Forward-looking statements
This presentation includes forward-looking statements. The forward-looking statements are based on assumptions and information known by Telstra as at the date of this presentation, are provided as a general guide only and are not a guarantee or prediction of future performance. Telstra believes the expectations reflected in the forward-looking statements are reasonable as at the date of this presentation, but acknowledges they involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of Telstra, which may cause Telstra's actual results, performance and achievements to differ materially from those expressed in, or implied by, the forward-looking statements. These factors include: general economic conditions in Australia; competition in the markets in which Telstra operates; the continuing growth in the markets in which Telstra operates; the implications of legal and regulatory risks in the businesses of Telstra; technological changes taking place in the telecommunications industry; future changes to Telstra's products and services; the risk of cyber and data security issues; the geopolitical environment (including impacts of sanctions and trade controls and broader supply chain impacts); the extent, nature and location of physical impacts of climate change and their impact on our assets, service continuity, supply chain reliability and responsible sourcing; the impact of climate change on energy resilience and electricity grid and infrastructure; and changes to forecast supply chain emissions including but not limited to failure of third parties to achieve contractual environmental targets or milestones that have direct or indirect impact on our environmental modelling. A number of these risks, uncertainties and other factors are described in the "Chair and CEO's message", "Our material risks" and "Outlook" sections of Telstra's Operating and Financial Review (OFR). The OFR is set out in Telstra's financial results for the year ended 30 June 2025 which was lodged with the ASX on 14 August 2025 and is available on Telstra's Investor Centre website www.telstra.com.au/about/investors. In addition, there are particular risks and uncertainties in connection with the implementation of Telstra's Connected Future 30 strategy. These risks include strategic execution risks associated with the scale and independence of our transformation programs, financial performance risks emerging from economic conditions, broader geopolitical challenges, the response of customers to changes in products and services, Telstra's interaction with customers as Telstra moves to a digital operating model, the risk of disruption from changes in Telstra's ways of working, and Telstra's ability to execute and manage the elements of the strategy in a measured, controlled and effective manner and realise the planned benefits, cost savings and growth opportunities. Due to the inherent uncertainty and limitations in measuring or quantifying greenhouse gas (GHG) emissions under the calculation methodologies used in the preparation of such data, all GHG emissions data or references to GHG emissions volumes (including ratios or percentages) in this presentation are estimates. The accuracy of Telstra's GHG emissions data and other metrics may be impacted by various factors, including inconsistent data availability, a lack of common definitions and standards for reporting climate-related information, quality of historical emissions data, reliance on assumptions and changes in market practice. These factors may impact Telstra's ability to meet commitments and targets or cause Telstra's results to differ materially from those expressed or implied in this presentation. There may also be differences in the manner that third parties calculate and report GHG emissions data compared to Telstra, which means that third-party data may not be comparable to our data. In FY23 we acquired Digital Pacific. The disclosure in this presentation in relation to the matter noted above does not include Digital Pacific unless otherwise stated. Telstra does not provide financial guidance beyond the current financial year. Telstra's financial targets and growth ambitions across our portfolio include targets to FY30 in connection with the Connected Future 30 strategy. These targets are not guidance and there are greater risks and uncertainties in connection with these targets and ambitions. The targets to FY30 provided in this presentation are provided to illustrate some of the outcomes management is currently focused on delivering in connection with the Connected Future 30 strategy. Each target is subject to a range of assumptions and risks, including the factors referred to above. Readers should not place undue reliance on the forward-looking statements. To the maximum extent permitted by law, Telstra gives no representation, warranty, or other assurance in connection with, and disclaims all responsibility for, the currency, accuracy, reliability, and completeness of any forward-looking statements, whether as a result of new information, future events or otherwise. Telstra assumes no obligation to update any forward-looking statements, and to the maximum extent permitted by law, disclaims any obligation or undertaking to release any updates or revisions to the information contained in this presentation to reflect any change in expectations and assumptions. Defined terms are set out in the slide "Glossary".

Group performance results
Telstra uses non-IFRS financial information (being "Underlying EBITDA", "Underlying EBITDA_{alt}", "Underlying NPAT", "Underlying EPS", "Underlying ROIC", "Underlying Income", "EBITDA_{alt}", "FCF_{alt} before strategic investment", "Cash EBIT", "Cash earnings" and "Cash EPS") as measures to better reflect what Telstra considers to be its underlying performance. This non-IFRS financial information is consistent with how management reviews financial performance with the Board and the investment community. We include these measures in this presentation to help readers better compare our underlying financial performance with that of previous periods. Underlying EBITDA and FCF_{alt} before strategic investment also show how the business performs on the same basis as the guidance we provided to the market. Underlying earnings before interest, taxes, depreciation and amortisation (Underlying EBITDA) is used to assess our operational profitability. EBITDA after leases (EBITDA_{alt}) and Underlying EBITDA_{alt} are used to assess our operational profitability after leases. Underlying net profit after tax (Underlying NPAT) is used to assess our operational financial performance and reflects underlying EBITDA less interest, tax, depreciation and amortisation. Underlying income per share (Underlying EPS) is used to assess our operational financial performance on a per share basis. Underlying return on invested capital (Underlying ROIC) is used to assess our efficiency at allocating capital and reflects underlying net operating profit after tax (Underlying NPAT) as a percentage of total capital. Underlying income is used to assess our operational income performance. Free cash flow after lease payments (FCF_{alt}) before strategic investment is used to assess our underlying cash generation and reflects operating cash flows, less investing cash flows, less payments for lease liabilities and less strategic investment. Cash earnings before interest and tax (Cash EBIT), Cash earnings and Cash EPS are also used to assess our underlying cash generation. Cash EBIT reflects Underlying EBITDA_{alt} less business-as-usual capex and spectrum amortisation. Cash earnings reflects Cash EBIT less finance costs, tax and minorities. Cash EPS reflects Cash earnings on a per share basis. All non-IFRS underlying measures, EBITDA_{alt}, FCF_{alt} before strategic investment, Cash EBIT, Cash earnings and Cash EPS exclude material one-offs such as mergers and acquisitions, disposals, impairments, spectrum restructuring costs and such other items as determined by the Board and management. An estimation of each adjustment a reconciliation to our reported IFRS financial information for Underlying EBITDA and FCF_{alt} before strategic investment is set out in the "Guidance versus reported results" schedule. This schedule has been reviewed by our auditors. Underlying NPAT and Underlying EPS are set out in the "Underlying earnings reconciliation to reported earnings" slide, "Underlying ROIC" in "Return on Invested Capital (ROIC)" slide and "Underlying income" in "Product performance – Income" slide. Cash EBIT, Cash earnings and Cash EPS are set out in "Cash earnings" slide. These slides have not been reviewed by our auditors.

