

Customer Service Advice from Telstra

Delay due to severe weather events in Perth and surrounding Lower West District of Western Australia.

The city of Perth and part of the surrounding Lower West District of Western Australia was impacted by severe weather caused by Ex-Tropical Cyclone Joyce on or about Monday 15 January 2018 through to Tuesday 16 January 2018.

An interruption to Telstra's normal operations has occurred leading to delays in installation and repair activities. As many as 3,350 Telstra services are impacted in the area bounded by and including, but not limited to, the area starting at Two Rocks on the WA coast heading east to Chittering, southeast to Clackline, and southwest to Canning Mills then west to Gosnells. From Gosnells the area turns southwest past Hopeland and West Coolup to Preston Beach and then follows the coastline north past Mandurah, Fremantle and Perth back to Two Rocks. All suburbs and towns including metropolitan Perth, off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed in this exemption.

We anticipate that the majority of services will be restored by 4 February 2018. We're sorry for any inconvenience this delay may cause but we can assure you we are working hard to get things back on track.

What else do you need to know?

Information as to the nature of these severe weather events can be sourced from the Bureau of Meteorology (BOM). Heavy rainfall and Flash Flooding are referred to in the BOM Severe Weather Warning issued for 15 January 2018 initially at 3:48 pm Monday, 15 January 2018, reference number IDW21037; all of which were widely reported in the news media after the events.

Due to this event, we're claiming an exemption under section 21 of the *Telecommunications (Customer Service Guarantee) Standard 2011*, including an exemption from the payment of compensation between **16 January 2018 to 4 February 2018** inclusive for any delays in fixing or connecting services, and the keeping of appointments relating to these activities in the impacted area.
