

GENERAL COMMENTS

No Written Election Required for 2010/11 but past Written Elections still relevant

Again, this year you do **not** have to consider making any written elections in respect of the TESOP shares you acquired under TESOP 97 or TESOP 99.

You will not be assessed this year under the employee share scheme provisions of the Tax Act on TESOP shares you acquired under TESOP 97 or TESOP 99.

This is because a taxing point will already have arisen in respect of those shares at the following time:

- if you made a written election in the income year in which you acquired your shares (being the 1997/98 income year for TESOP 97 shares and/or the 1999/2000 income year for TESOP 99 shares) to be taxed upfront on your shares – the date of grant (being 15 November 1997 for TESOP 97 shares and 16 October 1999 for TESOP 99 shares); or
- if you did **not** make a written election in the income year in which you acquired your shares – the **earlier** of the following potential taxing points:
 - the date your loan was repaid to the Trustee;
 - the date your relevant employment with the Telstra Group ceased; or
 - 10 years from the date of grant (being 15 November 2007 for TESOP 97 shares and/or 16 October 2009 for TESOP 99 shares).

The outstanding amount of Telstra provided loans in respect of TESOP 1997 was repaid in full on 25 March 2011 (dividend date). The TESOP Trustee has transferred the balance of the Loan Shares and any extra Non Loan Shares in your account to you.

However, as the 10 year anniversary date for both TESOP 97 shares and TESOP 99 shares passed before the date of full loan repayment, a taxing point will have already arisen in respect of your TESOP shares in previous income years. Therefore **no** further action is required by you unless you sold your shares during the 2010/11 income year.

DIVIDENDS ON TESOP 97 AND TESOP 99 SHARES RECEIVED IN 2010/11 TO BE INCLUDED IN YOUR ASSESSABLE INCOME

During 2010/11 Telstra paid a fully franked final dividend for 2009/10 of 14 cents per share which was paid on 24 September 2010 and a fully franked interim dividend for 2010/11 of 14 cents per share which was paid on 25 March 2011.

You should include the dividends you received, together with the attached franking credits, as assessable income at Item 11, Boxes S, T and U of your 2010/11 tax return. This is the case even if the dividends were paid to you via the TESOP Trusts and even if part of the dividend has been applied to reduce your Telstra provided loans.

WHAT HAPPENS IF YOU SOLD YOUR TESOP OR OTHER TELSTRA SHARES IN 2010/11?

There will be tax consequences if you disposed of your TESOP shares during the 2010/11 year. The tax consequences will differ depending upon your individual circumstances.

You should click on the table below to assist you in determining the capital gains tax consequences for you. It will be important for you to refer to the appropriate box in the table to determine the capital gains tax consequences. These boxes do **not** deal with circumstances where you are assessed otherwise than under the capital gains tax provisions.

You should be aware that the gains on the disposal of shares by certain taxpayers may effectively be assessed as ordinary income rather than under the capital gains tax provisions. Please refer to the ["At a glance - Tax Consequences when you dispose of your TESOP 97, TESOP 99 and Telstra Shares or the Restriction Period Expires"](#) document for more information.

Please refer to the [examples](#) document to assist you in determining the tax consequences for you.

The following general comments will also help you to determine the tax consequences under the capital gains tax rules if you sold any of your Telstra shares.

If you disposed of shares for more than their tax cost you may be assessed on any net gain. If you disposed of shares for less than their tax cost you may be entitled to offset the loss against other capital gains you made in 2010/11 or to carry the loss forward to be offset against any capital gains you may make in the future. The tax cost of your shares is discussed further below in the section entitled *"What is the tax cost of your shares?"*

If you made a gain or loss under the capital gains tax provisions you should include the amount in the appropriate box at Item 18 of your 2010/11 tax return (Supplementary section).

Will you get the 50% Capital Gains Tax Discount?

Under the Capital Gains Tax provisions you may be entitled to a discount for assets you have held for 12 months or more ("12 month qualifying discount period"). Under this discount you may only be assessed on 50% of a capital gain you make (after allowance for any capital losses you may have) when you sell certain assets such as your Telstra shares.

The Commissioner of Taxation issued a Class Ruling (CR 2001/28) on 18 July 2001 applicable to TESOP Participants stating that, in the Commissioner's opinion, **where you sought the benefit of the \$1,000 tax exemption, shares must be held for longer than 12 months from the date that the Restriction Period ends** (the Restriction Period, in some cases, does not end when your relevant employment ceases) **not from the date when you acquired your shares under TESOP**, before the 50% CGT discount will be available.

[Please refer to the Table Setting Out - TESOP Restriction Periods included on this website.](#)

This is the same as the treatment where the \$1,000 tax exemption has **not** been sought. (Although, this is not specifically dealt with in the Class Ruling.)

What is the tax cost of your shares?

If you did **not** seek the \$1,000 tax exemption and you are assessed under the capital gains tax regime, the tax cost for the shares will be the "tax market value" of those shares at the earlier of when your relevant employment with the Telstra Group ceases or when your Restriction Period ends. However, if you have TESOP 97 Loan Shares and Extra Loan Shares and your loan was **not** repaid by 15 November 2007 (being the 10 year anniversary of the TESOP 97 scheme) your cost base for these shares is \$4.69 per share (being their tax market value on 15 November 2007). If you have TESOP 99 Loan Shares and your loan was **not** repaid by 16 October 2009 (being the 10 year anniversary of the TESOP 99 scheme) your cost base for these shares is \$3.15 (being their tax market value on 16 October 2009).

If you did seek the \$1,000 tax exemption, you will have a choice as to how you calculate your tax cost for the shares.

If you do **not** make a choice, then based on the Commissioner's opinion in CR 2001/28, **the tax cost for the shares will be the "tax market value" of those shares when the Restriction Period ends, not when you acquired your shares under TESOP.**

Note: the Restriction Period on your TESOP 97 Loan Shares and Extra Loan Shares ended on 25 March 2011, being the date the loan was repaid in full. The tax market value of those shares on 25 March 2011 was \$2.70.

You should have received notification from Telstra during the 2010/11 income year when your Restriction Period ended upon payment of the 2010/11 interim dividend.

If you **do** make the choice, then the tax cost for the shares will be the tax market value of the shares at the date you first acquired an interest in them, not the tax market value of the share at the date the Restriction Period ends. That is, \$3.30 in respect of TESOP 97 shares and \$7.40 in respect of TESOP 99 shares.