- **Mobile services income growth** across postpaid, prepaid and wholesale partly offset by mobile broadband
- **Postpaid ARPU growth of 2.5%** following Consumer and Small Business price rises, partly offset by Enterprise
- **Postpaid handheld SIOs and churn impacted** by SIM disconnections no longer in use (64k), 3G disconnections in 1H (32k) and reclassification to IoT (66k). Additional impacts from migration of customers to new digital stack
- **Prepaid handheld revenue growth of 7.7%** from price rises; ARPU growth of 8.4%
- **Mobile broadband revenue decline** continued with lower SIOs and ARPU
- **IoT revenue growth of 1.4%** with volume growth partly offset by lower ARPU
- **Wholesale revenue growth** with net adds of +217k and wholesale ARPU growth across postpaid and prepaid
- **Hardware revenue** broadly flat, 2H sequential decline
- **EBITDA growth** from higher service revenue, stronger hardware margin and strong cost management

- **Core connectivity income growth** from higher Bundles & data ARPU and growth in 5G fixed wireless, partly offset by decline in nbn SIOs and voice and legacy
- **Bundles & data net adds of -118k** including -148k nbn, +36k in 5G fixed wireless to 121k and +11k satellite internet
- **Bundles & data ARPU growth of \$4.67** from price rises (November 2023 and July 2024)
- **Standalone voice SIO decline** continued broadly in line with prior periods
- **Consumer content & services income decline** due to Foxtel from Telstra (cease sale from February 2024) and product exits
- **EBITDA growth** from price rises and nbn margin expansion (despite SIO loss), fixed wireless, and consumer content & services margin, partly offset by voice and legacy decline
- **Ongoing strong cost management**

- **Network Application Services (NAS) income growth** from Versent acquisition and growth in managed services, offset by decline in calling and equipment sales
- **Calling applications decline** continued with fixed product exits and shift from traditional voice to digital solutions
- **Managed services growth** reflects contribution from Versent and growth in security (9%), network and service management
- **Professional services growth** reflects contribution from Versent and growth in large infrastructure deals
- **Cloud annuity growth** from resell across key partners
- **Equipment sales decline** in line with strategy
- **NAS EBITDA increase** from strong cost management

FY25 was a strong year for us as we continued to deliver for customers and shareholders. We successfully completed our T25 strategy; delivered on our commitments to lift customer experience, build our reputation and drive sustainable growth; and announced our Connected Future 30 strategy.

We delivered our fourth consecutive year of underlying growth, reflecting momentum across our business, strong cost control and disciplined capital management.

Our reported growth this year is stronger than underlying growth because of significant one-off net costs totalling \$715 million in the prior year. These costs, discussed last year, were mostly related to impairments and restructuring associated with the reset of our Telstra Enterprise business.

In FY25, reported financial performance on the prior year included:

- EBITDA up 14.3 per cent to \$8.6 billion
- Profit for the year up 31.0 per cent to \$2.3 billion
- Earnings per share (EPS) – basic up 34.0 per cent to 18.9 cents
- ROIC⁵ up 1.7 percentage points (pp) to 8.5 per cent.

	FY25 Reported results	FY25 Guidance adjustments	FY25 Underlying results	FY24 Underlying results
Underlying versus reported results ¹	\$m	\$m	\$m	\$m
EBITDA ²	8,607	14	8,621	8,243
Free cashflow after lease payments (FCFaL) ³ before strategic investment ⁴	3,956	(523)	3,433	3,247

1. This table details adjustments made to the reported results for the current year to reflect the underlying performance of the business on the basis on which we provided guidance to the market. Guidance adjustments include material one-offs, such as mergers and acquisitions, disposals, impairments, spectrum, restructuring costs and such other items as determined by the Board and management. A detailed reconciliation of our reported results to underlying results can be found in the "Guidance versus reported results" schedule. This schedule has been reviewed by our auditors.

2. Underlying EBITDA, profit and EPS exclude guidance adjustments.

3. Free cashflow after lease payments (FCFaL) defined as 'operating cash flows' less 'investing cash flows' less 'payments for lease liabilities', and excludes spectrum and guidance adjustments. FY25 FCFaL includes around \$300m cash outflow related to FY24 restructuring costs.

4. Strategic investment capex is measured on an accrued basis and relates to the Intercity Fibre Network and Viasat projects.

5. Return On Invested Capital (ROIC) calculated as Net Operating Profit After Tax (NOPAT) as a percentage of total capital.

Our underlying growth more accurately reflects our financial performance compared to the prior period. Excluding significant one-off items and other adjustments, underlying financial performance showed:

- Underlying EBITDA⁶ up 4.6 per cent to \$8.6 billion
- Underlying profit⁶ up 1.8 per cent to \$2.3 billion
- Underlying EPS⁶ up 3.2 per cent to 19.1 cents
- Cash EPS⁷ up 12.0 per cent to 22.4 cents
- Underlying ROIC⁸ up 0.2pp to 8.5 per cent.

On the back of earnings growth, the Board resolved to pay a fully franked final dividend of 9.5 cents per share, bringing total dividends for the year to 19 cents, and representing a 5.6 per cent increase on the prior year.

In June this year, we completed our \$750 million on market buy-back, and today we have announced an additional on-market share buy-back of up to \$1 billion. This has been enabled by growth in earnings, and the strength of our balance sheet. The buy-backs support earnings and dividend per share growth over time, and along with increased total dividends, demonstrate the Board and management's confidence in our financial strength and outlook.

We grew underlying EBITDA across our Mobiles, Fixed C&SB, Fixed Enterprise, InfraCo Fixed and Amplitel businesses.

It's been a dynamic year in the mobile industry with 3G closure, new satellite technology, pricing changes and the migration of a significant volume of customers to our new digital information technology system. In this context our mobile business has continued to perform well, with EBITDA growth of \$235 million. Mobiles growth was driven by higher ARPU and customers continuing to choose our network and the value it provides. Mobile services revenue grew by 3.5 per cent.

