

Global Reporting Initiative and United Nations Global Compact Index

Telstra reports with reference to the Global Reporting Initiative (GRI) G4 Guidelines and the United Nations Global Compact (UNGC) Communication on Progress. This index provides a guide to where information on our material impacts, as they relate to the GRI and UNGC reporting requirements and indicators, can be found throughout Telstra's 2016 Annual Report, the Bigger Picture 2016 Sustainability Report and our website, www.telstra.com/sustainability/report.

The icon above can be found throughout the Bigger Picture 2016 Sustainability Report, and indicates where we are providing information on our progress in implementing the ten principles of the United Nations Global Compact.

Our reporting boundary

The GRI aspects and indicators we've reported on throughout the Bigger Picture 2016 Sustainability Report have been determined through our materiality process, and relate to our 12 material topics, which are outlined below.

We have assessed these topics to identify where along our value chain they are most material for our organisation, and focused our programs and performance disclosures accordingly.

While the scope of this report is Telstra Corporation Limited, excluding all controlled entities unless otherwise stated, wherever possible we have extended the scope of this report to include our operations across the Telstra Group, as well as our external impacts. In instances where our materiality boundaries extend beyond the scope of our reporting, we are working to increase our disclosures.

For further information on our value chain including the key stakeholders impacted, please refer to our sustainability website at www.telstra.com/sustainability/report/valuechain.

Our contribution to the Sustainable Development Goals

The UN Sustainable Development Goals (SDGs) comprise 17 ambitious goals and 169 targets that seek to address the world's most significant development challenges across environment, society and sustainable economic growth.

Telstra welcomes the introduction of the SDGs. This year we conducted a baseline assessment

of how our current programs, initiatives and operations align to the SDGs, and the areas in which we have can make the greatest impact. Our assessment looked at the relevance of each SDG and each of the 169 SDG targets across each stage of our value chain. We identified four initial priority areas for Telstra, and within these

areas, have identified 11 targets that we are working to address.

The table below outlines the targets we are pursuing in relation to our four priority SDGs, and the stages across our value chain where we can have the greatest impact.

PRIORITY SDGS AND TARGETS	SUPPLY CHAIN		TELSTRA		CUSTOMER AND COMMUNITY			
	PRODUCTS MANUFACTURE	SERVICE PROVIDERS	PURPOSE, VISION AND VALUES	PRODUCTS AND SOLUTIONS	NETWORK AND OPERATIONS	CUSTOMER	COMMUNITY	END OF LIFE
5. GENDER EQUALITY Achieve gender equality and empower all women and girls								
Eliminate all forms of violence against all women and girls in the public and private spheres, including trafficking and sexual and other types of exploitation	●	●					●	
End all forms of discrimination against all women and girls everywhere	●	●	●	●	●	●	●	●
Enhance the use of enabling technology, in particular information and communications technology, to promote the empowerment of women			●	●	●	●	●	●
8. DECENT WORK AND ECONOMIC GROWTH Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all								
Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms	●							●
Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors			●	●	●	●		

PRIORITY SDGS AND TARGETS	SUPPLY CHAIN		TELSTRA			CUSTOMER AND COMMUNITY		
	PRODUCTS MANUFACTURE	SERVICE PROVIDERS	PURPOSE, VISION AND VALUES	PRODUCTS AND SOLUTIONS	NETWORK AND OPERATIONS	CUSTOMER	COMMUNITY	END OF LIFE
8. DECENT WORK AND ECONOMIC GROWTH								
Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all								
By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value								
		●	●	●	●	●	●	
9. INDUSTRY INNOVATION AND INFRASTRUCTURE								
Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation								
Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all								
				●	●	●		
By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities								
	●		●	●	●	●		●
Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2020								
					●	●	●	
13. CLIMATE ACTION								
Take urgent action to combat climate change and its impacts								
Strengthen resilience and adaptive capacity to climate-related hazards and natural disasters in all countries								
	●			●	●	●		
Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning								
	●	●	●	●	●	●	●	●

BIODIVERSITY				
G4-EN12 UNGC 8	Significant impacts of activities, products, and services on biodiversity	There are no known significant impacts to biodiversity due to Telstra's activities, products or services. Telstra's goal is to prevent environmental harm and use our technology, expertise, scale and presence to minimise our own environmental impact and that of our customers. Our commitments are outlined in the Telstra Group Environment Policy. (http://www.telstra.com.au/uberprod/groups/webcontent/@corporate/@aboutus/documents/document/uberstaging_285414.pdf) Telstra's network activities and facilities typically comprise small footprints and are subject to stringent Commonwealth and State/Territory environmental approvals processes. Many of these facilities meet the siting and approval requirements for low-impact facilities as specified in the Telecommunications (Low-impact Facilities) Determination 1997, under the Telecommunications Act 1997. In addition, Telstra's Corporate, Network Delivery and NBN Delivery business units implement environmental management systems certified to ISO 14001 (2015) to manage environmental impacts of facilities and construction activities across Australia.		YES: Water withdrawal from municipal water suppliers and other water utilities only