Due to the movement of the listed price of Telstra shares over recent years, it is possible that the market value of your shares at the date you first acquired them (i.e. \$3.30 in respect of TESOP 97 shares and \$7.40 in respect of TESOP 99 shares) may be higher than their market value at the date the Restriction Period ended. If this is the case, you should carefully consider making this choice in relation to your TESOP 97 shares and/or your TESOP 99 shares if you disposed of these shares during the 2010/11 year.

Generally, the higher the cost base of your shares the higher the capital loss you will realise upon sale, which may be offset against current or future year capital gains. Alternatively, in circumstances where the sale proceeds exceed your cost base for your shares, the higher the cost base the lower the capital gain upon which you may be assessed.

The way in which you prepare your 2010/11 income tax return will be sufficient evidence of the making of the choice. **You are not required to lodge a written election with the Australian Taxation Office evidencing your choice.**

Irrespective of whether or not you make the choice, the 12 month qualifying discount period will commence from the date the Restriction Period ends.

You may also make the choice in relation to shares you disposed of prior to the 2010/11 year of income. If you believe that such a choice would have been appropriate in your particular circumstances you should consult your registered tax adviser. It may be possible to seek an amendment to prior year assessments within 4 years after the day on which the tax became due and payable under the relevant assessment. You should carefully consider seeking an amended assessment if you disposed of TESOP 99 Loyalty Shares, TESOP 99 Extra Shares or TESOP 99 Loan Shares in prior years.

Under TESOP 97 and TESOP 99, when the Restriction Period ends the Trustee can, depending on the particular circumstances, sell the shares for you or transfer the shares to you. In either case the availability of the CGT

discount and the cost of your shares in determining whether you make a capital gain or loss are worked out in the way described in the table above.

Further information on the Telstra Employee Share Scheme is available at <http://www.telstra.com.au/abouttelstra/investor/my-shareholding/employee-shareholder-scheme/index.htm>

To view your TESOP holding online please go to the share registry's website at www.linkmarketservices.com.au/telstra, enter your shareholder reference number (SRN) and postcode. Alternatively, you may contact the share registry by telephone on 1300 88 66 77 or email telstra.esop@linkmarketservices.com.au.

Disclaimer

This is a general description of the tax consequences which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

This information has been prepared for participants who are, and will continue to be, Australian tax residents. The information does not apply to:

- (a) individuals engaged in foreign service;
- (b) temporary residents of Australia for tax purposes;
- (c) foreign tax residents; or
- (d) individuals who are no longer employees of Telstra.

If you fall within these categories you should discuss the matter with your tax advisor.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation.**

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you **should seek guidance from your own registered tax adviser.**

TESOP Trade Restriction Periods

Where you sought the relevant \$1,000 tax exemption (in your 1997/98 tax return and/or your 1999/2000 tax return)

Share Type	Restriction Period Expiry Date
TESOP '97 – Loan Shares / Extra Loan Shares	Latter of : <ul style="list-style-type: none"> • 15 November 2000; or • the date the loan is repaid ¹
TESOP '97 – Extra (1:4) Non-loan Shares	Earlier of: <ul style="list-style-type: none"> • 15 November 2000; or • when you cease employment with the Telstra Group ²
TESOP '99 – Extra (1:4) Shares and TESOP '99 – Loyalty (1:10) Shares	Earlier of: <ul style="list-style-type: none"> • 16 October 2002; or • when you cease employment with the Telstra Group ²
TESOP '99 - Loan Shares	For continuing employees the date is the latter of : <ul style="list-style-type: none"> • 16 October 2002; or • the date the loan is repaid ³
<ol style="list-style-type: none"> 1. This is irrespective of whether your relevant employment with the Telstra Group has ceased. If you had ceased employment prior to 15 November 2000, the relevant date was when the loan was repaid. Where the shares are sold for you by the Trustee, the relevant time is immediately prior to when the shares are sold. 2. This also includes situations where you cease employment with a company that was part of the Telstra Group at the time of the relevant Telstra float (and you were employed by that company at the time of the float). 3. This is irrespective of whether your relevant employment with the Telstra Group has ceased. However, if you cease employment prior to 16 October 2002, the relevant date is when the loan was repaid. Where the shares are sold for you by the trustee, the relevant time is immediately prior to when the shares are sold. 	

Where you did not seek the relevant \$1,000 tax exemption (in your 1997/98 tax return and/or your 1999/2000 tax return)

The expiry of the relevant Restriction Period will be determined in the same manner as described in the table.

When working out whether you make a capital gain or loss when you sold your TESOP shares, the tax cost will be the Tax Market Value of those shares at the earlier of:

- the abovementioned times;
- when your relevant employment with the Telstra Group ceased; or
- The 10 year anniversary of the relevant share scheme.

Disclaimer

This is a general description of the tax consequences, which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

All information provided is of a general nature only and circumstances may vary greatly between participants. The information has been prepared for participants who are, and will continue to be, Australian tax residents. The information does not apply to:

- (a) individuals engaged in foreign service;
- (b) temporary residents of Australia for tax purposes; or
- (c) individuals who are no longer employees of Telstra.

If you fall within one of these categories you should discuss the matter with your tax advisor.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation.**

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you **should seek guidance from your own registered tax adviser.**

At a glance - Tax consequences if you dispose of your TESOP 97, TESOP 99 and Telstra Shares or the Restriction period expires in 2010/11

This section will assist you in determining the capital gains tax consequences if you sell your TESOP 97, TESOP 99 or Telstra Shares in 2010/11 or the Trustee disposes of your TESOP 97 or TESOP 99 Shares on your behalf in 2010/11. The table also indicates the tax consequences which arise when the Restriction Period (if any) expires.

It is important that you refer to the appropriate box in the main table below. The appropriate box for you to refer to in the main table below depends upon:

- the type of shares you acquired;
- whether you made an election in respect of those shares or not; and
- whether your relevant employment with Telstra continues or ceased in 2010/11.

You cease relevant employment with Telstra if you are no longer employed by any of the following:

- your employer when you acquired your shares; or
- a company in the Telstra Group.

Summary Reference Table

The following points and the Summary Reference Table below will help you to refer to the appropriate box in the main table below.

