

## GENERAL COMMENTS

### No Written Election Required for 2006/7 but past Written Elections still relevant

Again, this year you do **not** have to consider making any written elections in respect of the TESOP shares you acquired under TESOP 97 or TESOP 99.

Whether or not you made a written election in preparing your 1997/98 tax return (affecting your TESOP 97 shares) and/or your 1999/2000 tax return (affecting your TESOP 99 shares) will be relevant if the Restriction Period on you dealing in your shares has expired in 2006/7 or if your relevant employment with the Telstra Group ceased during 2006/7.

A written election may also influence the tax consequences of any shares you disposed of in 2006/7.

### When does the Restriction Period on you dealing in TESOP shares expire?

The Restriction Period on you dealing in various TESOP 97 and TESOP 99 shares may have expired during 2006/7, depending on your circumstances.

#### [\[Find out when the Restriction Period expires.\]](#)

For example, the Restriction Period may have expired during 2006/7 for your TESOP 97 Loan Shares and Extra Loan Shares and your TESOP 99 Loan Shares if your relevant employment with the Telstra Group ceased during 2006/7, or you otherwise repaid the relevant TESOP loan in 2006/7.

If you did **not** make a written election in preparing your 1997/98 tax return (affecting your TESOP 97 shares), you have not ceased relevant employment and the Restriction Period in relation to your TESOP 97 shares continues to apply you should nevertheless be assessed on the Tax Market Value of your TESOP 97 shares in the 2006/7 income tax year. This is because 10 years has passed since these shares were granted to you.

If you did **not** make a written election in preparing your 1999/2000 tax return (affecting your TESOP 99 shares) and you ceased relevant employment or the Restriction Period expired during 2006/7 you may be assessable in your 2006/7 return based on the Tax Market Value of the shares when you ceased relevant employment or the Restriction Period expired.

#### [\[“At a glance - Tax consequences when you dispose of your Telstra ESOP 97, Telstra ESOP 99 and Telstra Shares or the Restriction Period Expires” provides more information\]](#)

In this case, you should include the assessable discount (if any) at **Item 22, Box V** of your 2006/7 tax return (Supplement section). Please note that these references are to the Individuals tax return form. The labels may vary if you are using another form of tax return, such as the Short Form or Retirees form.

The tax market value of Telstra shares is available from the Share Registry ((03) 9615 9750)).

### TESOP Shares not subject to Fringe Benefits Tax

The acquisition or holding of TESOP shares is not subject to Fringe Benefits Tax and, accordingly, is not a Reportable Fringe Benefit on your Payment Summary.

## **DIVIDENDS ON TESOP 97 AND TESOP 99 SHARES RECEIVED IN 2006/7 TO BE INCLUDED IN YOUR ASSESSABLE INCOME**

During 2006/7 Telstra paid a fully franked final dividend for 2005/6 of 14 cents per share which was paid on 22 September 2006 and a fully franked interim dividend for 2006/7 of 14 cents per share which was paid on 30 March 2007.

You should include the dividends you received, together with the attached franking credits, as assessable income at **Item 11, Boxes S, T and U** of your 2006/7 tax return. This is the case even if the dividends were paid to you via the TESOP Trusts and even if part of the dividend has been applied to reduce your Telstra provided loans.

## **WHAT HAPPENS IF YOU SOLD YOUR TESOP OR OTHER TELSTRA SHARES IN 2006/7?**

There will be tax consequences if you disposed of your TESOP shares. The tax consequences will differ depending upon your particular circumstances.

You should click on the table below to assist you in determining the capital gains tax consequences for you. It will be important for you to refer to the appropriate box in the table to determine the capital gains tax consequences. These boxes do **not** deal with circumstances where you are assessed otherwise than under the capital gains tax provisions.

You should be aware that the gains on the disposal of shares by certain taxpayers may effectively be assessed as ordinary income rather than under the capital gains tax provisions.

**[\[“At a glance - Tax Consequences when you dispose of your Telstra ESOP 97, Telstra ESOP 99 and Telstra Shares or the Restriction Period Expires” provides more information \]](#)**

You should also click on the examples below to assist you in determining the tax consequences for you.

**[\[Examples\]](#)**

The following general comments will also help you to determine the tax consequences under the capital gains tax rules if you sold any of your Telstra shares.

If you disposed of shares for more than their tax cost you may be assessed on any net gain. If you disposed of shares for less than their tax cost you may be entitled to offset the loss against other capital gains you made in 2006/7 or to carry the loss forward to be offset against any capital gains you may make in the future.

If you made a written election in preparing your 1997/98 income tax return (affecting your TESOP 97 shares) and/or your 1999/2000 income tax return (affecting your TESOP 99

shares), you may make a choice which may affect the amount of your capital gain or loss. You should carefully consider making this choice if you disposed of TESOP 99 Loyalty Shares, TESOP 99 Extra Shares or TESOP 99 Loan Shares during the 2006/7 income year. This is discussed further below in the section entitled “*What is the tax cost of your shares?*”

If you made a gain or loss under the capital gains tax provisions you should include the amount in the appropriate **box at Item 17** of your 2006/7 tax return (Supplement section).

If you did **not** make an election in your 1997/98 tax return (affecting your TESOP 97 shares) and/or your 1999/2000 tax return (affecting your TESOP 99 shares) and you sold your shares within 30 days of the earlier of the time your relevant employment with the Telstra Group ceased and the end of the Restriction Period, you will **not** be assessed under the Capital Gains Tax provisions. Instead you will be assessed under the employee share scheme provisions of the Tax Act.

### **Will you get the 50% Capital Gains Tax Discount?**

Under the Capital Gains Tax provisions you may be entitled to a discount for assets you have held for 12 months or more (“12 month qualifying discount period”). Under this discount you may only be assessed on 50% of a capital gain you make (after allowance for any capital losses you may have) when you sell certain assets such as your Telstra shares.

