Availability

International Frequent Traveller Data Plans are available for eligible customers with a 10 digit account number.

International Frequent Traveller Data Plans are not available to customers on a \$150 or \$180 Telstra Business Mobile PLUS plan and any other plan where you are eligible for an International Roaming Discount or if you have an International Roaming Data Group Plan.

The Monthly Data Allowance isn't compatible with the international roaming allowance included in the All-4-Biz Mach II \$150 Mobile Plan. If you're on this plan, and you take up an International Frequent Traveller Data Plan, you won't be able to use the international roaming allowance included in your All-4-Biz Mach II \$150 Mobile plan.

Minimum term

Your plan will be for a minimum term of 6 months and early termination charges may apply if you cancel early.

What's included

You can use your Monthly Data Allowance towards data usage in selected countries.

Data usage is the amount of data you use (ie upload and download) accessing the internet. If you're not sure how much data you might need, then use the Data Usage Calculator to help you estimate your data usage needs at telstra.com/business/mobiledatacalc

What's not

Your Monthly Data Allowance can't be used for:

- data usage in destinations not covered by your International Frequent Traveller Data Plan
- data usage in Australia
- content charges such as apps, movies or songs; or
- voice calls, SMS or MMS fees using international roaming.

You must pay for this usage separately.

Information about pricing

Minimum monthly charge	Monthly data allowance
\$29	200MB
\$85	600MB
\$160	1.2GB
\$350	3GB

Any unused Monthly Data Allowance expires each month.

You'll also be charged excess data costs of \$3 per MB (charged per KB or part thereof) for any usage that exceeds your Monthly Data Allowance.

This rate is correct as at May 2017 and may change from time to time. You can find our current rates at telstra.com/internationalroaming

Early Termination Charge

You may terminate your plan at any time during your plan term. However if you do so, we may charge you an Early Termination Charge (ETC). Your ETC will be calculated according to the following formula:

Monthly fee x number of months (or part thereof) remaining in your minimum term x 90%

If you cancel your plan before the minimum term, we may charge you an early termination charge calculated as 90% of the monthly charges for the months (or part thereof) remaining in your plan.

Other information

Important information about your first bill

When you first start your plan part way through a billing period, your first bill will include your minimum monthly charge in advance. It will also include a proportion of your minimum monthly charge based on the number of days left in the billing period. You'll receive a full month's data allowance.

Usage alerts and spend management tools

We automatically send you SMS alerts (if your device is capable of receiving SMS) to notify you of pricing information for each country you roam to.

You'll also receive SMS alerts when you use 50%, 85% and 100% of your data plan allowance. For any data used outside of your allowance, we will send you SMS alerts every time you use more than \$100 of 'pay as you go' data.

We also have spend management tools to help you monitor your international roaming usage. For more information, including how to register for these tools, visit telstra.com/business/manageirusage
