3.11 Some *Customer Select Assurance* options are not available on all *Telstra* services. Availability is set out in clause 7.

3.12 The provision of 2 hour (*Express 2* or *Express 2 plus*) *Customer Select Assurance* options for all non-*PSTS* services is first subject to specific agreement with *Telstra* and is also dependant on *Telstra* being able to remotely diagnose and restore a fault from within *Telstra's* systems and at *Telstra's* first point of testing. The Pay Per Event option is not available on *Express 2* or *Express 2 plus*. If an *Express 2/Express 2 plus* service assurance level is chosen and at the time of reporting the fault *Telstra* determines that the service is not capable of remote fault diagnosis and restoration, the service assurance level will default to *Express 4/Express 4 plus*, depending on the coverage level chosen. If such a default occurs, the *Customer* will be charged in accordance with the fees applying to *Express 4/Express 4 plus* (as applicable) and will be entitled to *Service Rebates* in accordance with clause 10, if *Telstra* fails to meet the applicable *Express 4/Express 4 plus Restoration Target*. For these reasons given above, *Telstra* cannot at the time a *Customer* applies for and accepts *Express 2* or *Express 2 plus*, guarantee that the *Customer* will always be able to receive that level of service assurance. The *Customer* accepts this position and all consequences arising from the *Customer Select Assurance* being defaulted to *Express 4/Express 4 plus* (as applicable).

3.13 The *Customer* must provide *Telstra* with access to its premises or other necessary assistance in a timeframe which will enable *Telstra* to meet its commitments under *Customer Select Assurance* options. If the *Customer* is unable to do so, then the time within which *Telstra* must provide the *Resolution of Service Difficulty* will be extended by the amount of time which elapses before the *Customer* is able to provide the necessary assistance or access.

-
- 3.14 *Telstra's Standard Hours of Business* apply for installation of *Telstra* products and services set out in clause 7.
- 3.15 *Telstra* will provide a 24 hour Fault Reporting service for the lodgement of faults for *Telstra* products and services set out in clause 7.
- 3.16 The monthly service charge covers maintenance up to the *Telstra Network Boundary Point* (“*NBP*”), and, where applicable, of the network terminating unit only. Maintenance of *Customer Premises Cabling* (cabling beyond the *NBP*) and *Customer Premises Equipment* is not included. This clause does not apply to the following services:
- Freecall One8 and Freecall 1800 and Freecall 1800 Advanced;
 - Priority One3 and Priority 1300; and
 - Infocall 190
- 3.17 Unless otherwise specified by an agreement between *Telstra* and the *Customer*, where a Non-*PSTS* service has the ‘A’ end in a different zone to the ‘B’ end, the service shall be classed according to the zone which provides the lesser level of restoration.
- 3.18 If the *Customer* is not satisfied that *Telstra* restored their service(s) within the maximum quoted *Restoration Targets* or such other time as agreed with the *Customer*, *Telstra* will pay the *Customer* a *Service Rebate*. The types of *Service Rebates* available and conditions which apply to them are set out in clause 10.

4 GENERAL DESCRIPTION OF CUSTOMER SELECT MAINTENANCE OPTIONS

- 4.10 The *Customer* must provide *Telstra* with access to its premises or other necessary assistance in a timeframe which will enable *Telstra* to meet its commitments under the *CSM Options*. If the *Customer* is unable to do so, then the time within which *Telstra* must provide the *Resolution of Service Difficulty* will be extended by the amount of time elapsed before the *Customer* is able to provide the necessary assistance or access.
- 4.11 *Telstra's Standard Hours of Business* apply for installation of *Telstra* products and services set out in clause 7.
- 4.12 *Telstra* will provide a 24 hour Fault Reporting service for the lodgement of faults for *Telstra* products and services set out in clause 7.
- 4.13 The annual service charge covers maintenance up to the *Telstra NBP*, and, where applicable, of the network terminating unit only. Maintenance of *Customer Premises Cabling* (cabling beyond the *NBP*) and *Customer Premises Equipment* is not included. This clause does not apply to the following services:
- Argent Dedicated;
 - Argent Dial Up;
 - Freecall One8 and Freecall 1800; and
 - Priority One3 and Priority 1300
- 4.14 Unless otherwise specified by an agreement between *Telstra* and the *Customer*, where a Non-PSTS service has the 'A' end in a different zone to the 'B' end, the service shall be classed according to the zone which provides the lesser level of restoration.
- 4.15 If the *Customer* is not completely satisfied that *Telstra* restored their service(s) within the maximum quoted *Restoration Targets*, or, such other time as agreed with the *Customer*, *Telstra* will pay the *Customer* a *Service Rebate*. 5 RESPONSE TIME AND RESTORATION TARGET

-
- 5.1 Restoration occurs when the service is returned to full working order. Restoration includes a temporary repair, which is performed to enable use of the service before permanent restoration is effected.
- 5.2 The *Restoration Target* for *Customer Select Assurance* options applies to *Urban and Rural areas* only.
- 5.3 The standard service assurance commitment applies to Urban Areas only and will be extended by one additional working day in Major and Minor Rural Areas, and by two additional working days in Remote Areas. For Freecall One8, Freecall 1800, Priority One3 and Priority 1300 services (clauses 7.23 and 7.32 respectively), the standard service assurance commitment applies to Urban Areas only..
- 5.4 *Response Time* and *Restoration Targets* shall be calculated to include only time accrued during *Telstra's* maintenance and repair times for services set out in clause 7.
- 5.5 *Response Time* and *Restoration Targets* apply only to service difficulties found to be within *Telstra's* maintenance responsibilities.
- 5.6 The *Response Time and Restoration Targets* and charges set out in clause 7 do not apply where, in *Telstra's* opinion, a fault has been caused by:
- interference to the *Telstra* product/ service by the *Customer* or another person; or
 - the *Customer's* negligence or wilful damage.
- 5.7 *Telstra* is not liable for any failure to meet its obligations in respect of *Response Time, Restoration Targets* and *Service Rebates* if that failure is caused by an act beyond *Telstra's* reasonable control. In particular, *Telstra* is not obliged to meet its obligations where it is hindered or prevented from doing so by causes including (but not limited to) acts of God, industrial disputes of any kind, lightning, fire, earthquake, storm, flood, governmental restraint, expropriation or prohibition, (including a Competition Notice issued to *Telstra*), unavailability or delay in the availability of software, equipment or transport, inability or delay in granting or obtaining governmental approvals, consents, permits or licences.

- 5.9 Attendance to service faults is available outside the maintenance and repair times identified in clause 7 at the *Customer's* request, in which case an after hours service charge as specified in clause 11.2 shall apply (see the [Fee-for-service \(Other work we do for you\) section](#) of Our Customer Terms).
- 5.10 In the event that *Telstra* is requested to attend the *Customer's* site to attend to a fault condition which is subsequently proven to be in *Customer Premises Equipment* or *Customer Premises Cabling*, an incorrect callout charge as specified in clause 11.2 shall apply, unless such equipment or *Customer Premises Cabling* is covered by a separate maintenance agreement with *Telstra*. *Telstra* will inform the *Customer* of the relevant charges and seek the *Customer's* approval before attending the *Customer's* Premises or commencing work.