1. Refer to **BOX A** for TESOP 97 Non Loan Shares, 1997 Public Offer Shares and TESOP 97 Loyalty Shares (where you elected to seek the \$1,000 tax exemption in your 1997/98 tax return).
2. Refer to **BOX B** for TESOP 97 Loyalty Shares (where you did not elect to seek the \$1,000 tax exemption in your 1997/98 tax return).
3. Refer to **BOX C** for Guaranteed Allocation Shares and 1999 Public Offer Shares.
4. Refer to **BOX C1** for 2006 Public Offer T3 Shares.
5. Refer to **BOX D** for other Shares purchased on the Stock Exchange.

Type of Share	Continuing employee		Employee who ceased employment in 2010/11	
	Tax Election made in year shares acquired	No Tax Election made in year shares acquired	Tax Election made in year shares acquired	No Tax Election made in year shares acquired
TESOP 97 Loan Shares TESOP 97 Extra Loan Shares	E	F	G	H
TESOP 97 Extra Non-Loan Shares	I	J	I	J
TESOP 99 Loyalty Shares TESOP 99 Extra Shares	K	L	K	L
TESOP 99 Loan Shares	M	N	O	P

This table deals with the capital gains tax consequences of arm's length sales of shares in 2010/11. It is possible for a capital gains tax event to occur on a disposal of shares other than a sale.

In determining the gain or loss you may take into account certain additional costs, such as incidental selling costs. For example, brokerage on the sale of shares. You should draw these costs to the attention of your tax agent when preparing your tax return for 2010/11.

This table does not apply to employees whose relevant employment ceased before the 2010/11 year but who dispose of their shares in the 2010/11 year.

If you made an election in your 1997/98 tax return (affecting your TESOP 97 shares) and/or your 1999/2000 tax return (affecting your TESOP 99 shares) you may have a choice in relation to how you calculate the cost base of your shares for capital gains tax purposes. If you make the choice in relation to a share, the relevant tax cost will be:

- the tax market value of the share at the date you first acquired an interest in the share (i.e. \$3.30 in respect of TESOP 97 shares and \$7.40 in respect of TESOP 99 shares);
- **rather** than the tax market value of the share at the date the Restriction Period ends (refer table setting out TESOP Restriction Periods).

This choice may impact on the capital gain or loss you make when you dispose of your shares.

If you made an election in your 1999/2000 tax return and you disposed of your TESOP 99 Loyalty Shares, TESOP 99 Extra Shares or your TESOP 99 Loan Shares in the 2010/11 year, you should carefully consider making this choice.

If the Restriction Period on your TESOP 97 shares ended during the 2010/11 year, it is also possible that the market value of your shares at the date you first acquired them (\$3.30) may be higher than their market value at the date the Restriction Period ended. If this is the case, you should also carefully consider making this choice in relation to your TESOP 97 Loan Shares and Extra Loan Shares if you disposed of these shares during the 2010/11 year.

The way in which you prepare your 2010/11 income tax return will be sufficient evidence of the making of the choice. **You are not required to lodge a written election with the Australian Taxation Office evidencing your choice.**

The following tables assume that you would make the choice for your TESOP 99 shares (i.e. you would choose the \$7.40 cost base) and that you would **not** make such a choice in respect of your TESOP 97 shares (i.e. you would apply the tax market value of the share at the date the Restriction Period ends).

If you did not make an election in your 1997/98 tax return (affecting your TESOP 97 shares) and you had not previously ceased employment with the Telstra group or repaid your TESOP 97 loan by 15 November 2007 (the 10 year anniversary of the TESOP 97 scheme) the cost base of your TESOP 97 Loan Shares and Extra Loan Shares, for capital gains tax purposes, is \$4.69 (being the tax market value of the shares on 15 November 2007).

If you did not make an election in your 1999/2000 tax return (affecting your TESOP 99 shares) and you had not previously ceased employment with the Telstra group or repaid your TESOP 99 loan by 16 October 2009 (the 10 year anniversary of the TESOP 99 scheme) the cost base of your TESOP 99 Loan Shares and Extra Shares, for capital gains tax purposes, is \$3.15 (being the tax market value of the shares on 16 October 2009).

Box	Type of Shares	Capital Gains when you sell your shares Sales Proceeds > Tax Cost	Capital Losses when you sell your shares Sales Proceeds < Tax Cost
A	<ul style="list-style-type: none"> • 1997 Public Offer Shares • TESOP 97 Non Loan Shares • TESOP 97 Loyalty Shares (Where you <u>elect</u> to seek the \$1,000 tax exemption in your 1997/98 tax return) 	<p><u>Restriction Period expires</u></p> <p>There is no Restriction Period for these shares.</p> <p><u>When you sell your shares</u></p> <p>When you sell these shares you have a choice to calculate your capital gain as either:</p> <p>(i) <u>Half of</u> - the amount equal to proceeds of sale less \$3.30 (after first taking into account any capital losses); or</p> <p>(ii) Proceeds of sale less \$3.39 (i.e. \$3.30 adjusted for inflation until 30 September 1999)</p> <p>[Example (No.2)] relating to the tax consequences of the sale of your TESOP 97 Non-Loan shares.</p> <p>[Example (No.5)] relating to the tax consequences of the sale of your TESOP 97 Loyalty Shares.</p> <p>[Example (No.6)] relating to the tax consequences of the sale of your 1997 Public Offer Shares.</p>	<p><u>Restriction Period expires</u></p> <p>There is no Restriction Period for these shares.</p> <p><u>When you sell your shares</u></p> <p>When you sell these shares you calculate your capital loss as \$3.30 less proceeds of sale.</p> <p>The capital loss can be offset against other current year capital gains or can be carried forward to be offset against future capital gains.</p>

Disclaimer

This is a general description of the tax consequences, which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

This information has been prepared for participants who are, and will continue to be, Australian tax residents. The information does not apply to:

- (a) individuals engaged in foreign service;
- (b) temporary residents of Australia for tax purposes;
- (c) foreign tax resident; or
- (d) individuals who are no longer employees of Telstra.

If you fall within these categories you should discuss the matter with your tax advisor.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation**.

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you should seek guidance from your own registered tax adviser.

⁵ If, however, the loan was repaid in full by 16 October 2002, the Tax Market Value of your shares will be determined at 16 October 2002 and will be \$4.81

Illustrative Examples

Note – the share prices and the tax market values referred to in these examples are for illustration purposes only. The tax market value of a share on a particular day is available from the Telstra Share Registry (1300 88 66 77).