	FY25	FY25 Guidance
Underlying results versus guidance ⁹	\$b	\$b
Underlying EBITDA ⁶	8.6	8.5 to 8.7
Business-as-usual capex ¹⁰	3.4	3.2 to 3.4
Strategic investment ¹¹	0.3	0.3 to 0.5
Free cashflow after lease payments (FCFaL) ¹² before strategic investment ¹¹	3.4	3.0 to 3.4

Fixed C&SB EBITDA grew by \$109 million, reflecting ARPU growth and disciplined cost management.

Fixed Enterprise business EBITDA grew by \$103 million, supported by decisive actions taken to reset this business and reduce costs. We remain committed to this reset, with further changes announced in July this year to remove complexity and cost.

Our International EBITDA declined by \$96 million, with reductions across Wholesale and Enterprise, and Digicel Pacific. As mentioned briefly when we announced our Connected Future 30 strategy, we have completed a strategic review of this business and are now taking action, including to reduce costs, double down on connectivity, and exit the majority of our International NAS products. The Wholesale and Enterprise International results include restructuring costs associated with this.

Our infrastructure businesses continued to grow, reflecting strong customer demand.

Across the business, we delivered strongly on costs through simplifying our operations, reducing some roles and improving our productivity, partly offset by cost inflation. Core fixed costs decreased by 4.7 per cent or \$306 million in the year. Cumulatively we reduced our core fixed costs by \$428 million since FY22.

As we close out our T25 strategy, we reflect on the strong momentum and foundation we've built, which comes from continuing to improve and deliver for customers. We set a high bar across our four T25 pillars, to lift customer experience, extend our network leadership, deliver sustainable growth and value, and be the place our people want to work. We also successfully delivering on our T25 financial growth targets across underlying EBITDA, EPS, ROIC and cost-out.

Significant progress on T25 in the year included:

- We improved Episode NPS by 1 point to +47 and exceeded our T25 target of +40
- We expanded our mobile coverage to 3 million square km with 99.7 per cent Australian population coverage
- We achieved 95 per cent of 5G population coverage, with 66 per cent of our mobile traffic on 5G in June 2025
- We continued extending our Intercity Fibre Network across Australia, with Sydney to Canberra route ready for service and more than 4,400km of fibre in the ground as at June 2025.

6. Underlying EBITDA, profit and EPS exclude guidance adjustments.

7. Cash EPS defined as cash earnings (underlying EBITDA after lease amortisation, less BAU capex, spectrum amortisation, finance costs, tax and minorities) per share.

8. Underlying ROIC calculated as NOPAT as a percentage of total capital, excluding guidance adjustments (refer to footnote 1) less tax.

9. Underlying results - refer to footnote 1.

10. BAU capex is measured on an accrued basis and excludes spectrum, guidance adjustments, strategic investment, externally funded capex and capitalised leases.

11. Strategic investment capex is measured on an accrued basis and relates to the Intercity Fibre Network and Viasat projects.

12. Free cashflow after lease payments (FCFaL) before strategic investment - refer to footnotes 3 and 4.

Dividend

On 14 August 2025, the Directors of Telstra Group Limited resolved to pay a fully franked final dividend of 9.5 cents per share in line with the interim dividend for the first half of the financial year. The total dividend for FY25 is 19 cents per share representing a 5.6 per cent increase on the prior year. The total dividend represents a 101 per cent payout ratio on EPS. Shares will trade excluding entitlement to the final dividend from 27 August 2025 with payment to be made on 25 September 2025.

Other information

We use non-IFRS financial information (being “Underlying EBITDA”, “Underlying EBITDAaL”, “Underlying NPAT”, “Underlying EPS”, “Underlying ROIC”, “Underlying income”, “EBITDAaL”, “FCFaL before strategic investment”, “Cash EBIT”, “Cash earnings” and “Cash EPS”) as measures to better reflect what we consider to be our underlying performance. This non-IFRS financial information is consistent with how management reviews financial performance with the Board and the investment community. We include these measures in these materials to help readers better compare our underlying financial performance with that of previous periods. Underlying EBITDA and FCFaL before strategic investment also show how the business performed on the same basis as the guidance we provided to the market.

Underlying earnings before interest, taxes, depreciation and amortisation (Underlying EBITDA) is used to assess our operational profitability. EBITDA after leases (EBITDAaL) and Underlying EBITDAaL are used to assess our operational profitability after leases. Underlying net profit after tax (Underlying NPAT) is used to assess our operational financial performance and reflects underlying EBITDA less interest, tax, depreciation and amortisation. Underlying earnings per share (Underlying EPS) is used to assess our operational financial performance on a per share basis.

Underlying return on invested capital (Underlying ROIC) is used to assess our efficiency at allocating capital and reflects underlying net operating profit after tax (Underlying NOPAT) as a percentage of total capital. Underlying income is used to assess our operational income performance.

Free cashflow after lease payments (FCFaL) before strategic investment is used to assess our underlying cash generation and reflects operating cash flows, less investing cashflows, less payments for lease liabilities and less

strategic investment. Cash earnings before interest and tax (Cash EBIT), Cash earnings and Cash EPS are also used to assess our underlying cash generation. Cash EBIT reflects Underlying EBITDAaL less business-as-usual capex and spectrum amortisation. Cash earnings reflects Cash EBIT less finance costs, tax and minorities. Cash EPS reflects Cash earnings on per share basis.

All non-IFRS underlying measures, EBITDAaL, FCFaL before strategic investment, Cash EBIT, Cash earnings and Cash EPS exclude material one-offs such as mergers and acquisitions (M&A), disposals, impairments, spectrum, restructuring costs and such other items as determined by the Board and management. An explanation of each adjustment and a reconciliation to our reported IFRS financial information for Underlying EBITDA and FCFaL before strategic investment is set out in the “Guidance versus reported results” schedule. The adjustments set out in the schedule have been reviewed by our auditor for consistency with the basis set out in the guidance we provided to the market.

The following commentary is provided for statutory and management financial results. Comments are versus the prior year unless otherwise stated. Consistent with information presented for internal management reporting purposes, the result of each segment is measured based on its EBITDA contribution, and the result of each product is measured based on its underlying EBITDA contribution.

Segment performance

We report segment information on the same basis as our internal management reporting structure as at the reporting date. Segment comparatives reflect any organisational changes that have occurred since the end of the prior financial year to present a like-for-like view. Refer to Note 2.1.1 in the Financial Report for further detail.

