

# Customer Service Advice from Telstra

## **Extreme Weather events impact service in the Adelaide Metropolitan and Mount Lofty Ranges Districts and part of the Mid North District of South Australia.**

Telstra is working to manage the significant impact to Telstra services that has occurred as a result of a series of extreme weather events in the Adelaide Metropolitan and Mount Lofty Ranges Districts and part of the Mid North District of South Australia on or about Tuesday 13 September 2016 through to Wednesday 14 September 2016.

Due to the effect of damage to the Telstra telecommunications network by heavy rainfall, there has been a significant increase in the number of Telstra services being reported as faulty. As a result, there has been some disruption to service and delays to normal installation and repair activities.

Telstra apologises to any affected customers.

Information as to the nature of these extreme weather events can be sourced from the Bureau of Meteorology (BOM). Heavy rainfall and damaging winds are referred to in the BOM Severe Weather Warning issued for 13 September 2016 initially at 7:26 pm Tuesday, 13 September 2016, reference number IDS65503; all of which were widely reported in the news media after the events.

Telstra has identified that the effect of these circumstances may apply to approximately 4,900 services. Some of these services may not be installed or repaired within Telstra's standard time frames. The number of possibly affected services may increase or decrease as Telstra assesses the full effect of the extreme weather conditions. Based on current information, the resumption date of Telstra's normal service operations is expected to be 9 October 2016. This date is indicative only, however, and may be subject to change once the full impact of the extreme weather conditions has been assessed. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.

The area then heads south to Callington, southwest to Seaford and follows the coastline north past Glenelg, Port Adelaide and Middle Beach back to Port Arthur. All suburbs and towns including metropolitan Adelaide, off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed in this exemption.