Note - these examples deal only with the taxation consequences for participants who are assessed under the capital gains tax provisions (and not the ordinary income provisions) for a disposal of shares in the 2010/11 year. They do not deal with the taxation consequences of disposing of shares in earlier or later years.

Note - these examples deal ONLY with the tax consequences if you are a continuing employee or you ceased your relevant employment with Telstra during the 2010/11 year. They do not deal with participants who ceased employment prior to the 2010/11 year.

Note - these examples assume that participants will not have capital losses available to offset against any capital gains made on the disposal of the shares.

<u>Share Type</u>	<u>Example</u>
TESOP 97 Loan Shares	1
TESOP 97 Non-Loan Shares	2
TESOP 97 Extra Loan Shares	3
TESOP 97 Extra Non-Loan Shares	4
TESOP 97 Loyalty Shares	5
1997 Public Offer Shares	6
1997 Shares Purchased through the stock exchange	7
1999 Guaranteed Allocation Shares	8
1999 Public Offer shares	9
TESOP 99 Loan Shares	10
TESOP 99 Extra Shares	11
TESOP 99 Loyalty Shares	12
1999 Shares Purchased through the stock exchange	13
T3 Sale Shares and Loyalty Shares	14

Example 1

TESOP 97 Loan Shares

Example:

- As part of the 1997 Public float of Telstra shares you took up the maximum employee offer of 2,000 loan shares.
 - These shares were subject to a trade Restriction Period.
 - On 3 December 2010 you asked the TESOP Trustee to sell your shares.
 - The TESOP Trustee sold your shares for \$2.82 per share and repaid your loan immediately.
 - For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
- For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

Tax consequences - If you elected to seek \$1,000 tax exemption in your 1997/98 tax return

Your capital gain or loss from the sale will equal the proceeds of the sale less the tax market value of the shares at 3 December 2010 which is the expiry of the Restriction Period i.e. when the loan was repaid by the Trustee.

Consequently, your capital gain or loss is: $(2,000 \times \$2.82) - (2,000 \times \$2.82) = \text{Nil}$

Note – if you had paid out the loan on 3 December 2010 and had the TESOP Trustee transfer the shares to you:

- *Your cost base for future sale purposes would be \$2.82 i.e. the tax market value on the date the loan is repaid in full; and*
- *You would have to hold the shares for a further 12 months to be eligible for the 50% CGT discount.*

Note: You may choose to apply the capital gains tax provisions differently from the basis outlined above. You may choose \$3.30 as the cost base for your shares. Such a choice may result in you making a capital gain or a reduction to your capital loss.

Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1997/98 tax return

As the loan was not repaid by 15 November 2007 i.e. the ten year anniversary of TESOP 97, the cost base of your shares will be \$4.69.

Consequently, your capital loss is: $(2,000 \times \$4.69) - (2,000 \times \$2.82) = \$3,740$

Note – if you paid out the loan on 3 December 2010 and had the TESOP Trustee pass the shares to you:

- *Your cost base for future sale purposes would be \$4.69; and*
- *You would have to hold the shares for a further 12 months from 3 December 2010 to be eligible for the 50% CGT discount.*

Example 2

TESOP 97 Non-Loan Shares

Example:

- As part of the 1997 Public float of Telstra shares you took up the maximum employee offer of 2,000 non-loan shares at their public offer price of \$3.30.
- These shares were **not** subject to a trade Restriction Period.
- On 3 December 2010 you sold your shares for \$2.82 per share.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.

Whether you elected to seek the \$1,000 tax exemption in your 1997/98 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.

Your capital loss from the sale will equal \$3.30 (being your cost base in the shares) less the proceeds of the sale.

Consequently, your capital loss is: $(2,000 \times \$3.30) - (2,000 \times \$2.82) = \$960$

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 3

TESOP 97 Extra Loan Shares

Example:

- As part of the 1997 Public float of Telstra shares you took up the maximum employee offer of 2,000 loan shares.
- Consequently you were entitled to 500 extra loan shares.
- These shares were subject to a trade Restriction Period.
- On 3 December 2010 you asked the TESOP Trustee to sell your shares.
- The TESOP Trustee sold your shares for \$2.82 per share.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
 - For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

Tax consequences - If you elected to seek \$1,000 tax exemption in your 1997/98 tax return

Your capital gain from the sale will equal the proceeds of the sale less the tax market value of shares at 3 December 2010 which is when the Restriction Period expires in this example i.e. when the loan was repaid.

Consequently, your capital gain is: $(500 \times \$2.82) - (500 \times \$2.82) = \text{Nil}$

Note – if you had paid out the loan on 3 December 2010 and had the TESOP Trustee pass the shares to you:

- *Your cost base for future sale purposes would be \$2.82 .i.e. the tax market value on the date the loan is repaid in full; and*
- *You would have to hold the shares for a further 12 months to be eligible for the 50% CGT discount.*

Note: You may choose to apply the capital gains tax provisions differently from the basis outlined above. You may choose \$3.30 as the cost base for your shares. However, such a choice may result in you making a capital gain or a reduction of your capital loss.

Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1997/98 tax return

As the loan was not repaid by 15 November 2007 i.e. the ten year anniversary of TESOP 97 the cost base of your shares will be \$4.69.

Consequently, your capital loss is: $(500 \times \$4.69) - (500 \times \$2.82) = \$935$

Note – if you paid out the loan on 3 December 2010 and had the TESOP Trustee passed the shares to you:

- *Your cost base for future sale purposes would be \$4.69; and*
- *You would have to hold the shares for a further 12 months from 3 December 2010 to be eligible for the 50% CGT discount.*

Example 4

TESOP 97 Extra Non-Loan Shares

Example:

- As part of the 1997 Public float of Telstra shares you took up the maximum employee offer of 2,000 non-loan shares. You did not take advantage of the Telstra loan.
- Consequently you were entitled to 500 extra non-loan shares.
- These shares were subject to a trade Restriction Period which expired on 15 November 2000. (This example assumes you did not cease your relevant employment with Telstra before 15 November 2000). The tax market value of the shares was \$6.58 on 15 November 2000.
- On 3 December 2010, you sold your shares for \$2.82 per share.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
 - For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

Whether you elected to seek the \$1,000 tax exemption in your 1997/98 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.

Your capital loss from the sale will equal \$6.58 (being the tax market value of shares at 15 November 2000, which is when the restriction period expired for extra non-loan shares) less the proceeds of the sale.

