Part F – Managing Calls

Certain words are used with the specific meanings set in Part A – General of the Telstra Mobile section, or in the General Terms of Our Customer Terms.

1 About this Part

- 1.1 This is part of the Telstra Mobile section of Our Customer Terms. Provisions in other parts of the Telstra Mobile section, as well as in the General Terms of Our Customer Terms, may apply.

See clause 1 of the General Terms of Our Customer Terms for more detail on how the various sections of Our Customer Terms should be read together. To see these terms – home and family customers [click here](#); business and government customers [click here](#).

See clause 1 of Part A – General of the Telstra Mobile section for more detail on how the various parts of the Telstra Mobile section should be read together. To see these terms – home and family customers [click here](#); business and government customers [click here](#).

2 MessageBank

MessageBank products

- 2.1 MessageBank provides you with a personalised answering service for your mobile phone when you are unable to answer a call. There are different types of MessageBank products available:

Service	Features
MessageBank Standard for Post-Paid	Allows up to 98 messages to be stored for a maximum of 14 days where the message remains unread. Where a message has been read, the maximum storage time for that message is 7 days. Includes call back feature and hang up messages.
MessageBank Voice to Text for Post-Paid	Allows up to 98 messages to be stored for a maximum of 7 days where the message remains unread. Where a message has been read, the maximum storage time for that message is 7 days. Includes call back feature and hang up messages.
MessageBank Standard for Pre-Paid	Allows up to 40 messages to be stored for a maximum of 7 days where the message remains unread. Where a message has been read, the maximum storage time for that message is 3 days. Includes call back feature and hang up messages.

Part F – Managing Calls

Monthly subscription charge

- 2.2 We charge you the following monthly subscription charge for this service:

Monthly Subscription Charge	GST excl.	GST incl.
	Charge per mobile service per month	
Subscription charge – MessageBank (Standard)	Nil	Nil
Subscription charge – MessageBank Business	\$6.90	\$7.59
Subscription for Mobile Fax Number	\$10.00	\$11.00

If you don't retrieve messages

- 2.3 If you are a postpaid mobile customer and do not use your MessageBank service to retrieve messages for six months or more, we may cancel your MessageBank service and move you to the Message2txt service as detailed below.
- 2.4 If you are a prepaid mobile customer and do not use it to retrieve messages for three months or more, we may cancel your MessageBank service and move you to the Message2txt service as detailed below.

Charges – message retrieval

- 2.5 We charge you the following charges for calls from your mailbox service to retrieve stored messages:

Part F – Managing Calls

Pre-paid – message retrieval

- 2.6 See Part B – Pre Paid Pricing Plans of the Telstra Mobile section of Our Customer Terms for message retrieval charges.

Additional features

- 2.7 We offer the following additional features and charge you the following:

Additional Features and Charges	
Call back - is a feature of MessageBank Standard and MessageBank Business. The phone number of an incoming call, or another number chosen by the caller, will be recorded with any message left on your MessageBank. The number will not be recorded if it has been blocked or removed.	The applicable rates under your pricing plan for calls to an Australian fixed or mobile number AND The applicable message retrieval rates
Hang up messages - is a feature of: <ul style="list-style-type: none"> • MessageBank Standard; and • MessageBank Business Once you set up hang up messages, you will receive an SMS message when someone calls your mobile, listens to your MessageBank greeting, but hangs up before leaving a message. The SMS message will contain the caller's telephone number. The SMS will not include the caller's number if it has been blocked or removed.	The applicable message retrieval rates to activate the feature
Mailbox to mailbox messaging – allows you to use MessageBank Business and MessageBank Standard to record and send a message to the MessageBank of another Telstra customer. Where the message is sent to any other MessageBank customer	The applicable message retrieval rates

