

MANAGE AND PAY YOUR BILLS MORE EASILY WITH T ANALYST™

T Analyst is Telstra's online billing and reporting tool designed to make it easier to organise, manage and pay your Telstra bills.

Access Telstra Bills

- View and download up to 18 months of historical bill data
- Automatically schedule delivery of bills via email
- Review account activity against a single or multiple accounts
- Compare up to 12 months of Telstra bills

Saves Time

- Reduces the need to receive paper bills
- Less time spent forwarding bills to different departments
- Copies of bills are accessible in one central location

Analyse usage

- Use pre-defined reports and graphs to view expenditure, exception and usage information for individual cost centres
- Customise your reports by applying filters to search for specific information
- Export data in PDF or CSV to create your own reports for analysis
- Automatically schedule report delivery to multiple recipients
- View trend reports on longer term telecommunication costs – for the last 3, 6 or 12 months

Better control

- Identify call usage patterns and recurring charges
- Allows departments and end users to manage their own expenditure
- Greater control and flexibility around who receives reports

Payment Options

- Make a payment by credit card or bank transfer for multiple bills
- View payment history

Flexible

- Review and pay multiple bills in one transaction
- Reduces manual rework and saves time
- Review historical payments making it easier to reconcile accounts

T Analyst provides a suite of default reports you can select from, with the most popular ones listed below.

Summary Reports

- **Bill Summary** – provides a summary of all charges associated with your bill
- **Cost Centre (by service)** - provides a high level summary of charges against services assigned to a cost centre
- **Service & Equipment Summary** –provides a high level summary report on all service and equipment charges
- **Top Services (by charge)** – provides an overview of services that have generated charges in a billing period, ranging from highest to lowest

Detail Reports

- **Bill Detail** – provides a detailed report of all charges associated with your bill.
- **Call & Usage Itemisation** – provides a detailed report on call and usage charges
- **Service Ons & Offs** – provides an overview of what services have been connected or cancelled within the last bill cycle
- **Other Charges & Credits Detail** – provides a detailed report on any other charges or credits that have been applied to an account for the specific billing period