Consequently, your capital loss is: $(500 \times \$6.58) - (500 \times \$2.82) = \$1880$

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Note – if the TESOP Trustee transferred the shares to you and you did not dispose of them:

- *Your cost base for future sale purposes would be \$6.58; and*
- *If you sold your shares after 15 November 2001 (i.e. you held the shares in your own name for longer than 12 months) for a price exceeding \$6.58 you would be eligible for the 50% CGT discount.*

Note: If you elected to seek the \$1,000 tax exemption in your 1997/98 tax return, you may choose to apply the capital gains tax provisions differently from the basis outlined above. You may choose \$3.30 as the cost base for your shares. However, such a choice may result in you making a capital gain or a reduction of your capital loss.

Example 5

TESOP 97 Loyalty Shares

Example:

- As part of the 1997 Public float of Telstra shares you purchased 2,000 shares under the public offer (at their public offer price of \$3.30).
- You held your purchased shares for more than 12 months and consequently you were entitled, under the employee offer, to a further 200 loyalty shares.
- These loyalty shares were **not** subject to a trade Restriction Period.
- On 3 December 2010 you sold your loyalty shares for \$2.82 per share.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
- This example assumes that you did not cease your relevant employment with Telstra before 17 November 1998.

Tax consequences - If you elected to seek \$1,000 tax exemption in your 1997/98 tax return

Your capital loss from the sale will equal \$3.30 (being your cost base in the shares) less the proceeds of the sale.

Consequently, your capital loss is: $(200 \times \$3.30) - (200 \times \$2.82) = \$96$

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1997/98 tax return

Your capital loss from the sale will be \$6.55 less the proceeds of sale.

\$6.55 is the tax market value of shares on 17 November 1998 being the date TESOP 97 Loyalty Shares were allotted.

Your capital loss is: $(200 \times \$6.55) - (200 \times \$2.82) = \$746$

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 6

1997 Public Offer Shares

Example:

- As part of the 1997 Public float of Telstra shares you acquired 2,000 shares at their public offer price of \$3.30.
- These shares were **not** subject to a trade Restriction Period.
- On 3 December 2010 you sold your shares for \$2.82 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

Whether you elected to seek the \$1,000 tax exemption in your 1997/98 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.

Your capital loss from the sale will equal \$3.30 (being your cost base in the shares) less the proceeds of the sale.

Consequently, your capital loss is: $(2,000 \times \$3.30) - (2,000 \times \$2.82) = \$960$

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 7

1997 Shares through the Stock Exchange

Example:

- On 1 December 1997 you purchased 2,000 instalment receipts through the stock exchange for \$2.40.
- These shares were **not** subject to a trade Restriction Period.
- On 17 November 1998 you paid the 2nd instalment of \$1.40.
- On 3 December 2010 you sold your shares for \$2.82 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

Whether you elected to seek the \$1,000 tax exemption in your 1997/98 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.

Under the capital gains tax provisions, your capital loss from the sale will equal the cost of the shares/instalment receipts ($(\$2.40 + \$1.40 = \$3.80)$ per share) less the proceeds of the sale.

Consequently, your capital loss is: $(2,000 \times \$3.80) - (2,000 \times \$2.82) = \$1960$

For some taxpayers the gain/loss made on the sale of the shares will be dealt with under the "income" provisions of the tax rules.

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 8

1999 Guaranteed Allocation Shares

Example:

- As part of the 1999 **Staff** Offer you acquired 2,000 shares at their public offer price of \$7.40.
- These shares were **not** subject to a trade Restriction Period.
- On 3 December 2010 you sold these shares for \$2.82 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

Whether you elected to seek the \$1,000 tax exemption in your 1999/2000 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.

Under the capital gains tax provisions, your capital loss from the sale will equal the amount you paid for the shares (\$7.40 per share) less the proceeds from the sale.

Consequently, your capital loss is: $(2,000 \times \$7.40) - (2,000 \times \$2.82) = \$9160$

For some taxpayers the gain/loss made on the sale of the shares will be dealt with under the "income" provisions of the tax rules.

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 9

1999 Public Offer Shares

Example:

- As part of the 1999 **Public** Offer of Telstra shares you acquired 2,000 shares at their public offer price of \$7.40.
- These shares were **not** subject to a trade Restriction Period.
- On 3 December 2010 you sold these shares for \$2.82 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

Whether you elected to seek the \$1,000 tax exemption in your 1999/2000 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.

Under the capital gains tax provisions, your capital loss from the sale will equal the amount you paid for the shares (\$7.40 per share) less the proceeds from the sale.

Consequently, your capital loss is: $(2,000 \times \$7.40) - (2,000 \times \$2.82) = \$9160$

For some taxpayers the gain/loss made on the sale of the shares will be dealt with under the "income" provisions of the tax rules.

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 10

TESOP 99 – Loan Shares

Example:

- As part of the 1999 float of Telstra shares you took up the maximum employee offer of 400 loan shares.
- These shares were subject to a trade Restriction Period.
- On 3 December 2010 your relevant employment ceased with Telstra. At the time your outstanding loan was \$2,500 and the shares were trading at \$2.82.
- As the loan balance in respect of these shares exceeded the net amount (i.e. including brokerage etc) that could be realised on the disposal of the shares, the TESOP Trustee continued (in accordance with the TESOP Trust Deed) to hold the shares on your behalf. The TESOP Trustee will continue to hold the shares until the shares are sold. The shares will be sold when and only if the proceeds of the sale (after deducting the costs of the sale) exceed the amount which remains outstanding on the loan. The TESOP Trustee will notify you of the disposal of the shares. In the meantime, a proportion (currently 80%) of future dividends payable after the time your relevant employment with Telstra ceased and before the shares are disposed of, will continue to be used to reduce the outstanding loan balance.

Tax consequences - If you elected to seek \$1,000 tax exemption in your 1999/2000 tax return

In the 2010/11 year of Income:

None – The shares have not been sold by the Trustee in this period because the net proceeds of any sale in this period would be insufficient to fully repay your outstanding loan in respect of the shares.

Note – if you had paid out the loan on 3 December 2010 and had the TESOP Trustee transfer the shares to you:

- *You may choose to use \$7.40 as the cost base for future sale purposes*
 - *If you do not make this choice your cost base for future sale purposes would be \$2.82 i.e. the tax market value on the date the loan was repaid in full; and*
 - *You would have to hold the shares for a further 12 months to be eligible for the 50% CGT discount.*

Future years of Income:

You may make a capital gain or loss in the year in which the TESOP Trustee ultimately disposes of these shares.