Part F – Managing Calls

Additional Features and Charges	
<p>This feature will not be available on new MessageBank services after 18 September 2020 and will no longer be available to all customers after 8 December 2020.</p>	
<p>Personal receptionist – allows you to use MessageBank Business and MessageBank Standard to give an incoming caller the option of being transferred to a fixed or mobile number chosen by you, instead of leaving a message.</p> <p>This feature will not be available on new MessageBank services after 18 September 2020 and will no longer be available to all customers after 8 December 2020.</p>	<p>The applicable rates under your pricing plan for calls to an Australian fixed or mobile number</p>
<p>Telephone delivery (OMD) – allows you to use MessageBank Business and MessageBank Standard to record and deliver messages to a fixed or mobile number chosen by you to people who do not have a Telstra mailbox.</p> <p>If the number to which the message is sent is not answered, we will attempt to deliver the message a further three times.</p> <p>This feature will not be available on new MessageBank services after 18 September 2020 and will no longer be available to all customers after 8 December 2020.</p>	<p>The applicable rates under your pricing plan for calls to an Australian fixed or mobile number</p> <p>AND</p> <p>The applicable message retrieval rates</p>
<p>Group distribution list – allows you to use MessageBank Business and MessageBank Standard to set up a list of people that you want to send the same message. You then record and send that message via mailbox to mailbox messaging or telephone delivery (OMD).</p> <p>This feature will not be available on new MessageBank services after 18 September 2020 and will no longer be available to all customers after 8 December 2020.</p>	<p>The applicable message retrieval rates to establish list</p> <p>AND</p> <p>Either the applicable message retrieval rates OR the applicable rates under your pricing plan for calls to an Australian fixed or mobile number to send message (see "Mailbox to mailbox messaging" above)</p>
<p>Special delivery – allows you to use MessageBank Business and MessageBank Standard to ask MessageBank to call you at a chosen fixed or mobile number when you receive a message. You will then need to retrieve the message.</p> <p>This feature will not be available on new MessageBank services after 18 September 2020 and will no longer be available to all customers after 8 December 2020.</p>	<p>The applicable rates under your pricing plan for calls to an Australian fixed or mobile number</p>

3 Voice2Text

Voice2Text service

- 3.1 Voice2Text is a service that converts a voice message received in your MessageBank mailbox from speech to text and delivers it to your mobile as a long text message.

Part F – Managing Calls

- 3.2 The “from” field in the converted text message will display the caller’s number (where the caller’s number is available).
- 3.3 If parts of a message cannot be converted they may be marked or omitted from the converted message. If an entire message cannot be converted for any reason (for example due to excessive background noise) a text notification will be sent. If the message is too long it will be truncated and marked as a long message.
- 3.4 If the Voice2Text service is activated, text conversions or notifications will replace your standard 101 notifications. You can still call 101 to listen to a received voice message, which will be marked as “read” in your mailbox. Standard MessageBank storage times apply.

Eligibility

- 3.5 You are eligible to receive the Voice2Text service if you are a Telstra Mobile Network post-paid customer.
- 3.6 You can activate the Voice2Text service by calling us.

Compatibility

- 3.7 Voice2Text replaces any other voice mail or messaging service you may have, other than MessageBank.

Processing of Voice2Text

- 3.8 Where a voice message is processed using speech-to-text translation:
- (a) it may take up to 20 minutes for the converted text message or notification to be sent to you (on average it should take around 3.5 minutes);
 - (b) you will receive a converted text message or notification in place of the usual 101 notification for voice messages;
 - (c) subject to the Australian Consumer Law provisions in the General Terms of Our Customer Terms, we do not promise that the speech-to-text translator correctly translates the message or that the conversion will be word for word;
 - (d) if parts of a message cannot be converted they may be marked or omitted;
 - (e) in some instances, we may use a third party agent to assist in the translation of individual words or small portions of a voice message;
 - (f) if the speech-to-text conversion cannot convert a message, for example because the message is not in English, because of poor diction, poor connection, context or

Part F – Managing Calls

background noise, we will send you a text notification to call 101 to listen to the voice message; and

- (g) if the voice message is too long for us to convert into the equivalent of 3 text messages, the text will be truncated and the message will tell you to call 101 if you want to listen to the entire message.