The Commissioner of Taxation issued a Class Ruling (CR 2001/28) on 18 July 2001 applicable to TESOP Participants stating that, in the Commissioner’s opinion, **where you sought the benefit of the \$1,000 tax exemption, shares must be held for longer than 12 months from the date that the Restriction Period ends** (the Restriction Period, in some cases, does not end when your relevant employment ceases) **not from the date when you acquired your shares under TESOP**, before the 50% CGT discount will be available.

#### **[Table Setting Out - TESOP Restriction Periods]**

This is the same as the treatment where the \$1,000 tax exemption has **not** been sought. (Although, this is not specifically dealt with in the Class Ruling.)

### **What is the tax cost of your shares?**

If you did **not** seek the \$1,000 tax exemption and you are assessed under the capital gains tax regime, the tax cost for the shares will be the “tax market value” of those shares at the earlier of when your relevant employment with the Telstra Group ceases or when your Restriction Period ends.

If you did seek the \$1,000 tax exemption, you will have a choice as to how you calculate your tax cost for the shares.

If you do **not** make a choice, then based on the Commissioner’s opinion in CR 2001/28, **the tax cost for the shares will be the “tax market value” of those shares when the Restriction Period ends, not when you acquired your shares under TESOP.**

If you make a choice to calculate the tax cost for your shares under legislation, the tax cost will be the tax market value of the shares at the date you first acquired an interest in them.

This means that **if** you make the choice in relation to a share, the relevant tax cost will be:

- the tax market value of the share at the date you first acquired an interest in them (i.e. \$3.30 in respect of TESOP 97 shares and \$7.40 in respect of TESOP 99 shares);
- rather than the tax market value of the share at the date the Restriction Period ends (as set out in the Class Ruling discussed above).

You should carefully consider making this choice in relation to TESOP 99 Loyalty Shares, TESOP 99 Extra Shares or TESOP 99 Loan Shares if you disposed of those shares during the 2005/6 income year.

The way in which you prepare your 2006/7 income tax return will be sufficient evidence of the making of the choice. **You are not required to lodge a written election with the Australian Taxation Office evidencing your choice.**

Irrespective of whether or not you make the choice, the 12 month qualifying discount period will commence from the date the Restriction Period ends.

**You may choose for the recently enacted legislation to apply in relation to shares you disposed of prior to the 2006/7 year of income.** If you believe that such a choice would have been appropriate in your particular circumstances you should consult your registered tax adviser. It may be possible to seek an amendment to prior year assessments within 4 years after the day on which the tax became due and payable under the relevant assessment. You should carefully consider seeking an amended assessment if you disposed of TESOP 99 Loyalty Shares, TESOP 99 Extra Shares or TESOP 99 Loan Shares in prior years.

Under TESOP 97 and TESOP 99, when the Restriction Period ends the Trustee can, depending on the particular circumstances, sell the shares for you or transfer the shares to you. In either case the availability of the CGT discount and the cost of your shares in determining whether you make a capital gain or loss is worked out in the way described in the table above.

## Disclaimer

This is a general description of the tax consequences which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation.**

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you **should seek guidance from your own registered tax adviser.**

## TESOP Trade Restriction Periods

**Where you sought the relevant \$1,000 tax exemption (in your 1997/98 tax return and/or your 1999/2000 tax return)**

Share Type	Restriction Period Expiry Date
TESOP '97 – Loan Shares / Extra Loan Shares	Latter of : <ul style="list-style-type: none"> <li>• 15 November 2000; or</li> <li>• the date the loan is repaid <sup>1</sup></li> </ul>
TESOP '97 – Extra (1:4) Non-loan Shares	Earlier of: <ul style="list-style-type: none"> <li>• 15 November 2000; or</li> <li>• when you cease employment with the Telstra Group <sup>2</sup></li> </ul>
TESOP '99 – Extra (1:4) Shares and TESOP '99 – Loyalty (1:10) Shares	Earlier of: <ul style="list-style-type: none"> <li>• 16 October 2002; or</li> <li>• when you cease employment with the Telstra Group <sup>2</sup></li> </ul>
TESOP '99 - Loan Shares	For continuing employees the date is the latter of : <ul style="list-style-type: none"> <li>• 16 October 2002; or</li> <li>• the date the loan is repaid <sup>3</sup></li> </ul>
<ol style="list-style-type: none"> <li>1. This is irrespective of whether your relevant employment with the Telstra Group has ceased. If you had ceased employment prior to 15 November 2000, the relevant date was when the loan was repaid. Where the shares are sold for you by the Trustee, the relevant time is immediately prior to when the shares are sold.</li> <li>2. This also includes situations where you cease employment with a company that was part of the Telstra Group at the time of the relevant Telstra float (and you were employed by that company at the time of the float).</li> <li>3. This is irrespective of whether your relevant employment with the Telstra Group has ceased. However, if you cease employment prior to 16 October 2002, the relevant date is when the loan was repaid. Where the shares are sold for you by the trustee, the relevant time is immediately prior to when the shares are sold</li> </ol>	

**Where you did not seek the relevant \$1,000 tax exemption (in your 1997/98 tax return and/or your 1999/2000 tax return)**

The expiry of the relevant restriction period will be determined in the same manner as described in the table.

When working out whether you make a capital gain or loss when you sold your TESOP shares, the tax cost will be the Tax Market Value of those shares at the earlier of:

- the abovementioned times; or
- when your relevant employment with the Telstra Group ceased

**Disclaimer**

This is a general description of the tax consequences, which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation.**

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you **should seek guidance from your own registered tax adviser.**

# At a glance - Tax consequences if you dispose of your Telstra ESOP 97, Telstra ESOP 99 and Telstra Shares or the Restriction period expires in 2006/7

This section will assist you in determining the capital gains tax consequences if you sell your TESOP 97, TESOP 99 or Telstra Shares in 2006/7 or the Trustee disposes of your TESOP 97 or TESOP 99 Shares on your behalf in 2006/7. The table also indicates the tax consequences which arise when the Restriction Period (if any) expires.

