Severe Weather events impact service in Innisfail and part of the surrounding North Tropical Coast and Tablelands District of Queensland

As previously notified by Telstra on Thursday 12 January 2017, Telstra's normal operations in Innisfail and part of the surrounding North Tropical Coast and Tablelands District of Queensland were affected by a series of severe weather events on or about Saturday 7 January 2017 through to Monday 9 January 2017. Telstra's telecommunications network in these areas have experienced high levels of damage that resulted in delays to installation and repair activities on a significant number of Telstra services. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to 5 March 2017.

Telstra has identified that the effect of these circumstances applies to an additional 150 services bringing the total number of services impacted to approximately 450 services. This number may increase as Telstra assesses the full affect of the severe weather conditions. Based on current information, the resumption date of normal service operations is expected to be 5 March 2017. This date is indicative only; Telstra customers should anticipate that some further delays may occur. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.

Telstra services encompassed in this exemption are in the area bounded by and including, but is not limited to, the area starting at Deeral following the coastline south past Innisfail and Cardwell to Lucinda. From Lucinda the area heads southwest to Bemerside, northwest to Kirrama and north to Millaa Millaa then northeast back to Deeral. All suburbs and towns off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed in this exemption.

Services in the area mentioned above with phone numbers in the following number ranges may have been affected:

07 4030 2000	To	07 4030 2999	07 4061 0000	To	07 4088 9999
07 4043 2000	To	07 4048 5999	07 4232 6000	To	07 4232 9999

This means that Telstra is notifying customers that normal service time frames may not be met during the period of **10 January 2017 to 5 March 2017** inclusive (based on Telstra's estimated recovery schedule correct at the time of publication of this notice).
