Microsoft Windows 10 Enterprise

Information about the service

Your plan is for a Microsoft Windows 10 Enterprise application which is available through the Telstra Apps Marketplace.

Windows 10 Enterprise builds on a strong foundation of Windows 10 Pro, adding premium features to address the needs of all organizations.

To take advantage of this offering, you must have the following:

- Windows 10 Pro, version 1607 (also known as Windows 10 Anniversary Update) or later installed on the devices to be upgraded
- Azure Active Directory (Azure AD) available for identity management (can be purchased on the Telstra Apps Marketplace)

Telstra Apps Marketplace

The Telstra Apps Marketplace is a web-based marketplace that enables you to purchase and manage various software applications that we make available from time to time.

You need an internet connection to access the Telstra Apps Marketplace. To start using the Telstra Apps Marketplace, visit marketplace.telstra.com and create an account.

You may need to meet minimum system requirements to use certain applications available on the marketplace, which will be set out on marketplace.telstra.com and Our Customer Terms.

You’re responsible for ensuring that you meet these requirements.

Minimum Term

Casual. There is no fixed or minimum term but you need to give us 30 days’ notice to cancel your Microsoft Windows 10 Enterprise subscription.

What’s included

Plans

<table>
<thead>
<tr>
<th>Plans and applications</th>
<th>Windows 10 Enterprise E3 &amp; E5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minimum Licences</td>
<td>1</td>
</tr>
<tr>
<td>Advanced Security Features</td>
<td></td>
</tr>
<tr>
<td>Better extensive device and app management</td>
<td>✓</td>
</tr>
<tr>
<td>Full flexibility of OS deployment and update control</td>
<td>✓</td>
</tr>
</tbody>
</table>

Credential Guard – Hardware-level security, virtualization-based security, improved protection against persistent threats and improved manageability

Device Guard – Protects against malware, protects the Windows system core from vulnerability and zero-day exploits, and allows trusted apps to run

Applocker Management – Helps IT pros determine which applications and files users can run on a device.

Application Virtualization – Makes applications available to end users without installing the applications directly on the users device

Windows Defender Advanced Threat Protection (ATP) – Windows Defender ATP enables enterprise customers to detect, investigate and respond to advanced attacks and zero-day threats on their networks. Built-in, cloud-powered and leverages the Microsoft Intelligence Security Graph.

User Experience Virtualization – Captures user-customized Windows and application setting and store them on a centrally managed network file share

Managed User Experience – Helps customize and lock down a Windows device’s user interface to restrict it to a specific task.

Information about pricing

Your Minimum monthly charge
