Information about the service

Telstra will be switching off 3G in 2024. Before switch off, you can use handsets supporting 3G on 850MHz and 4G minimally on 700MHz and 1800MHz. See telstra.com/device for more information. After switch off you will still be able to access the Telstra Mobile Network provided your device is 4G voice enabled and 4G 700MHz compatible. Find out more: tel.st/goodbye3G

No Excess Data Charges In Australia

Once you exceed your included data allowance, your speed will be capped at 1.5Mbps, and slowed further in busy periods. This means it is not suitable for HD video or high speed applications and means that some webpages, videos, social media content and files may take longer to load, but you can still stream video in standard definition, listen to music, browse the web and access social media, even if the experience is slower sometimes. Heavy data users (users in the top 1% of all data users) may experience slower speeds than other users during busy periods.

Eligible Data Share

You can also share data with other eligible plans on the same account. Eligible plans can be found in our customer terms at telstra.com.au/customer-terms

Existing services on your account

If you have existing shareable services on your account, and you connect a new, or change an existing shareable service to a Telstra Business Mobile or Telstra Business Data Plan, we will automatically:

- change your existing eligible shareable services to have no excess data charges in Australia. This means that when you exceed your included data allowance your speeds will be slowed
- remove Business Demand Data from your existing eligible shareable services.

See Our Customer Terms for a full list of eligible services.

Accessory Repayment Options

You can choose to repay the cost of eligible accessories over a fixed period of time. This applies to accessories with a cost of \$120 or more and can be paid over a 12 or 24 month period. The charge for accessories will appear as a separate line item on your bill. There are 3 tiers available and if the total value of the accessory is more than one of these tiers, you'll need to pay the difference upfront. If you cancel your accessory repayment early or cancel your service(s), your accessory repayment will also terminate and you will be required to pay out the remainder of your accessory repayments.

What happens if I cancel my plan early?

You'll need to pay out any remaining device and accessory payments.

Changes to your plan

From time to time we may make changes to your plan, including price and inclusions, or we may move you to a new plan (which may cost more). With no lock-in, you can change your plan once a month or leave. If you leave, just pay out your device, accessories or services in full. If we change your plan or move you to a new plan:

(a) We'll give you at least 30 days' notice before making changes or automatically moving you to the closest available plan.

(b) If you don't like the changes or the new plan, you can choose a new plan (once a month) or cancel your plan. If you cancel your plan, you'll need to pay out the remaining cost of your devices, accessories or services in full.

What happens if I go overseas?

If you are moving your existing service and it currently has International Roaming blocked this will continue to apply on your new Plan, otherwise, International Roaming and International Day Pass are activated by default on your plan. You can deactivate them by calling us on 125 109 from within Australia or +61 439 125 109 outside of Australia free of charge from your Telstra service. For an additional charge per day an International Day Pass lets you make and receive unlimited standard voice calls and SMS and includes 500MB data for use each day (AEST) when travelling in Eligible Roaming Destinations. If you use more than the International Day Pass data allowance, we will automatically add extra data in blocks of 1GB for \$10 each.

Calls/SMS/MMS will be charged at international roaming rates (refer to telstra.com/overseas) and mobile data at \$3 per MB (charged per KB or part) if you:

- use your service outside of Eligible Roaming Destinations
- choose to opt out of your International Day Pass

Eligible Roaming Destinations

Visit telstra.com/overseas for the latest list or for more information on using your device overseas.

Bill Payment Charges

- Direct Debit is our preferred payment method, you can set it up anytime at telstra.com/directdebit
 - Paperless bills and electronic payments – Free
 - Payments made in person or by mail – Extra \$1.00
 - Set up Email Bill at telstra.com/emailbill
- Exemptions may apply. For details, visit telstra.com/billpay.

Understanding my bill

When you start or change your plan part way through a billing period, your first bill will have part month charges.

How can I monitor and manage my usage?

You receive SMS alerts in near real-time when you reach 50%, 85% and 100% of your Monthly Data Allowance.

To check your usage:

- Use the My Telstra app on your compatible smartphone or tablet
- Login to My Account at telstra.com/myaccount
- Visit My Plan Manager at telstra.com/mpm from your device's browser (select the 'My' tab to view details)