Total management reported income includes internal income between segments eliminated from total income. Internal income decreased by 4.5 per cent to \$2,424 million (FY24 \$2,537 million) including intercompany agreements post our corporate restructure related to internal charges for infrastructure, power, international capacity and other services. Internal income comprised \$3 million in Telstra Consumer (FY24 \$4 million), \$1 million in Telstra Business (FY24 \$1 million), \$31 million in Telstra Enterprise Australia (FY24 \$45 million), \$215 million in Telstra International (FY24 \$223 million), \$407 million in Networks, IT and Product (FY24 \$439 million), \$1,523 million in Telstra InfraCo (FY24 \$1,552 million) and \$244 million in 'All Other' (FY24 \$273 million).

Telstra Consumer

Telstra Consumer provides telecommunication and technology products and services to consumer customers in Australia using mobile and fixed network technologies. It also operates contact centres, retail stores, a retail distribution network, digital channels, distribution systems and the Telstra Plus customer loyalty program in Australia.

Income increased by 1.3 per cent to \$10,862 million including 2.7 per cent growth in Mobile income partly offset by 1.4 per cent decline in Fixed – C&SB income. Refer to product performance section for more details.

Telstra Business

Telstra Business provides telecommunication and technology products and services to small and medium businesses in Australia. It also operates Telstra Business Technology Centres and digital channel partner network servicing small and medium business customers.

Income increased by 0.4 per cent to \$2,867 million including 2.3 per cent growth in Mobile income, partly offset by 0.7 per cent decline in Fixed – C&SB income from small business customers and 10.0 per cent decline in Fixed – Enterprise income from medium business customers across Data and Connectivity (DAC) and Network Applications and Services (NAS). Refer to product performance section for more details.

Telstra Enterprise Australia

Telstra Enterprise Australia provides telecommunication services, advanced technology solutions and network capacity and management to government, enterprise and large business customers in Australia. It provides advanced technology solutions through DAC and NAS products such as unified communications, cloud, security, industry solutions, and integrated and monitoring services.

Income decreased by 2.8 per cent to \$4,485 million including 3.1 per cent decline in Mobile income and 1.8 per cent decline in Fixed – Enterprise income across DAC and NAS. Refer to product performance section for more details.

Telstra International

Telstra International provides a full suite of telecommunication services, including satellite, advanced technology solutions, network capacity and management, cloud, security, industry solutions, integrated and monitoring services to government and enterprise and business customers outside of Australia. It provides wholesale services outside of Australia, including voice and data, and manages Telstra's networks outside of Australia, including international subsea cables, in conjunction with Networks, IT and Product and Telstra InfraCo segments. It provides telecommunication, media and technology products and services to consumer, business and government customers in the South Pacific through Digicel Pacific Limited and its controlled entities (Digicel Pacific).

International income increased by 0.3 per cent to \$2,587 million in Australian dollars (AUD) including 4.4 per cent growth in International Wholesale and Enterprise external income to \$1,712 million, partly offset by 3.6 per cent decline in International Wholesale and Enterprise internal income to \$215 million and 7.7 per cent decline in Digicel Pacific income to \$660 million. On a constant currency basis, Digicel Pacific revenue decreased by 3 per cent. Refer to product performance section for more details.

Networks, IT and Product

Networks, IT and Product consists of two operating segments: Global Networks and Technology (GN&T), and Product and Technology (P&T). GN&T supports the other segments and their respective revenue generating activities by maintaining high level of reliability and security of our global network platforms and cloud infrastructure. It maintains our networks and is accountable for our network intelligence and automation. P&T

works with other functions to create and deliver products and solutions for customers across all segments. It has accountability for product strategy, innovation, development, and life cycle where products are incubated and brought to scale. It is also accountable for Telstra's IT and Data & AI functions and our digital platforms underpinning our customer digital experience.

Income decreased by 6.9 per cent to \$434 million including 7.3 per cent reduction in internal income to \$407 million.

Telstra InfraCo

Telstra InfraCo operates in Australia and provides telecommunication products and services delivered over Telstra networks to other carriers, carriage service providers and internet service providers. It provides other Telstra functions and wholesale customers with access to network infrastructure within Telstra InfraCo's asset accountabilities. It operates the fixed passive network infrastructure including data centres, exchanges, poles, ducts, pits and pipes, and fibre network. It designs and constructs fibre, exchanges and other infrastructure. It provides nbn co with long-term access to certain components of our infrastructure under the Infrastructure Services Agreement, and operates the passive and physical mobile tower assets owned or operated by the Amplitel business.

Income increased by 0.7 per cent to \$4,159 million due to growth in recurring nbn Definitive Agreements (nbn DAs) receipts in line with CPI, growth in Amplitel income, and growth in wholesale mobility income. Revenue declined from Fixed – Active Wholesale legacy products, and Telstra InfraCo legacy asset disposals, commercial and recoverable works and internal access charges. Refer to product performance section for more details.

All Other

Certain items of income and expense relating to multiple functions are recorded by our corporate areas and included in the 'All Other' category. This category also includes Telstra Health.

Income decreased by 2.0 per cent to \$640 million including \$29 million decrease in internal income and lower Telstra Energy income. Telstra Health income increased by \$52 million to \$372 million.

Mobile

Mobile income increased by 2.7 per cent to \$11,015 million including 3.5 per cent services revenue growth. Growth in services revenue was achieved across postpaid handheld, prepaid handheld, Internet of Things (IoT) and wholesale. Retail mobile Services in Operation (SIOs) increased by 762,000 (including 342,000 in the second half) to 24.9 million, including 8.9 million postpaid handheld retail SIOs. Hardware revenue held at \$2,359 million including sales of mobile handsets, accessories and wearables.

Postpaid handheld services revenue increased by 2.8 per cent to \$5,793 million with a 2.5 per cent Average Revenue Per User (ARPU) increase to \$54.15, including consumer and business price rises, and a 56,000 decrease in SIOs (including 104,000 decrease in the second half). Postpaid handheld SIOs in the current year were impacted in aggregate by 162,000 by re-classification of 66,000 services to IoT and mobile broadband, deactivation of 64,000 Pay As You Go (PAYG) services no longer in use, and disconnection of 32,000 services from closure of the 3G network. Excluding these impacts, Postpaid SIOs increased in the current year by 106,000.

Prepaid handheld revenue increased by 7.7 per cent to \$1,285 million with an 8.4 per cent ARPU increase driven by price rises, partly offset by a 76,000 decrease in unique users (including 68,000 in the second half). The number of prepaid handheld unique users in the current year was impacted by disconnection of 17,000 services from closure of the 3G network.

