Customer Service Advice from Telstra

Delay due to extreme weather events in parts of the Kimberley and Pilbara Districts of Western Australia.

Parts of the Kimberley and Pilbara Districts of Western Australia were impacted by extreme weather caused by Tropical Cyclone Blake on or about Sunday 5 January 2020 through to Thursday 9 January 2020.

An interruption to Telstra’s normal operations has occurred leading to delays in installation and repair activities. As many as 200 Telstra services are impacted in the area bounded by and including, but not limited to, the area starting at Walcott Inlet heading southwest to the northeast corner of the King Leopold Ranges Conservation Park. The area turns south to Fitzroy Crossing, southwest past the Karlamliyi National Park to Newman then northwest to Karijini. From Karijini the area heads north to the Mungaroona Range Nature Reserve, then northwest to Millstream. The area turns north to the WA coastline and follows the coastline northeast past Port Hedland, Broome and Derby back to Walcott Inlet. All suburbs and towns, off shore islands and coastal areas serviced by Telstra within these boundaries are encompassed in this exemption.

What else do you need to know?

Information as to the nature of these extreme weather events can be sourced from the Bureau of Meteorology (BOM).