It is important that you refer to the appropriate box in the main table below. The appropriate box for you to refer to in the main table below depends upon:

- the type of shares you acquired;
- whether you made an election in respect of those shares or not; and
- whether your relevant employment with Telstra continues or ceased in 2006/7.

You cease relevant employment with Telstra if you are no longer employed by any of the following:

- your employer when you acquired your shares; or
- a company in the Telstra Group.

## Summary Reference Table

The following points and the Summary Reference Table below will help you to refer to the appropriate box in the main table below.

1. Refer to **BOX A** for TESOP 97 Non Loan Shares, 1997 Public Offer Shares and TESOP 97 Loyalty Shares (where you elected to seek the \$1,000 tax exemption in your 1997/98 tax return).
2. Refer to **BOX B** for TESOP 97 Loyalty Shares (where you did not elect to seek the \$1,000 tax exemption in your 1997/98 tax return).
3. Refer to **BOX C** for Guaranteed Allocation Shares and 1999 Public Offer Shares
4. Refer to **BOX C1** for 2006 Public Offer Instalment Receipts
5. Refer to **BOX D** for other Shares purchased on the Stock Exchange

Type of Share	Continuing employee		Employee who ceased employment in 2006/7	
	Tax Election made in year shares acquired	No Tax Election made in year shares acquired	Tax Election made in year shares acquired	No Tax Election made in year shares acquired
TESOP 97 Loan Shares TESOP 97 Extra Loan Shares	<b>E</b>	<b>F</b>	<b>G</b>	<b>H</b>
TESOP 97 Extra Non-Loan Shares	<b>I</b>	<b>J</b>	<b>I</b>	<b>J</b>
TESOP 99 Loyalty Shares TESOP 99 Extra Shares	<b>K</b>	<b>L</b>	<b>K</b>	<b>L</b>
TESOP 99 Loan Shares	<b>M</b>	<b>N</b>	<b>O</b>	<b>P</b>

The main table below deals with the capital gains tax consequences of arm's length sales of shares in 2006/7. It is possible for a capital gains tax event to occur on a disposal of shares other than a sale.

In determining the gain or loss you may take into account certain additional costs, such as incidental selling costs. For example, brokerage on the sale of shares. You should draw these costs to the attention of your tax agent when preparing your tax return for 2006/7.

This table does not apply to employees whose relevant employment ceased before the 2006/7 year but who dispose of their shares in the 2006/7 year.

**If you made an election in your 1997/98 tax return (affecting your TESOP 97 shares) and/or your 1999/2000 tax return (affecting your TESOP 99 shares)** you may have a choice in relation to how you calculate the cost base of your shares. If you make the choice in relation to a share, the relevant tax cost will be:

- the tax market value of the share at the date you first acquired an interest in the share (i.e. \$3.30 in respect of TESOP 97 shares and \$7.40 in respect of TESOP 99 shares);
- **rather** than the tax market value of the share at the date the Restriction Period ends (refer table setting out TESOP Restriction Periods).

This choice may impact on the capital gain or loss you make when you dispose of your shares.

**If you made an election in your 1999/2000 tax return and you disposed of your TESOP 99 Loyalty Shares, TESOP 99 Extra Shares or your TESOP 99 Loan Shares in the 2005/2006 year, you should carefully consider making this choice.**

The way in which you prepare your 2006/7 income tax return will be sufficient evidence of the making of the choice. **You are not required to lodge a written election with the Australian Taxation Office evidencing your choice.**

The following tables assume that you would make the choice for your TESOP 99 shares (i.e. you would choose the \$7.40 cost base) and that you would **not** make such a choice in respect of your TESOP 97 shares (i.e. you would apply the tax market value of the share at the date the Restriction Period ends).

Box	Type of Shares	Capital Gains when you sell your shares Sales Proceeds >Tax Cost	Capital Losses when you sell your shares Sales Proceeds < Tax Cost
A	<ul style="list-style-type: none"> <li>• 1997 Public Offer Shares</li> <li>• TESOP 97 Non Loan Shares</li> <li>• TESOP 97 Loyalty Shares (Where you <u>elect</u> to seek the \$1,000 tax exemption in your 1997/98 tax return)</li> </ul>	<p><b><u>Restriction Period expires</u></b></p> <p>There is no Restriction Period for these shares.</p> <p><b><u>When you sell your shares</u></b></p> <p>When you sell these shares you have a choice to calculate your capital gain as either:</p> <p>(i) <u>Half of</u> - the amount equal to proceeds of sale less \$3.30 (after first taking into account any capital losses); or</p> <p>(ii) Proceeds of sale less \$3.39 (i.e. \$3.30 adjusted for inflation until 30 September 1999)</p> <p><a href="#">[Example (No.2)]</a> relating to the tax consequences of the sale of your TESOP 97 Non-Loan shares.</p> <p><a href="#">[Example (No.5)]</a> relating to the tax consequences of the sale of your TESOP 97 Loyalty Shares.</p> <p><a href="#">[Example (No.6)]</a> relating to the tax consequences of the sale of your 1997 Public Offer Shares.</p>	<p><b><u>Restriction Period expires</u></b></p> <p>There is no Restriction Period for these shares.</p> <p><b><u>When you sell your shares</u></b></p> <p>This is not applicable in 2006/7</p>

-----------------	---	---	--

## **Disclaimer**

This is a general description of the tax consequences, which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation.**

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you **should seek guidance from your own registered tax adviser.**

# Illustrative Examples

**# Note – the share prices and the tax market values referred to in these examples are for illustration purposes only. The tax market value of a share on a particular day is available from the Telstra Share Registry ( (03) 9615 9750).**