Mobile broadband revenue decreased by 8.2 per cent to \$595 million due to 6.1 per cent decline in SIOs and 3.4 per cent decline in ARPU to \$18.12.

IoT revenue increased by 1.4 per cent to \$293 million with SIOs increasing by 1.2 million (including 698,000 in the second half) to 9.8 million.

Wholesale revenue increased by 18.6 per cent to \$522 million driven by 217,000 increase in unique users (including 138,000 in the second half) and 5 per cent Wholesale ARPU growth. Wholesale unique users include postpaid SIOs and prepaid unique users. Wholesale unique users increased to 2.6 million from the continued popularity of Mobile Virtual Network Operator's (MVNO) plans on the Telstra Wholesale mobile network.

Mobile EBITDA increased by 4.7 per cent to \$5,261 million due to high margin services revenue growth.

Fixed – Consumer and Small Business (C&SB)

Fixed – C&SB income decreased by 1.3 per cent to \$4,299 million. Core connectivity revenue increased by 1.2 per cent to \$3,706 million including revenue from services for which we are a reseller (including nbn) and revenue from services on the Telstra network. C&SB bundles and standalone data ARPU increased by 5.7 per cent to \$87.08 driven by price rises, and SIOs declined by 118,000 (including 62,000 in the second half) to 3.2 million. C&SB standalone voice SIOs declined by 42,000 (including 20,000 in the second half). 5G fixed wireless SIOs grew by 36,000 (including 16,000 in the second half) to 121,000.

Consumer content and services revenue decreased by 17.6 per cent to \$444 million including a 9.2 per cent decline in Foxtel from Telstra SIOs. Business applications and services revenue decreased by 2.6 per cent to \$149 million.

Fixed – C&SB EBITDA increased by 42.9 per cent to \$363 million due to cost-out, C&SB bundles and standalone data ARPU growth, and growing contribution from fixed wireless, partly offset by SIO declines across C&SB bundles, standalone data and standalone voice.

Fixed – Enterprise

Fixed – Enterprise income declined by 2.6 per cent to \$3,445 million due mostly to DAC declines. DAC income declined by 9.2 per cent to \$679 million driven by ARPU compression from competition, renewals and technology change. DAC SIOs reduced by 5.6 per cent or 8,000 (including 3,000 in the second half) mostly in legacy.

NAS income decreased by 0.8 per cent to \$2,766 million due to declines across calling applications and equipment sales, partly offset by growth in managed services, professional services and cloud. NAS income includes \$118 million in the current year related to Versent Pty Ltd and its controlled entities (Versent) (FY24 \$81 million). NAS calling applications revenue decreased by 5.6 per cent to \$389 million due to ongoing market shift from traditional voice to integrated video and digital solutions. NAS equipment sales revenue decreased by 25.5 per cent to \$272 million due to strategic focus on higher margin products. NAS managed services and maintenance revenue increased by 4.2 per cent to \$821 million including Versent. NAS professional services revenue increased by 6.8 per cent to \$537 million including Versent. NAS cloud applications revenue increased by 4.6 per

cent to \$385 million due to growth in demand for partner cloud products including Amazon Web Services and Microsoft Azure.

Fixed – Enterprise EBITDA increased by 75.7 per cent to \$239 million due to NAS EBITDA growth partly offset by DAC EBITDA decline. DAC EBITDA declined by \$9 million to \$86 million due to revenue reduction partly offset by lower costs. NAS EBITDA increased by \$112 million to \$153 million due to cost-out, revenue growth in managed services, professional services and cloud, partly offset by decline in calling applications revenue.

Fixed – Active Wholesale

Fixed – Active Wholesale income declined by 4.6 per cent to \$349 million largely due to legacy product decline. DAC revenue decreased by 1.2 per cent to \$256 million reflecting growth in wavelength services, offset by decline in wideband ethernet access and managed lease line product revenue. Legacy calling and fixed revenue declined by 13.1 per cent to \$93 million due to decline in legacy copper access and wholesale nbn resale.

Fixed – Active Wholesale EBITDA decreased by 12.8 per cent to \$82 million due to continued legacy copper access revenue decline, partly offset by cost-out.

International

International income increased by 0.3 per cent to \$2,587 million including increase in International Wholesale and Enterprise income, partly offset by decline in Digicel Pacific income. Digicel Pacific income decreased by 7.7 per cent to \$660 million including devaluation of Papua New Guinean Kina. On a constant currency basis, Digicel Pacific revenue decreased by 3 per cent due to reduction in Papua New Guinea (PNG) ARPU, partly offset by overall SIO growth of 3 per cent.

International Wholesale and Enterprise income increased by 3.4 per cent to \$1,927 million, including 4.4 per cent or \$72 million increase in external income to \$1,712 million. The increase included a \$43 million non-cash gain from Tianjin data centre lease and positive foreign exchange impacts. On a constant currency basis and excluding non-cash gain from Tianjin data centre lease, International Wholesale and Enterprise external income increased by 0.6 per cent due to growth in DAC income, partly offset by ongoing legacy voice decline, commencing the exit of NAS products and portfolio refocus. International internal income decreased by 3.6 per cent to \$215 million.

International EBITDA decreased by 12.4 per cent to \$678 million including 8.7 per cent or \$31 million decline in Digicel Pacific EBITDA, and 15.6 per cent or \$65 million decline in International Wholesale and Enterprise EBITDA (excluding non-cash gain from Tianjin data centre lease and impairment of London Hosting Centre assets). In constant currency and normalised for earnout adjustments, Digicel Pacific EBITDA decreased by 3.5 per cent due to revenue decline partly offset by reduced costs. In constant currency, International Wholesale and Enterprise EBITDA decreased by 10.9 per cent due to increased restructuring costs associated with commencing the exit of NAS products, portfolio refocus, and timing benefits in the prior year that did not repeat this year.

InfraCo Fixed

InfraCo Fixed income decreased by 1.3 per cent to \$2,710 million. Recurring nbn DAs income increased by 5.4 per cent to \$1,102 million reflecting CPI linked price increases. Recurring nbn DAs income includes infrastructure services across ducts, racks and fibre provided to nbn co.

Legacy asset disposals revenue decreased by 29.6 per cent to \$112 million due to reduction in property divestments and lower copper sales. Copper income reported net of costs in the current year and gross of costs in the prior year.

