- 1.1 This is the Private Payphones section of Our Customer Terms.
- 1.2 [The General Terms of Our Customer Terms](#) apply.

Inconsistencies

2 PayphoneLine Complete

PayphoneLine Complete is our service for private payphone operators. We supply PayphoneLine Complete for business purposes and you must use PayphoneLine Complete mainly for business purposes.

From 1 September 2018 new PayphoneLine Complete customers need to ensure that their payphone has a self-tariffing capability correctly programmed in accordance with tariff rates shown below for those tariff rates to apply. If you are an existing PayphoneLine Complete customer you need to ensure that your payphone has a self-tariffing capability correctly programmed in accordance with tariff rates below by 30 June 2019 for those tariff rates to apply.

From 30 June 2019 payphones without self-tariffing capability will no longer work correctly to apply the below tariff rates. To confirm whether your payphone has a self-tariffing capability and the options available if it doesn't you can call the Payphone Service Delivery Team on 1800011433-2.

- 2.1 Private payphones can be used to make calls using coins, pre-paid phonecards or other calling cards (depending on the type of equipment installed).
- 2.2 You decide how much to charge people who make calls using your private payphone. You do not have to charge the same as we do for our public payphones.