**## Note - these examples deal only with the taxation consequences for participants who are assessed under the capital gains tax provisions (and not the ordinary income provisions) for a disposal of shares in the 2006/7 year. They do not deal with the taxation consequences of disposing of shares in earlier or later years.**

**### Note - these examples deal ONLY with the tax consequences if you are a continuing employee or you ceased your relevant employment with Telstra during the 2006/7 year. They do not deal with participants who ceased employment prior to the 2006/7 year.**

**#### Note - these examples assume that participants will not have capital losses available to offset against any capital gains made on the disposal of the shares.**

<u>Share Type</u>	<u>Example</u>
TESOP 97 Loan Shares	1
TESOP 97 Non-Loan Shares	2
TESOP 97 Extra Loan Shares	3
TESOP 97 Extra Non-Loan Shares	4

TESOP 99 Loan Shares	10
TESOP 99 Extra Shares	11
TESOP 99 Loyalty Shares	12
1999 Shares Purchased through the stock exchange	13

## Example 1

### TESOP 97 Loan Shares

#### Example:

- As part of the 1997 Public float of Telstra shares you took up the maximum employee offer of 2,000 loan shares.
- These shares were subject to a trade Restriction Period.
- On 4 December 2006 you asked the TESOP Trustee to sell your shares.
- The TESOP Trustee sold your shares for \$3.74 per share and repaid your loan immediately.
- Alternatively, you ceased employment on 24 November 2006 and asked the TESOP Trustee to sell your shares for you. The TESOP Trustee sold your shares for \$3.74 per share on 4 December 2006 and repaid your loan immediately. The balance of the proceeds were then forwarded to you.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
  - For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

#### **Tax consequences - If you elected to seek \$1,000 tax exemption in your 1997/98 tax return**

Your capital gain or loss from the sale will equal the proceeds of the sale less the tax market value of the shares at 4 December 2006 which is the expiry of the Restriction Period i.e. when the loan was repaid by the Trustee.

Consequently, your capital gain or loss is:  $(2,000 \times \$3.74) - (2,000 \times \$3.74) = \text{Nil}$

*Note – if you had paid out the loan on 4 December 2006 and had the TESOP Trustee transfer the shares to you:*

- *Your cost base for future sale purposes would be \$3.74 i.e. the tax market value on the date the loan is repaid in full; and*
- *You would have to hold the shares for a further 12 months to be eligible for the 50% CGT discount.*

Note: You may choose to apply the capital gains tax provisions differently from the basis outlined above. You may choose \$3.30 as the cost base for your shares. Such a choice may result in you making a capital gain.

#### **Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1997/98 tax return**

You will be assessable under the Employee Share Scheme provisions of the Tax Act on the difference between the sales proceeds for your shares and what you paid for the shares (i.e. the amount initially loaned to you to purchase the shares). In this example the expiry of the restriction period is 4 December 2006 i.e. when the loan was repaid.

Consequently, you will be assessed on:  $(2,000 \times \$3.74) - ((2,000 \times \$3.30) - \$1.00) = \$880$

In these circumstances the sale will not have any CGT consequences because the sale was made within 30 days of the earlier of the expiry of the restriction period and the cessation of your relevant employment.

*Note – if you are a continuing employee and you had paid out the loan on 4 December 2006 and had the TESOP Trustee pass the shares to you:*

- *Your cost base for future sale purposes would be \$3.74 (assuming you held the shares for at least 30 days prior to disposing of them); and*
- *You would have to hold the shares for a further 12 months from 4 December 2006 to be eligible for the 50% CGT discount.*

## Example 2

### TESOP 97 Non-Loan Shares

#### Example:

- As part of the 1997 Public float of Telstra shares you took up the maximum employee offer of 2,000 non-loan shares at their public offer price of \$3.30
- These shares were **not** subject to a trade Restriction Period.
- On 4 December 2006 you sold your shares for \$3.74 per share.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.

**Whether you elected to seek the \$1,000 tax exemption in your 1997/98 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.**

In calculating your capital gain from the sale you will have a choice between being assessed on **either**:

- half of - the amount equal to the proceeds of sale less \$3.30 (Alternative A); or
- the proceeds of sale less the indexed cost base of the shares at 30 September 1999 (Alternative B).

#### *Alternative A*

Under this alternative, your capital gain is:

$$[(2,000 \times \$3.74) - (2,000 \times \$3.30)] \times 50\% = \$440$$

#### *Alternative B*

Under this alternative, your capital gain is:

$$(2,000 \times \$3.74) - (2,000 \times \$3.39) = \$700$$

$$\text{Indexed cost base at 30 September 1999: } \$3.30 \times 123.4 \div 120.0 = \$3.39$$

## Example 3

### TESOP 97 Extra Loan Shares

#### Example:

- As part of the 1997 Public float of Telstra shares you took up the maximum employee offer of 2,000 loan shares
- Consequently you were entitled to 500 extra loan shares.
- These shares were subject to a trade Restriction Period.
- On 4 December 2006 you asked the TESOP Trustee to sell your shares.
- The TESOP Trustee sold your shares for \$3.74 per share.
- Alternatively, you ceased employment on 24 November 2006 and asked the TESOP Trustee to sell your shares for you. The TESOP Trustee sold your shares for \$3.74 per share on 4 December 2006 and repaid your loan immediately. The balance of the proceeds were then forwarded to you.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
  - For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

#### **Tax consequences - If you elected to seek \$1,000 tax exemption in your 1997/98 tax return**

Your capital gain from the sale will equal the proceeds of the sale less the tax market value of shares at 4 December 2006 which is when the Restriction Period expires in this example i.e. when the loan was repaid.