Commercial and recoverable works revenue decreased by 6.3 per cent to \$224 million. Internal infrastructure access revenue decreased by 3.5 per cent to \$1,117 million, and other external revenue increased by 6.9 per cent to \$155 million including growth in dark fibre, ground station and non-nbn duct access revenue, partly offset by decline in Telstra Exchange Building Access revenue.

InfraCo Fixed EBITDA increased by 3.1 per cent to \$1,813 million reflecting growth in recurring nbn DAs and cost-out. InfraCo Fixed EBITDA after leases (EBITDAaL) increased by 2.9 per cent to \$1,735 million. Excluding legacy network disposals and commercial and recoverable works, InfraCo Fixed EBITDAaL increased by 5.1 per cent.

Amplitel

Amplitel income grew by 3.8 per cent to \$470 million. Amplitel external revenue increased 4.2 per cent to \$100 million including contracted growth, new tower builds and continued demand, partly offset by gains from customer contracts of \$7 million in the prior year. Amplitel internal revenue grew by 3.6 per cent to \$370 million.

Amplitel EBITDA increased by 3.5 per cent to \$382 million with contracted growth, new tower builds and continued demand, partly offset by gains from customer contracts in the prior year.

Amplitel EBITDAaL increased by 4.9 per cent to \$301 million. Excluding gains from customer contracts in the prior year, Amplitel EBITDAaL increased by 7.5 per cent.

Other

Other income decreased by 8.2 per cent to \$1,159 million including internal and external income. 'Other' internal income decreased by \$85 million to \$696 million. 'Other' external income decreased by \$18 million to \$463 million including \$34 million reduction in gains related to tower access agreements and lower Telstra Energy income. Telstra Health income increased by \$52 million to \$372 million.

Other EBITDA loss increased by \$28 million to \$197 million including ongoing costs not allocated to product. The increase in the loss was due to \$34 million reduction in gains related to tower access agreements and lower contribution from Telstra Energy, partly offset by decreased costs associated with corporate adjustments.

Eliminations

Eliminations for internal income decreased to \$2,424 million comprising \$1,117 million in InfraCo Fixed, \$370 million in Amplitel, \$215 million in International, \$26 million in Fixed – Enterprise NAS and \$696 million in Other.

Underlying operating expenses \$m^{16,17}

Underlying operating expenses decreased by \$217 million or 1.4 per cent due to lower core fixed and sales costs, partly offset by higher other fixed costs.

Total operating expenses decreased by \$952 million to \$14,986 million due to decrease in underlying operating expenses and guidance adjustments. Guidance adjustments in the prior year totalled \$796 million and included \$438 million for impairments, \$247 million for restructuring costs and \$111 million for M&A. Guidance adjustments in the current year totalled \$61 million and included \$50 million for impairment of London Hosting Centre assets and \$9 million related to M&A.

Sales costs, which are direct costs associated with revenue and customer growth, decreased by 2.0 per cent to

\$7,779 million. Payments to nbn reduced by \$21 million due to decline in C&SB nbn SIOs. Non-nbn sales costs decreased by \$135 million due to lower NAS equipment sales and consumer content and services costs, partly offset by increased NAS cloud applications and managed security resale costs.

Core fixed costs decreased by 4.7 per cent or \$306 million including reduction in full time equivalents (FTE) related to productivity, the organisational changes and action on cost announced in May 2024 and reduction in commissions, partly offset by cost inflation (labour and non-labour) and increased business-as-usual redundancies. Productivity included process simplification and improvement across back of house and support functions. Commissions decreased by 12.2 per cent or \$60 million

including insourcing of Telstra branded retail stores and acquisition of Boost Tel Pty Limited and its controlled entities (Boost Mobile). Business-as-usual redundancy expenses increased by \$37 million mostly in core fixed costs including due to commencing the exit of International NAS products and TE reset. Core fixed costs decreased by \$428 million from FY23 to FY25, exceeding our T25 \$350 million target.

Other fixed costs increased by \$245 million due to inclusion of prior year acquisitions, including \$144 million for both Versent and Telstra Business Technology Centres, \$56 million increase in Telstra Health costs, changes in bond rate affecting employee liabilities, foreign exchange impact and other corporate adjustments.

16. Fixed costs - core includes commissions.

17. Fixed costs - other includes Telstra Health, corporate adjustments and acquisitions in prior years including Digicel Pacific, Versent and Telstra Business Technology Centres.

18. Guidance adjustments - refer to footnote 1.

Operating expenses on a statutory reported basis

Our progress on achieving our T25 productivity target is reported through the above operating expenses table. The detail below provides commentary on operating expenses as disclosed in our statutory accounts.

	FY25	FY24	Change
Operating expenses on a statutory reported basis	\$m	\$m	%
Labour	3,990	4,291	(7.0)
Goods and services purchased	8,212	8,441	(2.7)
Net impairment losses on financial assets	118	92	28.3
Other expenses	2,666	3,114	(14.4)
Total	14,986	15,938	(6.0)

Labour

Total labour expenses decreased by 7.0 per cent or \$301 million to \$3,990 million due to reduced direct and indirect FTE and \$210 million decrease in redundancy expenses, partly offset by increased wages as agreed in our Enterprise Agreements. Total direct FTE decreased by 9.5 per cent or 3,208 (including 1,323 in the second half) to 30,553. Redundancy expenses decreased mostly due to the prior year including \$247 million for restructuring costs associated with the organisational changes and action on cost announced in May 2024 (including reset of our Enterprise business). Business-as-usual redundancy expenses increased by \$37 million including due to commencing the exit of International NAS products and TE reset.

Goods and services purchased

Total goods and services purchased decreased by 2.7 per cent or \$229 million to \$8,212 million. Commissions decreased by 12.2 per cent or \$60 million including to insourcing of Telstra branded retail stores and acquisition of Boost Mobile. Cost of goods sold, which includes mobile handsets and accessories, tablets, mobile broadband hardware, IoT hardware, modems, and other fixed hardware, decreased by 6.6 per cent or \$189 million due to lower NAS equipment sales, and consumer content and services costs. Network payments and other goods and services purchased increased by 0.4 per cent or \$20 million due to increased sales of NAS cloud applications and managed security resale, partly offset by decline in nbn and other network payments.

