Customer Service Advice from Telstra

Ongoing Extreme Weather events impact service in Sydney and Greater Sydney, South Coast, Illawarra, Hunter, Mid North Coast, Central Tablelands, Southern Tablelands Districts and parts of the Central West Slopes and Plains and South West Slopes Districts of New South Wales.

As previously notified by Telstra on Wednesday 10 December 2014 and Tuesday 6 January 2015, Telstra's normal operations in the Sydney and Greater Sydney, South Coast, Illawarra, Hunter, Mid North Coast, Central Tablelands, Southern Tablelands Districts and parts of the Central West Slopes and Plains and South West Slopes Districts of New South Wales have been affected by ongoing extreme weather events on or about Wednesday 3 December 2014 through to Sunday 7 December 2014 continuing to date.

Telstra’s telecommunications network in these areas have experienced high levels of damage that has resulted in delays to installation and repair activities on a significant number of Telstra services. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence of the ongoing weather effects, the expected recovery date has now been further extended to 15 March 2015.

Information as to the nature of these severe weather events can be sourced from the Bureau of Meteorology (BOM). Large hailstones, heavy rainfall and damaging wind are referred to in the BOM Severe Weather Warning issued for 3 December 2014 initially at 2:54 pm Wednesday, 3 December 2014; all of which were widely reported in the news media after the events.

Telstra has identified that the effect of these circumstances may apply to an additional 42,500 services bringing the total number of potential services impacted to approximately 105,100 services. This number may increase as Telstra assesses the full affect of the ongoing extreme weather conditions.

Based on current information, the resumption date of normal service operations is expected to be 15 March 2015. This date is indicative only; Telstra customers should anticipate that some further delays may occur.

Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.
