Delay due to severe weather in parts of the Wide Bay and Burnett and Southeast Coast Districts of Queensland.

As previously notified by Telstra on 24 December 2018, parts of the Wide Bay and Burnett and Southeast Coast Districts of Queensland were impacted by severe weather on or about Saturday 15 December 2018 through to Monday 17 December 2018. This event resulted in extensive damage to Telstra's telecommunications network. Due to the extent of damage to the Telstra network, the impact in the affected region has been greater than initially estimated, and as a consequence of the continued weather effects, the expected recovery date has now been extended to 3 February 2019.

The effect of these circumstances applies to an additional 650 services bringing the total number of services impacted to approximately 2,200 services. This number may increase as Telstra assesses the full effect of the severe weather conditions. Based on current information, the resumption date of normal service operations is expected to be 3 February 2019. This date is indicative only; Telstra customers should anticipate that some further delays may occur.