Use and content of messages

3.9 We are not responsible for the content of any converted voice mail messages you receive from another person. We do not censor or filter messages that pass through the system and we simply supply a technical service enabling voice messages to be converted to text messages.

3.10 You must not use or permit the Voice2Text service to be used:

- (a) to breach any laws, standards, content requirements or applicable codes of conduct;
- (b) to infringe a third party's rights; or
- (c) in connection with any machine-to-machine or automated or commercial applications other than the conversion of voice mails received in a personal mailbox.

We may suspend, limit or disable your use of the Voice2Text service at any time if you have used or allowed the service to be used in a way described above.

Charges

3.11 We charge you the following for use of the Voice2Text service, depending on the plan you have selected.

For business, corporate or government customers who subscribed prior to 18 February 2009:

Part F – Managing Calls

	Monthly Subscription Charge Charge per mobile service per month		Monthly included messages (includes converted text messages and notification of non-conversions)		Charge per processed voice message (includes converted voice messages and non-converted notifications)	
	GST excl.	GST incl.	GST excl.	GST incl.	GST excl.	GST incl.
Voice2Text Low Plan*	Nil	Nil	Nil	Nil	50¢	55¢
Voice2Text Medium Plan	\$9.09	\$10.00	\$9.09 (25 messages)	\$10.00 (25 messages)	36¢	40¢
Voice2Text High Plan	\$18.18	\$20.00	\$18.18 (80 messages)	\$20.00 (80 messages)	23¢	25¢

- Not available to customers who are eligible for our Corporate plans.

For business, corporate, government or consumer customers who subscribed on and from 18 February 2009:

	Monthly Subscription Charge Charge per mobile service per month		Monthly included messages (includes converted text messages and notification of non-conversions)		Charge per processed voice message (includes converted voice messages and non-converted notifications)	
	GST excl.	GST incl.	GST excl.	GST incl.	GST excl.	GST incl.
Voice2Text Low Plan*	\$4.55	\$5.00	Nil	Nil	36¢	40¢
Voice2Text Medium Plan	\$9.09	\$10.00	\$9.09 (25 messages)	\$10.00 (25 messages)	36¢	40¢
Voice2Text High Plan	\$13.64	\$15.00	\$13.64 (500 messages)	\$15.00 (500 messages)	36¢	40¢

- 3.12 We will take reasonable steps to deliver the converted text message or notification to you. However, in some circumstances the message may be undeliverable. More detail about when an SMS may not be deliverable is set out in Part E - SMS and Messaging. We charge you for each message we send to you as part of the Voice2Text service, whether

Part F – Managing Calls

we were able to convert the voice message or not and even if the message is not delivered or received.

- 3.13 We will give you a credit equivalent to the monthly subscription charge for the option you have selected for the first calendar month of your use of the Voice2Text service. This offer is only available once per customer and once per mobile number/service. The credit will appear on your first or second Telstra Mobile bill after you connect to the Voice2Text service and will be credited against your monthly charges. The credit is not transferable or redeemable for cash. Standard MessageBank charges apply to MessageBank usage during this first month.
- 3.14 Any unused included converted text messages and non-converted notifications expire at the end of each month and cannot be rolled over. The included allowance cannot be used against any other types of calls or SMS.
- 3.15 Voice2Text charges are not included in any “included calls” or “included SMS” component under your pricing plan and are not eligible for discounts on calls or SMS, except when your corporate, business or government plan says otherwise.
- 3.16 Standard MessageBank charges apply for the diversion to and retrieval of calls from your MessageBank service.

4 Message2txt

Message2txt service

- 4.1 Message2txt is a service that converts a voice message, of up to 10 seconds duration received by your Message2txt service, from speech to text and delivers it to your mobile as a text message.
- 4.2 The “from” field in the converted text message will display the caller’s number (where the caller’s number is available). Where the callers’ number is not available (for example a blocked mobile, restricted number or a silent line) the “from” field will be “Message2txt”.
- 4.3 If parts of a message cannot be converted they may be marked or omitted from the converted message. If an entire message cannot be converted for any reason (for example due to excessive background noise) a text notification will be sent.

