

Customer Service Advice from Telstra

Severe Weather events impact service in Innisfail and part of the surrounding North Tropical Coast and Tablelands District of Queensland.

Telstra is working to manage the significant impact to Telstra services that has occurred as a result of a series of severe weather events in Innisfail and part of the surrounding North Tropical Coast and Tablelands District of Queensland on or about Saturday 7 January 2017 through to Monday 9 January 2017.

Due to the effect of damage to the Telstra telecommunications network by severe thunderstorms, there has been a significant increase in the number of Telstra services being reported as faulty. As a result, there has been some disruption to service and delays to normal installation and repair activities.

Telstra apologises to any affected customers.

Information as to the nature of these severe weather events can be sourced from the Early Warning Network at <http://www.ewn.com.au/alerts/>. Very heavy rainfall and flash flooding is referred to within this site for Saturday 7 January 2017 through to Monday 9 January 2017; all of which were widely reported in the news media after the events.

Telstra has identified that the effect of these circumstances may apply to approximately 300 services. Some of these services may not be installed or repaired within Telstra's standard time frames. The number of possibly affected services may increase or decrease as Telstra assesses the full effect of the severe weather conditions. Based on current information, the resumption date of Telstra's normal service operations is expected to be 12 February 2017. This date is indicative only, however, and may be subject to change once the full impact of the severe weather conditions has been assessed. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.

All suburbs and towns off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed in this exemption.

As these circumstances were outside of Telstra's control, Telstra is claiming an exemption from compliance with time frames and performance standards required under the *Telecommunications (Customer Service Guarantee) Standard 2011*. Therefore Telstra is notifying customers that normal installation and repair time frames may not be met during the period from **10 January 2017** to **12 February 2017** inclusive (based on Telstra's estimated recovery schedule correct at the time of publication of this notice) and, under section 21 of the *Telecommunications (Customer Service Guarantee) Standard 2011*, Telstra will be exempt from complying with performance standards during this period.
