed.

- To invite or activate both Liberate Unified and Liberate Mobile numbers follow these steps:

- » Ensure the number is displaying a Ready status
- » Click the 'Invite or Activate' button on the right

THE INFORMATION ON A NEW NUMBER MAY BECOME AVAILABLE IMMEDIATELY.
UC features and the work (fixed) number available for use from the mobile device.

 All calls made from the mobile device while in Australia will appear on the TPT section of your Telstra bill only, charged according to the TPT service. This includes International Direct Dial (IDD) which you may select to block.

 Mobile phone usage outside Australia will remain charged to the mobile service.

 A combined MessageBank will be created to support both the work number and mobile number. The new combined MessageBank maintains the mobile voicemail greeting and saved mobile voicemail messages. If the mobile account is suspended then access to the MessageBank service will be blocked. The voicemail messages will remain with the mobile service if Liberate is removed.

 Liberate may be removed at any time via the Liberate companion app or the Liberate self-service portal. This will remove the connection between the selected TPT and mobile service and return services to standard billing and separate MessageBanks.

Invite or Activate

When you Invite, the user will receive an SMS with a link. They will need to accept the invitation using the Liberate companion app. The invitation will expire in 14 days. When you Activate, the user will be activated automatically. They will receive an introductory text message with a link to download the Liberate app.

Our maintenance window

Please note, your service may take up to 12 hours to be activated. As an admin, you can send invites any time and it will be processed for activation as soon as it gets accepted. However, if your request reaches us during our system maintenance window, 10pm-7am AEST, it will be queued up for activation in the next time slot. While activation may be delayed, there's no impact to the end-user and we'll notify them once its completed.

Resending or revoking invites

- Both Resend and Revoke functions are only available if the end-user is yet to accept the invite.

Resend: Click on the Resend button under Options to send a new text message and extend the time within which the user must accept the invite. **Note:** Invite is valid only for 14 days.
