

Customer Service Advice from Telstra

Severe Weather events impact service in part of the Southeast Coast District of Queensland and part of the Northern Rivers District of New South Wales.

As previously notified by Telstra on Saturday 6 February 2016, Telstra's normal operations in part of the Southeast Coast District of Queensland and part of the Northern Rivers District of New South Wales were affected by a series of severe weather events on or about Friday 29 January 2016 through to Saturday 30 January 2016. Telstra's telecommunications network in these areas have experienced high levels of damage that resulted in delays to installation and repair activities on a significant number of Telstra services. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to 27 March 2016.

Telstra has identified that the effect of these circumstances applies to an additional 2,100 services bringing the total number of services impacted to approximately 6,600 services. This number may increase as Telstra assesses the full affect of the severe weather conditions. Based on current information, the resumption date of normal service operations is expected to be 27 March 2016. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.

Telstra services encompassed in this exemption are in the area bounded by and including, but is not limited to, the area starting at Labrador in Queensland and following the coastline south past Broad Beach crossing the NSW border past Tweed Heads and Byron Bay to East Wardell. From East Wardell the area turns northwest to The Risk then heads northeast crossing the NSW/QLD border to Maudsland and east back to Labrador. All suburbs and towns, off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed in this exemption.

Services in the area mentioned above with phone numbers in the following number ranges may have been affected:
