

Cisco Webex Meetings and Webex CCA-SP from Telstra

Meeting experiences re-imagined

Are you looking to improve productivity, strengthen collaboration and speed business results?

Do you want your people to work together across time zones and geographies simply and effectively? Then Cisco Webex Meetings from Telstra is just what you need. Now, virtual meetings can be easier, more effective and economical than you thought possible, all through a single integrated cloud platform.

Cisco Webex Meetings from Telstra provides highly effective and cost-efficient audio, video and web conferencing services accessed through the Cisco Webex Meetings suite.

One core meeting experience, simple and fast however you work, wherever you work – one button to push, video first, mobile, app and device optimised empowering a more intuitive way to work.

In addition, our Cisco Webex Cloud Connected Audio-Service Provider (CCA-SP) service integrates IP and PSTN voice for a better meeting experience and helps to further lower call costs.

Webex Enterprise Edition

- Provides the full suite of Cisco Webex Services as a cost-effective bundled licensing option
- Enhance virtually every aspect of business collaboration to improve productivity and efficiency

Features

Webex Meetings Suites

All Webex Meetings Suites offer:

Document, desktop and application sharing

Share content with remote attendees in real time without having to upload files onto a server.

Network-based meeting recording, editing and playback

Record meetings for future reference, training or demonstrations. Recordings can be downloaded and stored.

Meet online with various devices

Start, schedule, and attend mobile meetings on Android, iOS, Blackberry 10 and Windows.

Highly secure meetings

Webex meetings are delivered with stringent data privacy, encrypted connections and tight policy control.

Call-back functionality

Dials back from Webex platform to fixed or mobile devices and associates the voice caller with Webex user, if using Webex Cloud Connected Audio – Service Provider or Webex Toll Audio.

Webex Cloud Connected Audio-Service Provider (CCA-SP)

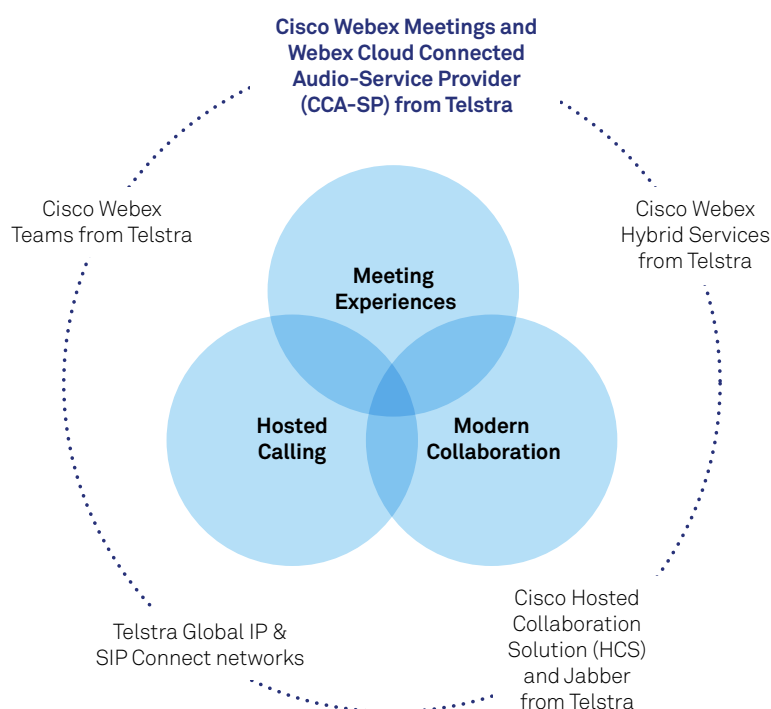

Webex CCA-SP is an end-to-end audio solution that uses Telstra Global Network to provide an integrated audio experience for Webex meetings. Webex CCA implements a Session Initiation Protocol (SIP) trunk from Telstra Global Network into the Cisco WebEx data centre instead of using a traditional telephony connection.

It provides the following benefits:

- **Attractive audio pricing** – Use convenient and flexible concurrent port-based pricing. Predicting the number of concurrent meetings versus how many minutes you use greatly simplifies cost estimates.
- **Global reach** – Global calls can be carried over the Telstra Global Network eliminating the need to make calls using global call-in numbers.
- **Scalability** – CCA-SP offers the ability to easily add capacity – with no constraints on available time slots. The solution scales easily and simply as the audio conferencing needs grow.
- **Hosted** – Using solutions delivered over the Webex Collaboration Cloud simplifies software deployment, administration, upgrades and maintenance.

The Telstra Advantage

Full integration across platforms, applications, devices and networks

Truly complete, unified collaboration to empower your business

To further enhance your collaboration experience, we have integrated Cisco HCS and Jabber with Cisco Webex Teams and Webex Meetings via Cisco Webex Hybrid Services and Cisco Webex Cloud Connected Audio-Service Provider.

This is all underpinned by our global IP and SIP Connect networks with functionality natively integrated, giving you a consistent, high-quality experience.

You can now enjoy complete and integrated collaboration spanning presence, instant and persistent messaging, content sharing, calling, video conferencing and advanced meeting experience.

Why Telstra?

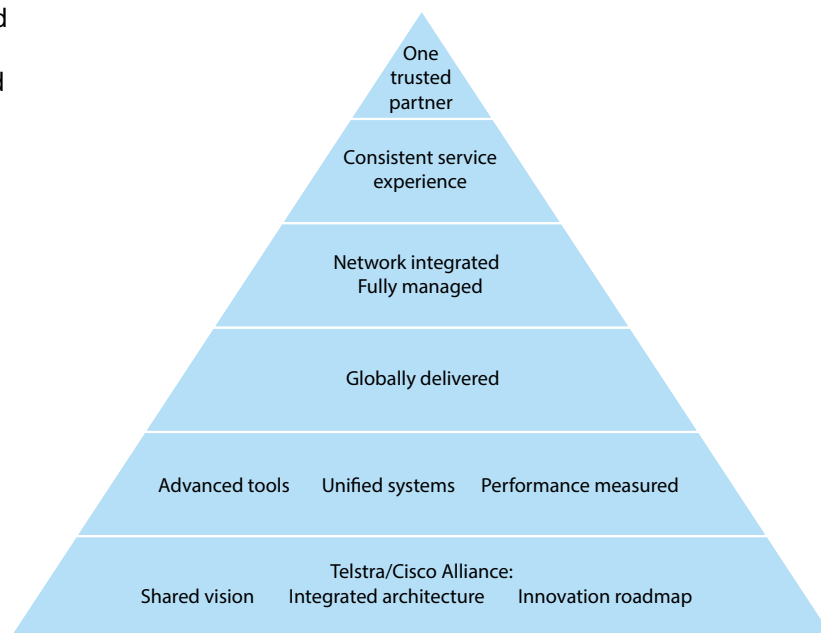

We offer a complete and fully managed Cloud Collaboration suite providing integrated voice, video and collaboration to simplify and enhance the way you work.

Wherever you are or aspire to be you can be assured of a consistent, high-quality experience.

This is made possible through integration of the Cisco platform with the secure Telstra cloud and our global IP networks with SIP Connect.

Ongoing innovation delivers the best and latest capabilities, and solutions are continually measured and optimised to ensure peak performance. All with the assurance of one point of expertise.

A fully integrated solution
