

Customer Service Advice from Telstra

Extreme Weather events impact service in Mid North Coast District of New South Wales.

As previously notified by Telstra on Wednesday 24 December 2014, Telstra's normal operations in the Mid North Coast region of New South Wales were affected by a series of extreme weather events on or about Thursday 18 December 2014. Telstra's telecommunications network in these areas have experienced high levels of damage that resulted in delays to installation and repair activities on a significant number of Telstra services. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to 1 February 2015.

Telstra has identified that the effect of these circumstances applies to an additional 850 services bringing the total number of services impacted to approximately 1,850 services. This number may increase as Telstra assesses the full affect of the extreme weather conditions. Based on current information, the resumption date of normal service operations is expected to be 1 February 2015. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.

Telstra services encompassed in this exemption are in the area bounded by and including, but not limited to, the area starting at Woolgoolga, then following the NSW coast south past Coffs Harbour and Port Macquarie to Crowdy Head, then turn northwest past Elands to Yarrowitch. The area then heads north to Hillgrove, northeast to Glenreagh, then southeast back to Woolgoolga. All suburbs and towns, off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed in this exemption.

Services in the area mentioned above with phone numbers in the following number ranges may have been affected:
