OUR CUSTOMER TERMS

CLOUD SERVICES – MCAFEE MULTI ACCESS

Certain words are used with the specific meanings set out below or in the General Terms section of Our Customer Terms.

1 ABOUT THE MCAFEE® MULTI ACCESS SECTION

- 1.1 This is the McAfee Multi Access section of Our Customer Terms. Depending on the nature of the products and services you are receiving under this Cloud Services section, provisions in other parts of the Cloud Services section, as well as in the General Terms of Our Customer Terms at <http://www.telstra.com.au/customer-terms/business-government/index.htm>, may apply.
- 1.2 Unless you have entered into a separate agreement with us which excludes them, the General Terms section of Our Customer Terms also applies. See section one of the General Terms of Our Customer Terms at <http://www.telstra.com.au/customer-terms/business-government/index.htm> for more detail on how the various sections of Our Customer Terms are to be read together.
- 1.3 See section one of the General Terms of the Cloud Services section for more detail on how the various parts of the Cloud Services section are to be read together.

2 AVAILABILITY

- 2.1 The McAfee Multi Access application is not available to new customers on and from 9 July 2015. Existing customers may continue to request adds, moves and changes.

3 MCAFEE MULTI ACCESS APPLICATION

What are the McAfee Multi Access offers?

- 3.1 The McAfee Multi Access application is a cloud based, client only, security application providing virus and threat filtering for multiple compatible devices and managed via a single management console.
- 3.2 You may apply for either:
 - (a) the McAfee Multi Access 3 Device; or
 - (b) the McAfee Multi Access 5 Device.
- 3.3 The McAfee Multi Access offers include a subscription for the McAfee Multi Access application for up to either 3 or 5 eligible devices depending on the offer you select (a list of current compatible devices is available by going to the Telstra Apps Marketplace support pages at <http://www.telstra.com/marketplacesupport> ("Telstra Apps Marketplace Support").
- 3.4 You are responsible for assigning licences to your end users' devices. We will send you and your end users via email the product keys and instructions to set up your service and to protect your devices.

Eligibility

- 3.5 You must:
- (a) ensure your devices meet the requirements set out at Telstra Apps Marketplace Supportor as otherwise advised by us from time to time;
 - (b) ensure that your devices and software on your devices are compatible for the McAfee Multi Access offer; and
 - (c) regularly check the default email address that we have allocated to you for messages about your McAfee Multi Access offer.

User numbers

- 3.6 If you apply to add additional users during the Initial Term, the Initial Term for each additional user will expire at the same time as the Initial Term for your initial application. If adding the additional users moves your subscription into a new pricing tier, all users under your subscription will be charged on the basis of that new tier from the date you increased the users.
- 3.7 If you wish to remove a number of users from your subscription (e.g. decrease the number of users under your subscription) you will need to terminate that number of users from your subscription. If your plan or individual user licences is cancelled before your minimum term has ended, you'll need to pay us an Early Termination Charge (ETC) for each user licence cancelled. The ETC is calculated as 65% of the monthly charge multiplied by the number of user licences cancelled multiplied by the number of remaining months in your plan term, plus the set up charge (if there is one).

Application Features – encryption

- 3.8 If requested, you must provide a password to encrypt and protect your sensitive information. You may provide a challenge question that will allow you to recover your password if you forget it. If you lose or cannot remember the password and the answer to the challenge question, you will not be able to recover the information you have encrypted.
- 3.9 Encryption without a strong password (at least seven characters with at least one number, one uppercase letter, one lowercase letter, and a special character such as a hyphen) can reduce the protection that the McAfee Multi Access application offers. To the extent permitted at law, we are not liable to you if you fail to use a strong password or if the encryption is broken.
- 3.10 It may not be possible to unencrypt information that has been encrypted if your hard drive fails or has bad sectors. To the extent permitted at law, we are not liable for any losses you suffer.

Additional acceptable use restrictions

- 3.11 Unless we agree otherwise with you:

OUR CUSTOMER TERMS

CLOUD SERVICES – MCAFEE MULTI ACCESS

- (a) you can only install and use the Service Software for the McAfee Multi Access application on the number of devices in your subscription; and
 - (b) you must not allow any third parties to use (or benefit from the use or functionality of) the Service Software.
- 3.12 There are also additional use restrictions and use terms for the McAfee Multi Access application set out in:
- (a) the "Read Me" files or "About" files provided with the Service Software for the McAfee Multi Access application; and
