## **Extreme Weather events impact service in Southern Tablelands District of New South Wales and part of the Australian Capital Territory District.**

As previously notified by Telstra on Thursday 16 April 2015, Telstra's normal operations in the Southern Tablelands District of New South Wales and part of the Australian Capital Territory District were affected by a series of extreme weather events on or about Monday 6 April 2015. Telstra's telecommunications network in these areas have experienced high levels of damage that resulted in delays to installation and repair activities on a significant number of Telstra services. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence the expected recovery date has now been extended to 24 May 2015.

Telstra has identified that the effect of these circumstances applies to an additional 300 services bringing the total number of services impacted to approximately 1,100 services. This number may increase as Telstra assesses the full affect of the extreme weather conditions. Based on current information, the resumption date of normal service operations is expected to be 24 May 2015. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.

From Gundaroo the area turns southeast back to Nerriga. All suburbs and towns serviced by Telstra within these boundaries are encompassed in this exemption.