The capital gain or loss when the Trustee sells your shares will be calculated by reference to (at your choice):

- the tax market value of the shares at the date you first acquired an interest in them (i.e. \$7.40); or
- the tax market value of the shares immediately prior to when the Trustee disposes of the shares on your behalf.

Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1999/2000 tax return

As the loan was not repaid by 16 October 2009 (i.e. the ten year anniversary of TESOP 99), your capital gain or loss should broadly be the difference between the sale proceeds and \$3.15, being the tax market value of your shares on 16 October 2009.

Note – if you had paid out the loan on 3 December 2010 and had the TESOP Trustee transfer the shares to you:

- *Your cost base for future sale purposes would be \$3.15 (being the tax market value of your shares on the ten year anniversary of TESOP 99); and*
- *You would have to hold the shares for a further 12 months from 3 December 2010 to be eligible for the 50% CGT discount.*

Example 11

TESOP 99 – Extra Shares

Example:

- As part of the 1999 float of Telstra shares you acquired 800 Guaranteed Entitlement shares.
- Consequently you were entitled to 200 extra shares.
- These shares were subject to a trade Restriction Period which expired on 16 October 2002. This example assumes that you did not leave your relevant employment with Telstra before 16 October 2002. The TESOP Trustee transferred the shares to you on that date. The tax market value on that date was \$4.81 per share.
- On 3 December 2010 you sold the shares for \$2.82.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
 - For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

Tax consequences - If you elected to seek \$1,000 tax exemption in your 1999/2000 tax return

If you make the choice to use \$7.40 as the cost base for your shares, your capital loss from the sale will equal \$7.40, multiplied by the number of shares you acquired, less the proceeds of the sale.

Consequently, your capital loss is: $(200 \times \$7.40) - (200 \times \$2.82) = \$916$

Note: If you do not choose \$7.40 as your cost base, the share's cost base will be \$4.81 being the tax market value of the shares at the expiry of the Restriction Period. In such a case your capital loss would be reduced.

Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1999/2000 tax return

You should previously have been assessed under the Employee Share Scheme provisions of the Tax Act on \$4.81 per share being the tax market value of the shares at the expiry of the Restriction Period. However, as the tax market value of your shares on the date you sold them is less than the value on the date the Restriction Period expired, there should be no assessable amount (unless you sold your shares for more than \$4.81). Instead, you should realise a capital loss.

Accordingly, your capital loss is: $(200 \times \$4.81) - (200 \times \$2.82) = \$398$

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 12

TESOP 99 – Loyalty Shares

Example:

- As part of the 1999 float of Telstra shares you acquired 800 Guaranteed Entitlement shares.
- You held these shares for longer than 12 months and therefore you were entitled to 80 loyalty shares.
- These shares were subject to a trade Restriction Period which expired on 16 October 2002. This example assumes that you did not leave your relevant employment with Telstra before 16 October 2002. The TESOP Trustee transferred the shares to you on that date. The tax market value of Telstra shares on that date was \$4.81 per share.
- On 3 December 2010 you sold the shares for \$2.82.
- For the purposes of this example we have assumed that the tax market value of the share is the same as its market value and we have ignored selling costs such as brokerage.
 - For more information on when the Restriction Period expires for these shares refer to the TESOP Trade Restriction Periods table.

Tax consequences - If you elected to seek \$1,000 tax exemption in your 1999/2000 tax return

If you make the choice to use \$7.40 as the cost base for your shares, your capital loss from the sale will equal \$7.40 multiplied by the number of shares you acquired less the proceeds of the sale.

Consequently, your capital loss is: $(80 \times \$7.40) - (80 \times \$2.82) = \$366.40$

Note: If you do not choose \$7.40 as your cost base, the share's cost base will be \$4.81 being the tax market value of the shares at the expiry of the restriction period. In such a case your capital loss will be reduced.

Tax consequences - If you did not elect to seek \$1,000 tax exemption in your 1999/2000 tax return

You should previously have been assessed under the Employee Share Scheme provisions of the Tax Act on \$4.81 per share being the tax market value of the shares at the expiry of the Restriction Period. However, as the tax market value of your shares on the date you sold them is less than the value on the date the Restriction Period expired, there should be no assessable amount (unless you sold your shares for more than \$4.81). Instead, you should realise a capital loss.

Accordingly, your capital loss is: $(80 \times \$4.81) - (80 \times \$2.82) = \$159.20$

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 13

1999 Shares Purchased through the Stock Exchange

Example:

- On 1 December 1999 you purchased 2,000 instalment receipts through the stock exchange for \$3.70.
- These shares were **not** subject to a trade Restriction Period.
- On 2 November 2000 you paid the 2nd instalment of \$2.90.
- On 3 December 2010 you sold your shares for \$2.82 per share.
- For the purposes of this example we have ignored selling costs such as brokerage.

Whether you elected to seek the \$1,000 tax exemption in your 1999/2000 tax return is irrelevant in respect of the tax consequences arising from the disposal of these shares.

Your capital loss from the sale will equal the cost of the shares/instalment receipts (($\$3.70 + \$2.90 = \$6.60$) per share) less your proceeds from the disposal.

Consequently, your capital loss is: $(2,000 \times \$6.60) - (2,000 \times \$2.82) = \$7,560$

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Example 14

T3 Sale Shares

Example:

- As part of the T3 float you purchased 1,000 IRs for \$3.60 (\$2.00 paid with your application, with a 2nd instalment paid on 29 May 2008).
- These shares were **not** subject to a trade restriction period.
- You have a cost base in respect of the IRs equivalent to \$3.46 x 1,000 underlying Sale Shares, plus \$3.46 x 40 Loyalty Rights.
- You sell 500 Sale Shares on 3 December 2010 for \$2.82 each.
- For the purposes of this example we have ignored selling costs such as brokerage.

These shares were not acquired as part of an employee share scheme (ESS), therefore any ESS elections are irrelevant.

Under the capital gains tax provisions, your capital loss from the sale will equal the cost of the shares (\$3.46 per Sale Share) less your proceeds from the disposal.