Other expenses

Total other expenses decreased by 14.4 per cent or \$448 million to \$2,666 million. Impairment losses (excluding net losses on financial assets) decreased by \$380 million mostly due to the prior year including \$438 million for impairments related to Telstra Enterprise strategic review, office building leases and Retail Energy business, partly offset by \$50 million in the current year for impairment of London Hosting Centre assets. Excluding impairments, other expenses decreased by \$68 million including due to cost reduction initiatives, partly offset by inclusion of prior year acquisitions, including Versent and Telstra Business Technology Centres, and increased Telstra Health costs.

Foreign currency impacts

For the purposes of reporting our consolidated results, the translation of foreign operations denominated in foreign currency to AUD increased our sales revenue by \$27 million. This foreign exchange impact was partly offset by an increase in expenses by \$22 million across labour, goods and services purchased, and other expenses resulting in a favourable EBITDA contribution of \$5 million.

Depreciation and amortisation

Depreciation and amortisation increased by 4.7 per cent or \$212 million to \$4,691 million. Amortisation of intangible assets increased by \$246 million to \$1,677 million including amortisation related to increased capex on shorter life IT assets and FY24 spectrum purchases. Depreciation of property plant and equipment decreased by \$15 million to \$2,414 million. Depreciation of right-of-use assets decreased by \$19 million to \$600 million due to property exits including from office buildings. This year included a \$59 million increase in depreciation of property plant and equipment and a \$30 million decrease in amortisation of intangible assets associated with assessment of useful lives.

Net finance costs

Net finance costs increased by 9.4 per cent or \$55 million to \$639 million. Interest on borrowings increased by \$55 million to \$711 million due to higher average gross debt. Our average gross borrowing rate held at 5.0 per cent. Other net financing cost items (as set out in note 4.4.3 in the Financial Report) decreased by \$9 million to \$31 million, including \$19 million increase in net gain on financial instruments included in measurements. Finance income decreased by \$9 million to \$103 million.

Income tax

Income tax increased by 38 per cent to \$934 million due to higher taxable profits and an effective tax rate of 28.5 per cent.

Cash flows

	FY25	FY24	Change
Summary statement of cash flows	\$m	\$m	%
Net cash provided by operating activities	7,324	7,049	3.9
Net cash used in investing activities	(3,368)	(4,990)	32.5
– Capital expenditure (before investments)	(3,874)	(5,064)	23.5
– Other investing cash flows	506	74	n/m
Free cashflow	3,956	2,059	92.1
Net cash used in financing activities	(3,997)	(1,942)	n/m

Cash and cash equivalents at the beginning of the year	1,046	932	12.2
Effects of exchange rate changes on cash and cash equivalents	7	(3)	n/m
Cash and cash equivalents at the end of the year	1,012	1,046	(3.3)

Free cashflow provided by operating and investing activities was \$3,956 million representing an increase of \$1,897 million due to increase in net cash provided by operating activities and decrease in net cash used in investing activities. The decrease in net investing activities was driven by a reduction in spend on spectrum licences, reduction in M&A investment, increase in proceeds from the sale of equity accounted investments and repayment of loans by associated entity.

M&A investment this year included Boost Mobile and Versent in the prior year. Refer to Note 6.5.1(a) in the Financial Report for further detail on Boost Mobile. Disposals of equity accounted investments this year included Titanium Ventures Fund II (Ventures II), and our share sale and purchase agreement with DAZN Group Limited (DAZN) to exchange our 35 per cent interest in NXE Australia Pty Limited (Foxtel) and its controlled entities (NXE Group) for a 3 per cent equity interest in DAZN. Refer to Note 6.5.1(a) in the Financial Report for further detail on Ventures II and Note 6.5.1(b) in the Financial Report for further detail on NXE Group.

Net cash provided by operating activities increased by \$275 million to \$7,324 million including \$309 million increase in cash generated from operations offset by \$34 million increase in income taxes paid. The increase in net cash provided by operating activities included higher reported EBITDA.

Net cash used in investing activities decreased by \$1,622 million to \$3,368 million. Capital expenditure (before investments) decreased by \$1,190 million to \$3,874 million including due to lower payments for intangible assets mostly associated with spend on spectrum licences in the prior year. Payments for shares in controlled entities (net of cash acquired) decreased by \$264 million due to the acquisition of Boost Mobile this year, offset by the acquisition of Versent and payment of Digicel Pacific earnout in the prior year. Proceeds from the sale of equity accounted investments increased by \$134 million due to the disposal of our investments in Ventures II. Net cash from repayment of loans by associated entity increased by \$117 million mostly due to Foxtel repaying its outstanding loans prior to NXE Group disposal. Payments and proceeds for other financial assets held as investments increased by \$113 million and \$131 million respectively, mostly due to term deposits.

Accrued business-as-usual capital expenditure on a guidance basis was \$3,388 million or 14.9 per cent of sales revenue. This excluded \$325 million of strategic investment for the Intercity Fibre Network and Viasat infrastructure projects.

Net cash used in financing activities increased by \$2,055 million to \$3,997 million. This included a decrease in proceeds from borrowings of \$3,399 million, partly offset by a decrease in repayments of borrowings of \$2,388 million. Additionally, the on-market share buy-back, completed in June 2025, contributed \$751 million (including transaction costs) to the net cash used in financing activities. Finance costs paid increased by \$145 million due to higher average gross debt. Dividends paid to equity holders of the Telstra Entity increased by \$115 million to \$2,137 million.

FCFaL before strategic investment¹⁹ was \$3,433 million. FCFaL before strategic investment excludes net proceeds from M&A (\$143 million including Ventures II disposal and loan repayment from Foxtel, partly offset by Boost Mobile acquisition), spectrum payments (\$57 million) and strategic investment (\$325 million), and includes lease payments (\$762 million).

19. Free cashflow after lease payments (FCFaL) before strategic investment - refer to footnotes 3 and 4.

Our gross debt position was \$17,457 million comprising borrowings of \$14,896 million, lease liabilities of \$3,099 million, partly offset by \$538 million in net derivative assets. Gross debt increased by 3.9 per cent or \$659 million reflecting cash inflows of \$2,429 million (including debt issuance of \$1,595 million), cash outflows \$2,436 million (including debt repayments of \$1,370 million), and non-cash increase in debt of \$666 million mostly related to lease liabilities. Refer to Note 4.4 in the Financial Report for further detail.

Net debt increased by 4.4 per cent or \$693 million to \$16,445 million reflecting the increase in gross debt and \$34 million decrease in cash holdings.

