

# International Frequent Traveller Data Plan

## Important Information

Our International Frequent Traveller Data Plans are ideal for frequent travellers and a great way to minimise the amount you pay for data you use overseas, but there are other precautions you can take to make sure you aren't charged more than you expected.

With this plan, you pay a monthly recurring fee to receive a monthly international roaming data allowance. Your plan will be for a minimum term of 6 months and early termination charges may apply if you cancel early.

You need to be aware that applications such as email, automatic notifications and apps such as map services use considerable amount of data. Activities such as downloading music files, gaming or streaming video use large amounts of data – even short sessions can be extremely expensive. Turning this feature off before you travel will help you avoid incurring charges.

To see how you can turn off data on a range of popular phones and estimate your data use, visit our 'Travelling tips' and 'How to' videos on [telstra.com.au/info/roaming](http://telstra.com.au/info/roaming) or check your phone's manual.

We automatically send you SMS alerts (if your device is capable of receiving SMS) to notify you of pricing information for each country that you roam to.

You'll also receive SMS alerts when you use 50%, 85% and 100% of your data plan allowance. For any data used outside of your allowance, we will send you SMS alerts every time you use more than \$100 of 'pay as you go' data if you are a Business customer, and every time you use more than 100MB of 'pay as you go' data if you are an Global Enterprise & Services customer.

We also have spend management tools to help you monitor your international roaming usage. For more information, including how to register for these tools, visit [telstra.com/business/manageirusage](http://telstra.com/business/manageirusage)

Any unused Included Allowance will expire at the end of each month. You pay a monthly access fee and gain a monthly international allowance to use towards eligible data. If you cancel your plan before the end of your minimum term, your Early Termination Charge (ETC) will be calculated as: monthly fee x number of months (or part thereof) remaining in your minimum term x 90%.

If you take up a plan part-way through a billing month, the plan fee will be pro-rated according to the number of days that the plan will be active in that month. You'll still receive a full month's data allowance. If you cancel your plan part way through the billing period the plan fee for that month will be pro-rated according to the number of days that plan was active during that month.

## 05. Exclusions and Excess Usage Charges

Your Included Allowance can't be used towards:

- data usage in destinations not covered by your International Frequent Traveller Data Plan;
- data usage in Australia;
- content charges; or
- voice calls, SMS or MMS fees using International Roaming.

You must pay for such usage in addition to your International Frequent Traveller Data Plan charge and other standard charges. International Roaming PAYG data and voice charges are substantially higher than data and voice charges in Australia.

If you use data that is in excess of, or that is not covered by your International Frequent Traveller Data Plan, you will be charged for any additional International Roaming data usage at the standard pay as you go (PAYG) rate of \$3.00 per MB (charged per KB or part thereof).

The PAYG rate is correct as at September 2014 and may change from time to time. Please refer to [telstra.com/business/overseas](http://telstra.com/business/overseas) for the most current rate.

If you are using a smartphone overseas you may use more data than you expect.