Consequently, your capital gain is:  $(500 \times \$3.74) - (500 \times \$3.74) = \text{Nil}$

*Note – if you had paid out the loan on 4 December 2006 and had the TESOP Trustee pass the shares to you:*

- *Your cost base for future sale purposes would be \$3.74 .ie. the tax market value on the date the loan is repaid in full; and*
- *You would have to hold the shares for a further 12 months to be eligible for the 50% CGT discount.*

Note: You may choose to apply the capital gains tax provisions differently from the basis outlined above. You may choose \$3.30 as the cost base for your shares. However, such a choice may result in you making a capital gain.

#### **Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1997/98 tax return**

You will be assessable under the Employee Share Scheme provisions of the Tax Act on the sales proceeds for your shares.

Consequently, you will be assessed on:  $(500 \times \$3.74) = \$1,870$

In these circumstances the sale will not have any CGT consequences because the sale was made within 30 days of the earlier of the expiry of the restriction period and the cessation of your relevant employment.

*Note – if you are a continuing employee and you had paid out the loan on 4 December 2006 and had the TESOP Trustee pass the shares to you:*

- *Your cost base for future sale purposes would be \$3.74 (assuming you held these shares for at least 30 days prior to disposing of them); and*
- *You would have to hold the shares for a further 12 months to be eligible for the 50% CGT discount.*

## Example 4

### TESOP 97 Extra Non-Loan Shares

#### Example:

- As part of the 1997 Public float of Telstra shares you took up the maximum employee offer of 2,000 non-loan shares. You did not take advantage of the Telstra loan.
- Consequently you were entitled to 500 extra non-loan shares.
- These shares were subject to a trade Restriction Period which expired on 15 November 2000. (This example assumes you did not cease your relevant employment with Telstra before 15 November 2000). The tax market value of the shares was \$6.58 on 15 November 2000.
- On 4 December 2006, you sold your shares for \$3.74 per share.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.

For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

#### **Whether you elected to seek the \$1,000 tax exemption in your 1997/98 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.**

Your capital loss from the sale will equal \$6.58 (being the tax market value of shares at 15 November 2000, which is when the restriction period expired for extra non loan shares) less the proceeds of the sale.

Consequently, your capital loss is:  $(500 \times \$6.58) - (500 \times \$3.74) = (\$1,420)$

*The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

*Note – if the TESOP Trustee transferred the shares to you and you did not dispose of them:*

- *Your cost base for future sale purposes would be \$6.58; and*
- *If you sold your shares after 15 November 2001 (i.e. you held the shares in your own name for longer than 12 months) for a price exceeding \$6.58 you would be eligible for the 50% CGT discount.*

Note: If you elected to seek the \$1,000 tax exemption in your 1997/98 tax return, you may choose to apply the capital gains tax provisions differently from the basis outlined above. You may choose \$3.30 as the cost base for your shares. However, such a choice may result in you making a capital gain.

## Example 5

### TESOP 97 Loyalty Shares

#### Example:

- As part of the 1997 Public float of Telstra shares you purchased 2,000 shares under the public offer (at their public offer price of \$3.30)
- You held your purchased shares for more than 12 months and consequently you were entitled, under the employee offer, to a further 200 loyalty shares.
- These loyalty shares were **not** subject to a trade Restriction Period.
- On 4 December 2006 you sold your loyalty shares for \$3.74 per share.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
- This example assumes that you did not cease your relevant employment with Telstra before 17 November 1998.

#### **Tax consequences - If you elected to seek \$1,000 tax exemption in your 1997/98 tax return**

In calculating your capital gain or loss from the sale you will have a choice between being assessed on **either**:

- half of - the amount equal to the proceeds of sale less \$3.30 (Alternative A); or
- the proceeds of sale less the indexed cost base of the shares at 30 September 1999 (Alternative B).

#### **Alternative A**

Under this alternative, your capital gain is:  $[(200 \times \$3.74) - (200 \times \$3.30)] \times 50\% = \$44$

#### **Alternative B**

Under this alternative, your capital gain is:

$$(200 \times \$3.74) - (200 \times \$3.39) = \$70$$

$$\text{Indexed cost base at 30 September 1999: } \$3.30 \times 123.4 \div 120.0 = \$3.39$$

#### **Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1997/98 tax return**

Your capital loss from the sale will be \$6.55 less the proceeds of sale

\$6.55 is the tax market value of shares on 17 November 1998 being the date TESOP 97 Loyalty Shares were allotted.

$$\text{Your capital loss is: } (200 \times \$6.55) - (200 \times \$3.74) = (\$562)$$

*The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

## Example 6

### 1997 Public Offer Shares

#### Example:

- As part of the 1997 Public float of Telstra shares you acquired 2,000 shares at their public offer price of \$3.30
- These shares were **not** subject to a trade Restriction Period.
- On 4 December 2006 you sold your shares for \$3.74 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

**Whether you elected to seek the \$1,000 tax exemption in your 1997/98 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.**

Under the capital gains tax provisions, in calculating your capital gain from the sale you will have a choice between being assessed on **either**:

- half of - the amount equal to the proceeds of sale less \$3.30 (Alternative A); or
- the proceeds of sale less the indexed cost base of the shares at 30 September 1999 (Alternative B).

For certain taxpayers the gain made on the sale of the shares will be treated as ordinary income.

#### *Alternative A*

Under this alternative, your capital gain is:  $(2,000 \times \$3.74) - (2,000 \times \$3.30) \times 50\% = \$440$

#### *Alternative B*

Under this alternative, your capital gain is:

$$(2,000 \times \$3.74) - (2,000 \times \$3.39) = \$700$$

$$\text{Indexed cost base at 30 September 1999: } \$3.30 \times 123.4 \div 120.0 = \$3.39$$

## Example 7

### 1997 Shares through the Stock Exchange

#### Example:

- On 1 December 1997 you purchased 2,000 instalment receipts through the stock exchange for \$2.40.
- These shares were **not** subject to a trade Restriction Period.
- On 17 November 1998 you paid the 2<sup>nd</sup> instalment of \$1.40.
- On 4 December 2006 you sold your shares for \$3.74 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

#### **Whether you elected to seek the \$1,000 tax exemption in your 1997/98 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.**

Under the capital gains tax provisions, in calculating your capital gain from the sale you will have a choice between being assessed on **either**:

- half of - the amount equal to the proceeds of sale less \$3.80 (Alternative A); or
- the proceeds of sale less the indexed cost base of the shares at 30 September 1999 (Alternative B).