Debt servicing²⁰ was 1.9 times and within our comfort zone.

Our balance sheet is in a strong position with net assets of \$16,316 million. Current assets increased by 6.4 per cent to \$6,495 million. Assets classified as held for sale increased by \$390 million (and corresponding liabilities classified as held for sale increased by \$61 million) mostly due to the classification of Telstra Purple Pty Ltd excluding its subsidiaries Alliance Automation Pty Ltd, Aqura Technologies Pty Ltd and Telstra Broadcast Services Pty Limited (Versent disposal group). Refer to Note 6.4 in the Financial Report for further detail. Current tax receivables increased by \$211 million due to higher pay as you go tax instalments. Current trade and other receivables and contract assets decreased by \$151 million including \$215 million decrease in trade receivables from contracts with customers, \$6 million decrease in finance lease receivables and \$32 million decrease in other receivables, partly offset by \$29 million increase in accrued revenue and \$73 million increase in contract assets. Cash and cash equivalents decreased by \$34 million.

Non-current assets decreased by 2.5 per cent to \$38,473 million. Investments

accounted for using the equity method decreased by \$414 million due to the disposal of Ventures II and our 35 per cent interest in NXE Group, partly offset by \$50 million of new investment in Titanium Ventures Fund III. Other investments increased by \$348 million including our equity interest in DAZN. Trade and other receivables and contract assets decreased by \$185 million including \$139 million decrease in amounts owed by joint ventures and associates including due to the NXE Group disposal, \$24 million decrease in finance lease receivables and \$11 million decrease in contract assets. Non-current derivative financial assets increased by \$270 million due to fair value gains.

Property, plant and equipment decreased by \$216 million due to depreciation expenses exceeding additions, impairments and other movements. Intangible assets decreased by \$646 million due to amortisation expense exceeding additions (mostly software assets), reclassification to assets held for sale, and decrease in net foreign currency exchange differences including the impacts from the amendment of currency

denomination for the purchase price allocation relating to the Digicel Pacific acquisition in July 2022 (refer to Note 3.1.4 in the Financial Report for further detail), partly offset by increase related to the Boost Mobile acquisition.

Current liabilities decreased by 0.04 per cent to \$11,521 million. Trade and other payables decreased by \$414 million mostly due to \$359 million reduction in trade payables and \$67 million reduction in contingent consideration. Current borrowings increased by \$597 million mostly due to Euro bond maturing in the next 12 months, increase in bilateral bank loans and commercial paper, partly offset by maturity of US bond and Japanese Yen private placement, and repayment of revolving bank facilities. Current other provisions reduced by \$219 million due mostly to decrease in redundancy provision.

Non-current liabilities increased by 2.8 per cent to \$17,131 million. Non-current borrowings increased by \$439 million mostly due to issuance of Euro and AUD bonds, partly offset by Euro bond maturing in the next 12 months.

Guidance versus reported results

This schedule details adjustments made to the reported results for the current and comparative periods to reflect the performance of the business on the basis on which we provided guidance to the market, which excludes material one-offs, such as mergers and acquisitions, disposals, impairments, spectrum, restructuring costs and such other items as determined by the Board and management. For acquisitions, Underlying EBITDA includes earnout adjustments in the second and subsequent years following acquisition in accordance with our policy. Free cashflow after lease payments (FCFaL) defined as 'operating cash flows' less 'investing cash flows' less 'payments for lease liabilities' and excludes spectrum and guidance adjustments. FY25 FCFaL guidance includes around \$300m cash outflow related to FY24 restructuring costs.

The following adjustments provide a detailed reconciliation from reported to guidance results for each guidance measure:

The adjustments set out in the above tables have been reviewed by our auditor in accordance with the Australian Standard on Review Engagements ASRE 2405 Review of Historical Financial Information Other than a Financial Report, for consistency with the guidance basis set out on this page. Our auditors have concluded that based on their review, which is not an audit, nothing has come to their attention that causes them to believe that the adjustments made to reported EBITDA and Free Cashflow set out in the Market Guidance Statement for the year ended 30 June 2025 are not prepared, in all material respects, in accordance with the guidance basis as set out on this page.

Notes:

1. M&A adjustments relating to acquisitions and disposals of controlled entities, joint ventures, associates and other investments and any associated net gains or losses, and contingent consideration.

FY24 underlying EBITDA also adjusted for Versent Pty Ltd and its controlled entities (Versent) trading performance and additional operating costs related to multiple individually immaterial Telstra Business Technology Centres acquired.

FY25 underlying EBITDA adjustment including \$43m non-cash gain from Tianjin data centre lease.

M&A adjustments include income adjustments of \$81m in FY24 including Versent and \$47m in FY25 including non-cash gain from Tianjin data centre lease.

Free Cashflow adjusted for the following:

FY24:

- Payment for the acquisition of Versent.
- Payment for multiple individually immaterial Telstra Business Technology Centres and associated additional operating costs.
- Additional equity contribution to Silicon Quantum Computing Pty Ltd.
- Payment of ~\$111m for FY23 Digicel Pacific earn-out.

FY25:

- Payment of \$125m for the acquisition of Boost Tel Pty Limited and its controlled entities (Boost Mobile).
- Proceeds of \$134m from the disposal of Titanium Ventures Fund II L.P.
- Receipt of \$131m loan repayment from Foxtel.

2. FY24 impairments including for Telstra Enterprise reset (\$311m), right-of-use assets following a review of utilisation of our office building leases (\$82m), and Retail Energy business (\$45m).

Telstra Enterprise reset including \$177m for deferred contract costs and \$134m for goodwill, software and inventory.

FY25 impairments including \$50m impairment of London Hosting Centre assets.

3. FY24 Adjustments, over and above normal business as usual redundancies, that relate to organisational changes to simplify operations and improve productivity.

4. Adjustment relating to the impact on free cashflow associated with our spectrum purchases and renewals for FY25 including:

- \$56m instalment payment for our national spectrum licence in the 26 GHz band.
- \$0.6m payments for various ACMA licences.
- \$0.3m payments for area-wide and apparatus licence in various spectrum bands.

5. Adjustment to Free Cashflow for payment of lease liabilities (including principal and interest).

6. Adjustment to Free Cashflow for strategic investment capex measured on an accrued basis and relates to the Intercity Fibre Network and Viasat projects.

n/a Adjustment is not relevant to the respective guidance measure.
