Customer Service Advice from Telstra.

Severe Weather events impact service in the South West District and parts of the Central, North Central, Northern Country, Mallee and Wimmera Districts of Victoria.

As previously notified by Telstra on Thursday 15 September 2016, Telstra’s normal operations in the South West District and parts of the Central, North Central, Northern Country, Mallee and Wimmera Districts of Victoria were affected by a series of severe weather events on or about Thursday 8 September 2016 through to Tuesday 13 September 2016. Telstra’s telecommunications network in these areas have experienced high levels of damage that resulted in delays to installation and repair activities on a significant number of Telstra services. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to 13 November 2016.

Telstra has identified that the effect of these circumstances applies to an additional 3,600 services bringing the total number of services impacted to approximately 6,000 services. This number may increase as Telstra assesses the full affect of the severe weather conditions. Based on current information, the resumption date of normal service operations is expected to be 13 November 2016. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.