Consequently, your capital loss is: $(500 \times \$3.46) - (500 \times \$2.82) = \$320$

Note:

The capital loss could only be used as an offset against other capital gains you may have made during the year. Otherwise, the loss would need to be carried forward for offset against other capital gains you may make in the future. Once offset against a capital gain, it will be the net gain which may or may not be subject to the 50% discount, depending on how long the gain asset was held.

Disclaimer

This is a general description of the tax consequences, which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP 97 or TESOP 99.

This information has been prepared for the participants who are, and will continue to be, Australian tax residents. The information does not apply to

- (a) individuals engaged in foreign service;
- (b) temporary residents of Australia for tax purposes;
- (c) foreign tax residents; or
- (d) individuals who are no longer employees of Telstra.

If you fall within these categories you should discuss the matter with your tax advisor.

The description of the capital gains tax consequences of your participation in TESOP 97 and/ or TESOP 99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation.**

The description of the capital gains tax consequences of your sale of T3 IRs in the 2006/07 year is based on **Class Ruling (CR 2007/51) issued by the Commissioner of Taxation.**

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP 97 or TESOP 99 (including the capital gains tax consequences) in your particular circumstances, you should **seek guidance from your own registered tax adviser.**

Questions & Answers – 2010/2011

Q. What are TESOP '97 and TESOP '99?

A. TESOP '97 – offer made to employees to acquire shares in Telstra under the Telstra Employee Share Ownership Plan as part of the 1997 initial public float of Telstra shares.

TESOP '99 – offer made to employees to acquire shares in Telstra under the Telstra Employee Share Ownership Plan as part of the 1999 additional public float of Telstra shares.

Q How do I find out what TESOP shares I have if I can't remember?

A If you would like to find out more information on what TESOP shares you have you should contact the Telstra ESOP hot line on 1300 88 66 77 (overseas +61 2 8280 7755) or you can visit the Share Registrar's web site at <http://www.linkmarketservices.com.au> and select "Access My Holdings". To gain access to data on your TESOP shares, you will need to select Telstra Corporation Limited from the drop-down list, enter in your Securityholder Reference Number (SRN), your surname and postcode.

Q What do I need to do if I have TESOP 97 and/or TESOP 99 shares, still work with Telstra and have not sold any of my TESOP 97 or TESOP 99 shares or repaid my loans?

A You should include the dividends you received, together with the attached franking credits, as assessable income at Item 11, Boxes S, T and U of your 2010/11 tax return. This is the case even if the dividends were paid to you via the TESOP Trusts and even if part of the dividend has been applied to reduce your Telstra provided loans.

Q. What are TESOP '97 loan shares and TESOP '97 extra loan shares?

A. TESOP '97 Loan Shares are the shares purchased by employees as part of TESOP '97 using the interest free loan provided by Telstra (maximum of 2,000 shares). TESOP'97 Extra Loan Shares are the extra 1 for 4 shares provided to employees who acquired Loan shares in TESOP '97 (maximum of 500 shares).

Q. How do I know whether I made an election to be immediately assessed on my TESOP '97 or '99 loan shares and TESOP '97 extra loan shares, subject to the \$1,000 exemption, in my 1997/98 or 1999/2000 income tax return - if I can't remember?

A. If the election was made it should have been retained with your copy of your 1997/8 or 1999/2000 income tax return and records. The election should not have been sent to the Australian Taxation Office when you lodged your return.

Q. Can I change my mind about making a written election?

A. No, if you made an election for TESOP '97 and TESOP '99 the election is irrevocable. It is also too late to make a written election in respect of your TESOP '97 or TESOP '99 shares if you have not already made the written election, unless the Commissioner of Taxation specifically allows you to do so. You should discuss this matter further with your tax adviser.

Q. What do I need to do if I made the election?

A. Nothing, the shares will only have further tax implications if disposed of.

Q. What is the tax market value and why is it important for me to know what it is?

A. Under the previous rules governing the taxation of shares or rights acquired under an employee share scheme ("ESS"), the tax market value of a share on a particular day is the weighted average of the prices at which the share was traded on the stock exchange in the one week up to and including the particular day. These rules will apply to determine the tax market value of your shares if you were taxed on those shares prior to 1 July 2009.

Recently, new rules for the taxation of shares or rights acquired under an ESS were enacted in Division 83A of the Tax Act. Unlike the previous rules, the new rules do not define market value nor do they prescribe any method for determining the market value of a listed share acquired under an ESS. The tax market value of shares valued under the new ESS rules will therefore be the ordinary market value of the shares. The Australian Taxation Office has recently published materials which provide that, for the purposes of the new ESS rules, where listed shares are required to be valued at their deferred taxing point:

- if the shares are not sold within 30 days of the deferred taxing point – their market value is the weighted average closing price for the five days before, but not including, the date of the deferred taxing point; and
- if the shares are sold on market within 30 days of the deferred taxing point – their market value can be taken to be the sale proceeds.

As the 10 year anniversary of the grant of your TESOP '97 and TESOP '99 shares passed on 15 November 2007 and 16 October 2009 respectively, you should not be subject under the ESS rules on your TESOP shares during the 2010/11 income year.

The tax market value of a share on a particular day is available from the Telstra Share Registry (1300 88 66 77).

The tax market value is also relevant to determining the cost base of your shares when calculating any capital gains/losses you may have made if you have disposed of your TESOP shares.

Q. Why is the cost base of my TESOP '97 loan shares and TESOP '97 extra loan shares \$4.69?

- A.** The cost base of your TESOP '97 Loan Shares and Extra Loan Shares is \$4.69 only if you did not make an election to be immediately assessed on these shares in your 1997/98 income tax return and your loan was not repaid by 15 November 2007 (being the 10 year anniversary of the TESOP '97 scheme).

Q. What happens if I sold my shares, or some of my shares before 30 June 2011 but don't get paid for them until after that date?

- A.** Generally, the relevant date on a sale of shares for capital gains tax purposes is the contract date. This means that if you made a contract to sell your shares in the year ending 30 June 2011 the tax consequences of selling your shares will generally be in the year ending 30 June 2011. You should discuss this matter further with your tax adviser.

Q Under what circumstances will the gains made on the disposal of shares be assessed as ordinary income?

- A.** Generally if the shares were purchased for "share trading" purposes. However, this will depend entirely upon your own circumstances and you should seek expert taxation advice in relation to this matter.

Q. If I sold my TESOP '97 or TESOP '99 shares in the last few years and calculated my Capital Gains Tax liability based on an incorrect cost base, what should I do?

- A.** You are able to request an amended assessment from the ATO within 4 years of the date of the incorrect original assessment.

You only have a choice in relation to how you calculate your cost base for certain TESOP shares. The choice applies only to those TESOP shares subject to a trade restriction period (refer the restriction period table in the Guide) and only where you sought the \$1,000 tax exemption in your 1997/1998 tax return (in respect of your TESOP '97 shares) or in your 1999/2000 tax return (in respect of your TESOP '99 shares).

Q. The Trustee transferred my TESOP '97 loan shares and TESOP '97 extra loan shares to me in March 2011. What are the tax consequences of this?

A. There are no tax consequences associated with the transfer to you of your TESOP '97 loan shares and TESOP '97 extra loan shares. Tax consequences will arise when you dispose of the shares.

Q. How do the changes in the employee share scheme rules implemented in December 2009 affect my TESOP shares?

A. The new employee share scheme rules (new ESS rules) may have applied to your shares acquired under TESOP '99 only if you were not taxed on those shares before 1 July 2009. In these circumstances, the recent changes may have affected your shares in the following way:

- Telstra would have provided you with an ESS statement during the 2009/10 income year, as your deferred taxing point would have arisen during that income year;
- the market value of your shares (and therefore the amount upon which you were assessed under the ESS rules) should have been determined in accordance with the new ESS rules; and
- if you disposed of your shares within 30 days of your deferred taxing point your taxing point was moved to the date of sale.

The new ESS rules do not affect the current treatment of shares acquired under TESOP '97. The new ESS rules will also not affect the treatment of shares acquired under TESOP '99 if you made an election to be taxed upfront on those shares in 1999/2000 or, if no election was made, if your taxing point for those shares happened prior to 1 July 2009.

For more information on the taxation treatment of employee share schemes, see the *TaxPack 2011*.

Q. I find this all very confusing – where can I get some help?

A. This is a very complex area of taxation law. A guide is available at www.telstra.com.au/abouttelstra/investor/my-shareholding/employee-shareholder-scheme. However, if you have any further queries you should seek your own expert tax advice.

Disclaimer

This is a general description of the tax consequences, which can apply to your participation in TESOP 97 or TESOP 99. The tax consequences for you may be different depending on your own circumstances, particularly if you have participated in other employee share schemes, if you have any particular arrangements in relation to your shares or for shares you acquire otherwise than under TESOP '97 or TESOP '99.

All information provided is of a general nature only and circumstances may vary greatly between participants. The information has been prepared for participants who are, and will continue to be, Australian tax residents. The information does not apply to:

- (a) individuals engaged in foreign service;
- (b) temporary residents of Australia for tax purposes;
- (c) foreign tax residents; or
- (d) individuals who are no longer employees of Telstra.

If you fall within one of these categories you should discuss the matter with your tax advisor.

The description of the capital gains tax consequences of your participation in TESOP '97 and/ or TESOP '99 is based on **Class Ruling (CR 2001/28) issued by the Commissioner of Taxation**.

If you have any questions about preparing your tax return or the tax consequences of your participation in TESOP '97 or TESOP '99 (including the capital gains tax consequences) in your particular circumstances, **you should seek guidance from your own registered tax adviser**.

Glossary

- **1997 Public Offer Shares** – shares acquired through the public offer in November 1997.
- **1999 Public Offer Shares** – shares acquired through the public offer in October 1999.
- **2006 Public Offer Shares** – shares acquired through the public offer in November 2006.
- **2006 Bonus Loyalty Shares** – 1 for 25 bonus shares provided to shareholders who hold their 2006 Public Offer instalment receipts until 15 May 2008 and pay the final instalment on or by 29 May 2008.
- **Guaranteed Allocation Shares** – shares purchased by employees, with their own money, under the Commonwealth component of TESOP '99.
- **Tax Act** - the *Income Tax Assessment Act 1936* or the *Income Tax Assessment Act 1997*.
- **Tax Market Value** –if the taxing point for your shares under the employee share scheme provisions of the Tax Act happens prior to 1 July 2009 - the weighted average of the prices at which the shares were traded on the stock exchange in the one week up to and including the day on which the restriction period ends. This value is available from the Telstra Share Registry (1300 303 199).

If the taxing point for your shares is determined under the employee share scheme provisions of the Tax Act and happens on or after 1 July 2009 – the ordinary market value of your shares.

- **Telstra** – Telstra Corporation Limited or a subsidiary of Telstra.
- **TESOP '97** – offer made to employees to acquire shares in Telstra under the Telstra Employee Share Ownership Plan as part of the 1997 initial public float of Telstra shares.
- **TESOP '97 Extra Loan Shares** – the extra 1 for 4 shares provided to employees who acquired Loan shares in TESOP '97.
- **TESOP '97 Extra Non-Loan Shares** – the extra 1 for 4 shares provided to employees who acquired Non-Loan Shares in TESOP '97.
- **TESOP '97 Loan Shares** – shares purchased by employees as part of TESOP '97 using the interest free loan provided by Telstra.
- **TESOP '97 Loyalty Shares** - the extra 1 for 10 shares provided to employees who acquired Public Offer Shares in the 1997 float of Telstra shares and held them for 12 months.
- **TESOP '97 Non-Loan Shares** - shares purchased by employees as part of TESOP '97 using their own money instead of the interest free loan provided by Telstra.
- **TESOP '99** – offer made to employees to acquire shares in Telstra under the Telstra Employee Share Ownership Plan as part of the 1999 additional public float of Telstra shares.
- **TESOP '99 Loan Shares** – shares acquired by employees as part of the Telstra component of TESOP '99 using the interest free loan provided by Telstra.
- **TESOP '99 Loyalty Shares** - the extra 1 for 10 shares provided under the Commonwealth component of TESOP 99 to employees who acquired Guaranteed Allocation Shares and held them until at least 2 November 2000.
- **TESOP Extra '99 Shares** - the extra 1 for 4 shares provided under the Commonwealth component of TESOP '99 to employees who acquired Guaranteed Allocation Shares.
- **Subsequent share purchases** – any other shares or instalment receipts acquired by an employee other than as part of TESOP '97, TESOP '99 or as part of the public float in 1997 or further public float in 1999.
- **Written Elections** – the election under tax law made by an employee before they lodged their 1997/98 Tax Return (affecting their TESOP 97 shares) and/or their 1999/2000 Tax Return (affecting their TESOP 99 shares).
