Pricing

- 5.3 Where pricing is based on usage, we round up usage in the billing period to the nearest whole unit (for example, 1.4GB is rounded up to 2GB).
- 5.4 For certain products, your pricing may be based on usage bands. Where your pricing is based on usage bands, you may request that we reduce or increase your usage band in accordance with Your Agreement. If we agree to reduce your usage band, we may charge you a fee.
- 5.5 Where pricing is based on a quantity of usage which you specify (for example, number of users or hours of use), and your actual usage exceeds this amount, we may charge you and you must pay us the amount calculated based on your actual usage.
- 5.6 For certain products, Your Agreement may specify a minimum spend as a percentage of the total monthly spend specified for such product. Where a minimum spend is specified, you may reduce your spend to the amount of the minimum spend through reducing your utilisation of the products without incurring a fee. If you reduce your utilisation of Cloud Services products such that the amount payable would otherwise be an amount below the minimum spend, you are still required to pay the minimum spend for that product.
- 5.7 For certain products under the Cloud Services section which have a minimum term or service schedule, we may charge you an early termination fee if your Cloud Service is cancelled or

OUR CUSTOMER TERMS CLOUD SERVICES – GENERAL TERMS

terminated (other than for our material breach) before the end of the minimum term or service schedule term. Unless otherwise set out in Your Agreement, the early termination fee will be an amount equal to 25% of your fees and charges multiplied by the number of remaining months in your service schedule term plus any setup fees (if there are any setup fees which you have not already paid). The other parts of the Cloud Services section may contain additional specific terms and conditions applicable to the early termination fee.

6 SERVICE LEVELS

General

6.1 If there are any inconsistencies between the service level terms set out in this General Terms part and the service level terms set out in the other parts of the Cloud Services section, then the specific service level terms under the other parts of the Cloud Services section will prevail to the extent of the inconsistency.

What are our Service Levels?

6.2 Unless a service level exclusion applies, we aim to meet the service levels for your service. You acknowledge that our service levels are targets only and we will not be responsible for failing to meet them. The service levels will either be:

- (a) the service levels applicable to the default Service Level Grade for your service (as explained below); or
- (b) if you upgrade the Service Level Grade for your service (as explained below), the service levels applicable to the Service Level Grade that we agree with you.

6.3 We offer three grades of service, each providing different service levels. The available grades include gold, silver and bronze ("Service Level Grade"). The default Service Level Grade for each service is Bronze.

Service Level Charges

6.4 You do not have to pay an additional charge for the Bronze Service Level Grade.

6.5 For some services, you can apply to enhance your Service Level Grade. If you enhance your Service Level Grade to Silver or Gold, the charges for the applicable Service Level Grade are set out in Your Agreement. We may charge you a fee to change your Service Level Grade.
