

Customer Service Advice from Telstra

Staff Redeployment impact service in Adelaide and Mount Lofty Ranges Districts of South Australia.

As previously notified by Telstra on Wednesday 11 February 2015 and Monday 9 March 2015, Telstra's normal operations have been affected by a series of severe thunderstorms, which have caused damage to the Telstra telecommunications network throughout widespread areas of New South Wales. This necessitated in Telstra redeploying a large number of staff from across Australia to the affected regions.

Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence the redeployed staff will remain in the affected regions and continue repair work. The expected recovery date has now been extended to 19 April 2015.

As a result, there will be delays to normal installation and repair activities in the Adelaide and Mount Lofty Ranges Districts of South Australia, as staff from this region are redeployed.

Telstra apologises to any affected customers.

Information as to the nature of the severe weather events, which included destructive winds, heavy rainfall and flash flooding which occurred in the affected regions can be sourced from the Bureau of Meteorology (BOM). The BOM issued Severe Weather Warnings regarding these events commencing on or about Wednesday 3 December 2014, continuing to date. Additionally these unusually severe weather events have been widely reported by most of the news media.

Telstra has identified that the effect of these circumstances applies to an additional 6,100 services, bringing the total number of services impacted to approximately 16,100 services. This number may increase as Telstra assesses the full affect of the extreme weather conditions. Based on current information, the resumption date of normal service operations is expected to be 19 April 2015. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.