Eligibility

- 4.4 You are eligible to receive the Message2txt service if you are a Telstra Mobile Network post-paid or prepaid customer on a compatible voice service.
- 4.5 You can activate or deactivate the Message2txt service by calling us on 125111.

Part F – Managing Calls

Compatibility

- 4.6 Voice2Text and MessageBank or Call Forwarding to another number will take precedence over the Message2txt service.

Processing of Message2txt

- 4.7 Where a voice message is processed using speech-to-text translation:
- (a) it may take up to 20 minutes for the converted text message or notification to be sent to you (on average it should take around 3.5 minutes);
 - (b) you will receive a converted text message or notification;
 - (c) subject to the Australian Consumer Law provisions in the General Terms of Our Customer Terms, we do not promise that the speech-to-text translator correctly translates the message or that the conversion will be word for word;
 - (d) if parts of a message cannot be converted they may be marked or omitted;
 - (e) in some instances, we may use a third party agent to assist in the translation of individual words or some or all of a voice message;
 - (f) the speech-to-text conversion may not always convert a message, for example because the message is not in English, because of poor diction, poor connection, context or background noise.

Use and content of messages

- 4.8 We are not responsible for the content of any converted Message2txt messages you receive from another person. We do not censor or filter messages that pass through the system and we simply supply a technical service enabling voice messages to be converted to text messages.
- 4.9 You must not use or permit the Message2txt service to be used:
- (a) to breach any laws, standards, content requirements or applicable codes of conduct;
 - (b) to infringe a third party's rights; or
 - (c) in connection with any machine-to-machine or automated or commercial applications.

We may suspend, limit or disable your use of the Message2txt service at any time if you have used or allowed the service to be used in a way described above.

Part F – Managing Calls

Charges

- 4.10 We do not charge for any SMS generated by the service nor do we charge to have the service activated and available.
- 4.11 A party calling you will incur normal charges when they reach the Message2txt service.

Delivery

- 4.12 We will take reasonable steps to deliver the converted text message or notification to you. However, in some circumstances the message may be undeliverable. More detail about when an SMS may not be deliverable is set out in Part E - SMS and Messaging.

5 MessageBank Plus (also known as Visual Voicemail)

MessageBank Plus service

- 5.1 MessageBank Plus is a service that sends a voice message received in your MessageBank mailbox to a client on your handset as a sound file. You can then listen to, rewind and delete the message via a visual interface.
- 5.2 The “from” field in message header will display the caller’s number (where the caller’s number is available).
- 5.3 If the MessageBank Plus service is activated, notifications via the Visual Voicemail application will replace your standard MessageBank SMS notifications.
- 5.4 You can still call 101 to listen to a received voice message as part of the MessageBank Plus service as well as accessing via the Visual Voicemail application. However an account holder who has a 13 digit account number will be charged at consumer rates for calling 101 regardless of the account holder’s plan - please refer to the MessageBank section.
- 5.5 Messages received will be marked as “saved” in your mailbox.
- 5.6 The maximum storage time for a message is seven days, as messages received by MessageBank Plus are deemed to have been “read” by the Visual Voicemail application.
- 5.7 MessageBank Plus functionality retains only a subset of the standard MessageBank service functionality. Some functionality available on standard MessageBank will not be available if the MessageBank Plus service is activated (for example, Wake up Calls, Personal Receptionist, Mailbox to mailbox messaging, Fun greetings, Group distribution list, Special delivery, Telephone delivery (OMD), Reminder, hang up messages). In addition MessageBank Plus does not support video messages.

Part F – Managing Calls

- 5.8 You can activate the MessageBank Plus service by contacting us.

Eligibility

- 5.9 You are eligible to receive the MessageBank Plus service if you are a post-paid mobile customer and you have an eligible handset with an appropriate operating system.
- 5.10 The only eligible handset for MessageBank Plus is an Apple iPhone.

Compatibility

- 5.11 MessageBank Plus replaces any other voice mail or messaging service you may have. For example, you cannot have Voice2Text or MessageBank Standard as well as MessageBank Plus at the same time.

