Customer Service Advice from Telstra

Extreme Weather events impact service in Sydney and Greater Sydney, South Coast, Illawarra, Hunter, Mid North Coast, Central Tablelands, Southern Tablelands Districts and parts of the Central West Slopes and Plains and South West Slopes Districts of New South Wales.

Telstra is working to manage the significant impact to Telstra services that has occurred as a result of a series of extreme weather events in the Sydney and Greater Sydney, South Coast, Illawarra, Hunter, Mid North Coast, Central Tablelands, Southern Tablelands Districts and parts of the Central West Slopes and Plains and South West Slopes Districts of New South Wales on or about Wednesday 3 December 2014 through to Sunday 7 December 2014.

Due to the effect of damage to the Telstra telecommunications network by severe thunderstorms and lightning, there has been a significant increase in the number of Telstra services being reported as faulty. As a result, there has been some disruption to service and delays to normal installation and repair activities.

Telstra apologises to any affected customers.

Information as to the nature of these severe weather events can be sourced from the Bureau of Meteorology (BOM). Large hailstones, heavy rainfall and damaging wind are referred to in the BOM Severe Weather Warning issued for 3 December 2014 initially at 2:54 pm Wednesday, 3 December 2014; all of which were widely reported in the news media after the events.

Telstra has identified that the effect of these circumstances may apply to approximately 33,700 services. Some of these services may not be installed or repaired within Telstra’s standard time frames. The number of possibly affected services may increase or decrease as Telstra assesses the full effect of the extreme weather conditions. Based on current information, the resumption date of Telstra’s normal service operations is expected to be 4 January 2015. This date is indicative only, however, and may be subject to change once the full impact of the extreme weather conditions has been assessed. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.
