

Customer Service Advice from Telstra

Fire impacts service in Adelaide Hills and surrounding areas of South Australia.

Telstra is working to manage the significant impact to Telstra services that has occurred as a result of bushfires in the Adelaide Hills and surrounding areas of South Australia, on or about Saturday 3 January 2015 through to Sunday 4 January 2015.

Due to road closures and the scale of damage to Telstra's telecommunications network caused by the fires, there has been a significant increase in the number of Telstra services being reported as faulty. As a result, there has been some disruption to service and delays to normal installation and repair activities in the directly affected areas, and across the state of South Australia due to the need to redeploy Telstra staff to the affected areas.

Telstra apologises to any affected customers.

Information about the extent of the fire and current warnings can be sourced from the South Australian CFS internet site <http://www.cfs.sa.gov.au/site/home.jsp>. This information was also widely reported in the news media after the events.

Telstra has identified that the effect of these circumstances may apply to approximately 950 services. Some of these services may not be installed or repaired within Telstra's standard time frames. The number of possibly affected services may increase or decrease as Telstra assesses the full effect of the fire damage. Based on current information, the resumption date of Telstra's normal service operations is expected to be 18 January 2015. This date is indicative only, however, and may be subject to change once the full impact of the fire damage has been assessed. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.