Processing of MessageBank Plus messages

- 5.12 Where a voice message is processed using MessageBank Plus you will receive a sound file on the Visual Voicemail application in place of the SMS notification.

Use and content of messages

- 5.13 We are not responsible for the content of any voice mail messages you receive from another person. We do not censor or filter messages that pass through the system and we simply supply a technical service enabling voice messages to be accessed via the Visual Voicemail application.
- 5.14 You must not use or permit the MessageBank Plus service to be used:
- (a) to breach any laws, standards, content requirements or applicable codes of conduct;
 - (b) to infringe a third party's rights; or
 - (c) in connection with any machine-to-machine or automated or commercial applications other than the conversion of voice mails received in a personal mailbox.

We may suspend, limit or disable your use of the MessageBank Plus service at any time if you have used or allowed the service to be used in a way described above.

Charges

- 5.15 If you hold any of the following plans ("**Eligible Plans**"), you will receive the MessageBank Plus service for no extra cost as a part of your plan:

Part F – Managing Calls

- (a) Every Day Connect Plan \$80;
- (b) Every Day Connect Plan \$100;
- (c) Every Day Connect Plan \$130;
- (d) Every Day Connect BYO Plan \$60;
- (e) Every Day Connect BYO Plan \$80; or
- (f) Every Day Connect BYO Plan \$100.

However, if you move from an Eligible Plan to a plan which is not listed in cl 5.15, you will no longer receive the MessageBank Plus service at no cost.

- 5.16 If you do not hold an Eligible Plan, or no longer hold an Eligible Plan, we will charge you the following for use of the MessageBank Plus service.

	Monthly Subscription Charge Charge per mobile service per month	
	GST excl.	GST incl.
MessageBank Plus	\$4.55	\$5.00

- 5.17 We will take reasonable steps to deliver the MessageBank Plus message and message notification to you. However, in some circumstances the message and message notification may be undeliverable. More detail about when Data and SMS may not be deliverable is set out in Part E - SMS and Messaging.
- 5.18 MessageBank Plus charges are not included in any “included calls” or “included SMS” component under your pricing plan and are not eligible for discounts on calls or SMS, except when your plan or campaign offer says otherwise.
- 5.19 Standard MessageBank charges apply (if applicable) for the diversion to your MessageBank Plus service and retrieval of calls from your MessageBank (if you choose to call 101). Please refer to the MessageBank and Call Forward sections.
- 5.20 Data must be enabled to receive voice messages on the Visual Voicemail application. Within Australia data usage associated with MessageBank Plus is not rated so no charges apply and it does not count towards your monthly usage. However, standard data charges apply when International Roaming for the delivery of messages and communication between the application on your handset and MessageBank platform.

Part F – Managing Calls

- 5.21 We may from time to time nominate jurisdictions in which you may not use MessageBank Plus. We will provide you with notice of any such nominations. For the avoidance of doubt, you will remain liable for charges incurred if you do use MessageBank Plus in a nominated jurisdiction.

6 Call Forward

- 6.1 You may activate call forward on your service. When call forward is activated, all calls to your service will be forwarded to another specified number. The caller pays the same charges for the call. We charge you the following:

Call Forward		GST excl	GST incl
For calls forwarded to a Telstra fixed or mobile number (including Freecall 1800 and MessageBank) irrespective of call distance or time of day (per 30 seconds or part thereof)	For customers with a 10-digit Telstra account number: For Corporate Rate Program, Corporate Net Rate Lite, Corporate Net Rate Program (other than customers on CNR 0 or Corporate CN1 flexi-plan), Telstra Government Program customers, Corporate Select, BlackBerry voice plans and Call Select customers and customers with contracts individually negotiated with Telstra.	5¢	5.5¢
	For customers with a 13-digit Telstra account number: For Corporate Rate Program, Corporate Net Rate Lite, Corporate Net Rate Program (other than customers on CNR 0 or Corporate CN1 flexi-plan), Telstra Government Program customers, Corporate Select, BlackBerry voice plans and Call Select customers and customers with contracts individually negotiated with Telstra.	5.454	6¢
	For all other customers	5.454¢	6¢
For calls forwarded to an International number, calls forwarded to a 190 number and calls forwarded to operator assisted numbers	See Part D – Other Call Types of the Telstra Mobile section of Our Customer Terms		
For calls forwarded to a MessageBank Standard mailbox	For customers on the following plans: Member Plan, Phone Plan, Casual Plan, Member Plan Ultimate, Phone Plan Ultimate, Get Connected (Member & Phone Plan), Telstra \$49 and \$79 Cap Plus Plan,	0¢	0¢

Part F – Managing Calls

Call Forward		GST excl	GST incl
	Corporate Staff Plan (Casual, Member & Phone Plan) customers, EveryDay Connect Plans; and For Telstra Business customers with MessageBank Plus with a 13 digit account number.		
	For all other customers	5.454¢	6¢

To see the charges in Part D – Other Call Types – home and family customers [click here](#); business and government customers [click here](#).

- 6.2 If you activated your service before 8 October 2003, you are able to forward your calls to an international number. If you activated your service on or after 8 October 2003, you are not able to forward your calls to an international number.

7 EasyCall

What is EasyCall?

- 7.1 You may choose to activate the following enhanced call handling features:

Call handling features	Function
Call Waiting	Alerts you if someone else is trying to call you when you are on the phone. You can switch between callers.
Call Enquiry	Allows you to make a voice call while you are already on a call (only available with Telstra Mobile Network services). You can switch between callers.
Conference Call	Allows you to make a voice call with up to five other people at once if you have a Telstra Mobile Network phone. The additional calls may be established via Call Waiting and Call Enquiry.

Charges

- 7.2 There are no access charges for the EasyCall features, but normal call charges apply to calls made using the features. Where the call charges applicable under your pricing plan are based on distance, the second call will be charged at the applicable rate for calls over 165 km.

Part F – Managing Calls

8 SMS Directory Search

What is SMS Directory Search?

8.1 SMS Directory Search service allows you to access an electronic directory of names and telephone numbers which customers within that directory can search via SMS.

Eligibility

- 8.2 You can only establish a directory if you have entered into a separate agreement with us to establish that directory.
- 8.3 To be eligible to use the SMS Directory Search service in respect of a directory you must:
- (a) be an existing Telstra Mobile customer;
 - (b) have a handset that is capable of receiving and sending SMS;
 - (c) not have a non-payment full or temporary disconnection or suspension account status attached to your service; and
 - (d) have your name and at least one mobile phone number included in the directory by the person who has established it (in addition to any other phone numbers).

Charges

- 8.4 We will take reasonable steps to deliver SMS messages sent from your phone. However, in some circumstances the message may be undeliverable due to technological difficulties or because the receiving phone is not working properly, is switched off, is out of range or if the message storage space on the phone is full. In such cases Telstra will be unable to deliver the message. We will charge you your applicable SMS rate for each SMS you send to use the Directory Search service, whether or not we receive the SMS.
- 8.5 We also charge you the following charge for each SMS sent by us to you in response to your request for directory information. We will charge you for each SMS we send as a result of your request. We will send you one SMS for each request. We will charge you whether or not you receive the SMS.

SMS Directory Search	GST excl	GST incl
Charge per SMS	22.73¢	25¢

Part F – Managing Calls

9 Calling Number Display

- 9.1 Calling Number Display shows you who's calling your mobile phone from Australia by displaying the calling number on your handset (unless the number calling is blocked). This only applies to calls that are made in Australia.
- 9.2 Calling Number Display also enables your mobile number to be displayed on the mobile or fixed phone you are calling (unless it is blocked).
- 9.3 Your phone number may also be displayed to a person you are calling overseas (unless it is blocked).
- 9.4 You must apply to us to block your mobile number on all calls (otherwise you can block your number on a single call). A number display block will apply to calls managed by Telstra on the Telstra network and we will ask other network operators, wholesalers and sub-wholesalers of our network to block your number so their customers won't be able to see your number on their Calling Number Display.
- 9.5 Calling Number Display is automatically connected to your phone free of charge.

