As previously notified by Telstra on 19 December 2018, the North East District and parts of the North Central and Northern Country Districts of Victoria, and parts of the Riverina District of New South Wales, were impacted by severe weather on or about Thursday 13 December 2018 through to Saturday 15 December 2018. This number may increase as Telstra assesses the full effect of the severe weather conditions. Based on current information, the resumption date of normal service operations is expected to be 28 January 2019. This date is indicative only; Telstra customers should anticipate that some further delays may occur.