For some taxpayers the gain on the sale of the shares will be treated as ordinary income.

#### *Alternative A*

Under this alternative, your capital loss is:  $[(2,000 \times \$3.74) - (2,000 \times \$3.80)] = \$120$

#### *Alternative B*

Under this alternative, your capital loss is:

$$(2,000 \times \$3.74) - (2,000 \times \$3.90) = \$320$$

$$\text{Indexed cost base at 30 September 1999: } \$3.80 \times 123.4 \div 120.0 = \$3.90$$

#### *Note:*

*The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

## Example 8

### 1999 Guaranteed Allocation Shares

#### Example:

- As part of the 1999 Staff Offer you acquired 2,000 shares at their public offer price of \$7.40
- These shares were **not** subject to a trade Restriction Period.
- On 4 December 2006 you sold these shares for \$3.74 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

**Whether you elected to seek the \$1,000 tax exemption in your 1999/2000 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.**

Under the capital gains tax provisions, your capital loss is:  $(2,000 \times \$3.74) - (2,000 \times \$7.40) = \$(7,320)$

For some taxpayers the gain/loss made on the sale of the shares will be dealt with under the “income” provisions of the tax rules.

*Note:*

*The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

## Example 9

### 1999 Public Offer Shares

#### Example:

- As part of the 1999 **Public** Offer of Telstra shares you acquired 2,000 shares at their public offer price of \$7.40
- These shares were **not** subject to a trade Restriction Period.
- On 4 December 2006 you sold these shares for \$3.74 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

**Whether you elected to seek the \$1,000 tax exemption in your 1999/2000 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.**

Under the capital gains tax provisions, your capital loss is:  $(2,000 \times \$3.74) - (2,000 \times \$7.40) = \$(7,320)$

For some taxpayers the gain/loss made on the sale of the shares will be dealt with under the “income” provisions of the tax rules.

*Note:*

*The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

## Example 10

### TESOP 99 – Loan Shares

#### Example:

- As part of the 1999 float of Telstra shares you took up the maximum employee offer of 400 loan shares
- These shares were subject to a trade Restriction Period.
- On 4 December 2006 your relevant employment ceased with Telstra. At the time your outstanding loan was \$2,500 and the shares were trading at \$3.74.
- As the loan balance in respect of these shares exceeded the net amount (ie including brokerage etc) that could be realised on the disposal of the shares, the TESOP Trustee continued (in accordance with the TESOP Trust Deed) to hold the shares on your behalf. The TESOP Trustee will continue to hold the shares until the shares are sold. The shares will be sold when and only if the proceeds of the sale (after deducting the costs of the sale) exceed the amount which remains outstanding on the loan. The TESOP Trustee will notify you of the disposal of the shares. In the meantime, a proportion (currently 80%) of future dividends payable after the time your relevant employment with Telstra ceased and before the shares are disposed of, will continue to be used to reduce the outstanding loan balance.

#### **Tax consequences - If you elected to seek \$1,000 tax exemption in your 1999/2000 tax return**

In the 2006/7 year of Income:

None – The shares have not been sold by the Trustee in this period because the net proceeds of any sale in this period would be insufficient to fully repay your outstanding loan in respect of the shares.

*Note – if you had paid out the loan on 4 December 2006 and had the TESOP Trustee transfer the shares to you:*

- *You may choose to use \$7.40 as the cost base for future sale purposes*
- *If you do not make this choice your cost base for future sale purposes would be \$3.74 ie the tax market value on the date the loan was repaid in full*
- *You would have to hold the shares for a further 12 months to be eligible for the 50% CGT discount*

Future years of Income:

You may make a capital gain or loss in the year in which the TESOP Trustee ultimately disposes of these shares.

The capital gain or loss when the Trustee sells your shares will be calculated by reference to (at your choice) :

- the tax market value of the shares at the date you first acquired an interest in them (ie \$7.40); or
- the tax market value of the shares immediately prior to when the Trustee disposes of the shares on your behalf.

#### **Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1999/2000 tax return**

As the tax market value of your shares when you ceased relevant employment with the Telstra group was less than what you paid for your shares (i.e. the amount initially loaned to you to purchase the shares) there is no amount assessable under the Employee Share Scheme provisions of the Tax Act.

The capital gain or loss when the Trustee sells your shares will be calculated by reference to the sales proceeds and the tax market value of the shares on the date you ceased relevant employment with the Telstra Group.

***Note – if you had paid out the loan on 4 December 2006 and had the TESOP Trustee transfer the shares to you:***

- *Your cost base for future sale purposes would be \$3.74 (assuming you held these shares for at least 30 days prior to disposing of them); and*
- *You would have to hold the shares for a further 12 months to be eligible for the 50% CGT discount.*

## Example 11

### TESOP 99 – Extra Shares

#### Example:

- As part of the 1999 float of Telstra shares you acquired 800 Guaranteed Entitlement shares
- Consequently you were entitled to 200 extra shares.
- These shares were subject to a trade Restriction Period which expired on 16 October 2002. This example assumes that you did not leave your relevant employment with Telstra before 16 October 2002. The TESOP Trustee transferred the shares to you on that date. The tax market value on that date was \$4.81 per share.
- On 4 December 2006 you sold the shares for \$3.74.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.

