

Customer Service Advice from Telstra

Severe Weather events impact service in Metropolitan Melbourne and part of the surrounding Central District of Victoria.

Telstra is working to manage the significant impact to Telstra services that has occurred as a result of a series of severe weather events in Metropolitan Melbourne and part of the surrounding Central District of Victoria on or about Saturday 8 April 2017 through to Monday 10 April 2017.

Due to the effect of damage to the Telstra telecommunications network by severe thunderstorms, there has been a significant increase in the number of Telstra services being reported as faulty. As a result, there has been some disruption to service and delays to normal installation and repair activities.

Telstra apologises to any affected customers.

Information as to the nature of these severe weather events can be sourced from the Early Warning Network at <http://www.ewn.com.au/alerts/>. Heavy rainfall and damaging winds are referred to within this site for Saturday 8 April 2017 through to Monday 10 April 2017; all of which were widely reported in the news media after the events.

Telstra has identified that the effect of these circumstances may apply to approximately 9,950 services. Some of these services may not be installed or repaired within Telstra's standard time frames. The number of possibly affected services may increase or decrease as Telstra assesses the full effect of the severe weather conditions. Based on current information, the resumption date of Telstra's normal service operations is expected to be 7 May 2017. This date is indicative only, however, and may be subject to change once the full impact of the severe weather conditions has been assessed. Telstra regrets any inconvenience caused to customers and thanks them for their patience while this work is being undertaken.

Telstra services encompassed in this exemption are in the area bounded by and including, but not limited to, the area starting at Point Gellibrand following the coastline west and southwest past Williamstown, Werribee South, Geelong and Queenscliff to Urquhart Bluff. From Urquhart Bluff the area heads northwest to Winchelsea South, northeast to Waurin Ponds, and northwest to Hesse, then northeast to Lethbridge.
