## **Extreme Weather events impact service in Yorke Peninsula, Eastern Eyre Peninsula, Lower Eyre Peninsula, North West Pastoral, North East Pastoral, Flinders, Mid North, Riverland, Murraylands and Mount Lofty Ranges Districts of South Australia.**

As previously notified by Telstra on Wednesday 14 January 2015, Telstra's normal operations in the Yorke Peninsula, Eastern Eyre Peninsula, Lower Eyre Peninsula, North West Pastoral, North East Pastoral, Flinders, Mid North, Riverland, Murraylands and Mount Lofty Ranges Districts of South Australia were affected by a series of extreme weather events on or about Wednesday 7 January 2015 through to Saturday 10 January 2015. Telstra's telecommunications network in these areas have experienced high levels of damage that resulted in delays to installation and repair activities on a significant number of Telstra services. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to 1 March 2015.

Telstra has identified that the effect of these circumstances applies to an additional 1,000 services bringing the total number of services impacted to approximately 1,900 services. This number may increase as Telstra assesses the full affect of the extreme weather conditions. Based on current information, the resumption date of normal service operations is expected to be 1 March 2015. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.