For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

#### **Tax consequences - If you elected to seek \$1,000 tax exemption in your 1999/2000 tax return**

If you make the choice to use \$7.40 as the cost base for your shares, your capital loss from the sale will equal \$7.40 less the proceeds of the sale

Consequently, your capital loss is:  $(200 \times \$3.74) - (200 \times \$7.40) = \$(732)$

Note: If you do not choose \$7.40 as your cost base, the share's cost base will be \$4.81 being the tax market value of the shares at the expiry of the restriction period. In such a case your capital loss would be reduced.

#### **Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1999/2000 tax return**

You should previously have been assessed under the Employee Share Scheme provisions of the Tax Act on \$4.81 per share being the tax market value of the shares at the expiry of the restriction period. However, as the tax market value of your shares on the date you sold them is less than the value on the date the restriction period expired, there is no assessable amount. Instead, you will realise a capital loss.

Accordingly, your capital loss is:  $(200 \times \$3.74) - (200 \times \$4.81) = \$(214)$

*The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

## Example 12

### TESOP 99 – Loyalty Shares

#### **Example:**

- As part of the 1999 float of Telstra shares you acquired 800 Guaranteed Entitlement shares
- You held these shares for longer than 12 months and therefore you were entitled to 80 loyalty shares.
- These shares were subject to a trade Restriction Period which expired on 16 October 2002. This example assumes that you did not leave your relevant employment with Telstra before 16 October 2002. The TESOP Trustee transferred the shares to you on that date. The tax market value of Telstra shares on that date was \$4.81 per share.
- On 4 December 2006 you sold the shares for \$3.74.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.

For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

#### **Tax consequences - If you elected to seek \$1,000 tax exemption in your 1999/2000 tax return**

If you make the choice to use \$7.40 as the cost base for your shares, your capital loss from the sale will equal \$7.40 less the proceeds of the sale.

Consequently, your capital loss is:  $(80 \times \$3.74) - (80 \times \$7.40) = \$(292.80)$

Note: If you do not choose \$7.40 as your cost base, the share's cost base will be \$4.81 being the tax market value of the shares at the expiry of the restriction period. In such a case your capital loss will be reduced.

#### **Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1999/2000 tax return**

You should previously have been assessed under the Employee Share Scheme provisions of the Tax Act on \$4.81 per share being the tax market value of the shares at the expiry of the restriction period. However, as the tax market value of your shares on the date you sold them is less than the value on the date the restriction period expired, there is no assessable amount. Instead, you will realise a capital loss.

Accordingly, your capital loss is:  $(200 \times \$3.74) - (200 \times \$4.81) = \$(214)$

*The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

## Example 13

### 1999 Shares Purchased through the Stock Exchange

#### Example:

- On 1 December 1999 you purchased 2,000 instalment receipts through the stock exchange for \$3.70
- These shares were **not** subject to a trade Restriction Period.
- On 2 November 2000 you paid the 2<sup>nd</sup> instalment of \$2.90.
- On 4 December 2006 you sold your shares for \$3.74 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

**Whether you elected to seek the \$1,000 tax exemption in your 1999/2000 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.**

Your capital loss from the sale will equal the cost of the shares/instalment receipts less your proceeds from the disposal.

Consequently, your capital loss is:  $(2,000 \times \$3.74) - (2,000 \times (\$3.70 + \$2.90)) = \$5,720$

*The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

## Example 14

### T3 Instalment Receipts (T3 IRs)

#### Example:

- As part of the T3 float you purchased 1,000 IRs for \$3.60 (\$2.00 paid with your application, with a 2<sup>nd</sup> instalment payable on 29 May 2008).
- These shares were **not** subject to a trade restriction period.
- You have a cost base in respect of the IRs equivalent to \$3.46 x 1,000 underlying Sale Shares, plus \$3.46 x 40 Loyalty Rights. (Note – this is equivalent to \$3.60 x 1,000 T3 IRs).
- You sell 500 Sale Shares on 2 February 2007 for \$2.50 each.
- For the purposes of this example we have ignored selling costs such as brokerage.

**Whether you elected to seek the \$1,000 tax exemption in your 1999/2000 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.**

Under the capital gains tax provisions, your capital loss on the disposal of the IRs is:  $(20 \times 0) - (20 \times \$3.46) = \$69.20$

Your capital gain on the disposal of the IRs is:  $((500 \times (\$2.50 + \$1.60)) - (500 \times (\$1.86 + \$1.60))) = \$320$

Your net capital gain is:  $(\$320 - \$69.20) = \$250$

The calculation of the lapsing of the Loyalty Rights adds a technical complication. As you will appreciate the practical effect of the sale is a capital gain as follows:  $(500 \times (\$2.50 + \$1.60)) - (500 \times (\$2.00 + \$1.60)) = \$250$

*Note: The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.*

## **Disclaimer**

This is a general description of the tax consequences, which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation.**

The description of the capital gains tax consequences of your sale of T3 IRs in the 2006/07 year is based on **Class Ruling (CR 2007/51) issued by the Commissioner of Taxation.**

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you should **seek guidance from your own registered tax adviser.**

## Questions & Answers – 2005/2006

- Q How do I find out what TESOP shares I have if I can't remember?**
- A** If you would like to find out more information on what TESOP shares you have you should contact the Telstra ESOP hot line on (03) 9615 9750 or you can visit the Share Registrar's web site at <http://www.linkmarketservices.com.au> and select "Access My Holdings". To gain access to data on your TESOP shares, you will need to select Telstra Corporation Limited from the drop-down list, enter in your Securityholder Reference Number (SRN), your surname and postcode.
- Q What do I need to do if I have TESOP 97 and/or TESOP 99 shares, still work with Telstra and have not sold any of my TESOP 97 or TESOP 99 shares or repaid any amounts on my loans?**
- A** You should include the dividends you received, together with the attached franking credits, as assessable income at **Item 11, Boxes S, T and U** of your 2006/7 tax return. This is the case even if the dividends were paid to you via the TESOP Trusts and even if part of the dividend has been applied to reduce your Telstra provided loans.
- Q Under what circumstances will the gains made on the disposal of shares be assessed as ordinary income?**
- A.** Generally if the shares were purchased for "share trading" purposes. However, this will depend entirely upon your own circumstances and you should seek expert taxation advice in relation to this matter.

**Q. What is the tax market value and why is it important for me to know what it is?**

- A.** The tax market value of a share on a particular day is the weighted average of the prices at which the share was traded on the stock exchange in the one week up to and including the particular day.

The tax market value of a share on a particular day is available from the Telstra Share Registry ((03) 9615 9750).

The tax market value is relevant to determining any capital gains/losses you may have made if you have disposed of your TESOP shares. It is also relevant in determining any amount you may be assessed on at the end of the restriction period if you have not made a written election to seek the \$1,000 tax exemption in your 1997/1998 tax return (in respect of your TESOP 97 shares) or in your 1999/2000 tax return (in respect of your TESOP 99 shares).

**Q. What are TESOP 97 and TESOP 99?**

- A.** TESOP '97 – offer made to employees to acquire shares in Telstra under the Telstra Employee Share Ownership Plan as part of the 1997 initial public float of Telstra shares.

TESOP '99 – offer made to employees to acquire shares in Telstra under the Telstra Employee Share Ownership Plan as part of the 1999 additional public float of Telstra shares.

**Q. Can I change my mind about making a written election?**

- A.** No, if you made an election for TESOP 97 and TESOP 99 the election is irrevocable. It is also too late to make a written election in respect of your TESOP 97 or TESOP 99 shares if you have not already made the written election, unless the Commissioner of Taxation specifically allows you to do so. You should discuss this matter further with your tax adviser.

**Q. What happens if I sold my shares, or some of my shares before 30 June 2007 but don't get paid for them until after that date?**

- A.** Generally, the relevant date on a sale of shares for capital gains tax purposes is the contract date. This means that if you made a contract to sell your shares in the year ending 30 June 2007 the tax consequences of selling your shares will generally be in the year ending 30 June 2007. You should discuss this matter further with your tax adviser.

**Q. I find this all very confusing – where can I get some help?**

**A.** This is a very complex area of taxation law. A guide is available at [http://www.telstra.com.au/abouttelstra/investor/employee\\_scheme\\_general.cfm](http://www.telstra.com.au/abouttelstra/investor/employee_scheme_general.cfm). However, if you have any further queries you should seek your own expert tax advice.

**Q. If I sold my TESOP 97 or TESOP 99 shares in the last few years and calculated my Capital Gains Tax liability based on an incorrect cost base, what should I do?**

**A.** You are able to request an amended assessment from the ATO within 4 years of the date of the incorrect original assessment.

You only have a choice in relation to how you calculate your cost base for certain TESOP shares. The choice applies only to those TESOP shares subject to a trade restriction period (refer the restriction period table in the Guide) and only where you sought the \$1,000 tax exemption in your 1997/1998 tax return (in respect of your TESOP 97 shares) or in your 1999/2000 tax return (in respect of your TESOP 99 shares).

### **Disclaimer**

This is a general description of the tax consequences, which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation.**

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you **should seek guidance from your own registered tax adviser.**

## Glossary

- **1997 Public Offer Shares** – shares acquired through the public offer in November 1997.
- **1999 Public Offer Shares** – shares acquired through the public offer in October 1999.
- **2006 Public Offer Instalment Receipts** – shares acquired through the public offer in November 2006.
- **Guaranteed Allocation Shares** – shares purchased by employees, with their own money, under the Commonwealth component of TESOP '99.
- **Tax Market Value** - the weighted average of the prices at which the shares were traded on the stock exchange in the one week up to and including the day on which the restriction period ends. This value is available from the Telstra Share Registry ((03) 9615 9750).
- **Telstra** – Telstra Corporation Limited or a subsidiary of Telstra.
- **TESOP '97** – offer made to employees to acquire shares in Telstra under the Telstra Employee Share Ownership Plan as part of the 1997 initial public float of Telstra shares.
- **TESOP'97 Extra Loan Shares** – the extra 1 for 4 shares provided to employees who acquired Loan shares in TESOP '97.
- **TESOP'97 Extra Non-Loan Shares** – the extra 1 for 4 shares provided to employees who acquired Non-Loan Shares in TESOP '97.
- **TESOP'97 Loan Shares** – shares purchased by employees as part of TESOP '97 using the interest free loan provided by Telstra.
- **TESOP'97 Loyalty Shares** - the extra 1 for 10 shares provided to employees who acquired Public Offer Shares in the 1997 float of Telstra shares and held them for 12 months.
- **TESOP'97 Non-Loan Shares** - shares purchased by employees as part of TESOP '97 using their own money instead of the interest free loan provided by Telstra.
- **TESOP '99** – offer made to employees to acquire shares in Telstra under the Telstra Employee Share Ownership Plan as part of the 1999 additional public float of Telstra shares.
- **TESOP '99 Loan Shares** – shares acquired by employees as part of the Telstra component of TESOP '99 using the interest free loan provided by Telstra.
- **TESOP '99 Loyalty Shares** - the extra 1 for 10 shares provided under the Commonwealth component of TESOP 99 to employees who acquired Guaranteed Allocation Shares and held them until at least 2 November 2000.
- **TESOP Extra '99 Shares** - the extra 1 for 4 shares provided under the Commonwealth component of TESOP '99 to employees who acquired Guaranteed Allocation Shares.
- **Subsequent share purchases** – any other shares or instalment receipts acquired by an employee other than as part of TESOP '97, TESOP '99 or as part of the public float in 1997 or further public float in 1999.
- **Written Elections** – the election under tax law made by an employee before they lodged their 1997/98 Tax Return (affecting their TESOP 97 shares) and/or their 1999/2000 Tax Return (affecting their TESOP 99 shares).