10 Removing call diversions

- 10.1 Where you use a Telstra Mobile Service (for example, Call Forward) to divert or forward your calls to another number or service, we may remove the diversion if we believe that it:
- has been incorrectly programmed;
 - interferes with another person's use of a telecommunications service; or
 - causes a nuisance to another person.

We will notify you before this happens.

11 Telstra Mobile Protect

From 15 March 2021, Telstra Mobile Protect will no longer be available for new customers. From 30 June 2021, Telstra Mobile Protect will be exited and will cease to work.

- 11.1 Telstra Mobile Protect (formerly Smart Controls) allows customers to place mobile internet browsing and voice call, SMS and MMS restrictions on Telstra mobile services on their account, or on other Telstra mobile services that are not on their account where

Part F – Managing Calls

the end user has consented to such restrictions being imposed. For mobile internet browsing restrictions terms – see Part G **Data Services of the Telstra Mobiles section** [click here](#).

- 11.2 Terms for mobile voice call, SMS and MMS restrictions are contained in this Part F.

Eligibility

- 11.3 If you have a 13 digit account number, and have registered for My Account, you are eligible to purchase Telstra Mobile Protect for:

- (a) any mobile service on your account; and
- (b) any mobile service that is not on your account with the consent of the user of that mobile service.

- 11.4 In order to obtain the user's consent in respect of a mobile service that is not on your account, we will send an SMS or an email (where the device is not capable of receiving SMS and an email address has been provided by you) to the user of that device. The user must accept the request by reply SMS or via the authentication link provided in our email, and the device must be accessing the email and the link via the Telstra Mobile Network, in order for the user's consent to be accepted.

Cancellation

- 11.5 You can cancel Telstra Mobile Protect for any of your mobile services, at any time. Charges for that month will be pro-rated.
- 11.6 The user of a mobile service that is not on your account may withdraw their consent for Telstra Mobile Protect at any time in which case we will cancel Telstra Mobile Protect for that mobile service. We will notify you by SMS if this occurs. Charges for that service for that month will be pro-rated.

Setting up Telstra Mobile Protect restrictions

- 11.7 You can via My Account:
- (a) purchase and apply Telstra Mobile Protect for Telstra mobile services on your account; and
 - (b) request consent to purchase and apply Telstra Mobile Protect to Telstra mobile services which are not on your account.
- 11.8 Once Telstra Mobile Protect has been purchased you can choose to:

Part F – Managing Calls

- (a) block incoming voice calls, SMS and MMS from specific telephone numbers (including premium rate services such as our 190 InfoCall service);
 - (b) restrict outgoing voice calls, SMS and MMS to specific telephone numbers (including International numbers and premium rate services);
 - (c) block all incoming and outgoing voice calls, SMS and MMS, except for numbers that you nominate;
 - (d) restrict incoming and outgoing voice calls, SMS and MMS at nominated times and on certain days of the week.
- 11.9 You cannot choose to block or restrict voice calls to and from a particular number, but allow SMS and MMS to and from that same number (and vice versa).
- 11.10 Any incoming or outgoing SMS and MMS which are blocked during nominated times, will be received and sent after those nominated times have expired, unless you have chosen to always block voice calls, SMS and MMS to and from that particular number.
- 11.11 We do not guarantee that voice call, SMS and MMS restrictions will work if the mobile service is used overseas.
- 11.12 We do not guarantee that usage through applications on the device which provide voice call services over mobile data, or access to mobile internet, can be restricted.

Privacy

- 11.13 By subscribing to Telstra Mobile Protect you consent to us sending Universal Resource Locators (URLs) that you access, or that a user of a mobile service that you have purchased Telstra Mobile Protect for accesses, to a third party who may be located overseas for the purposes of categorisation. We will remove your IP address and any personal information from such URLs first. If the URL contains your name, this may be sent to a third party (for example, www.johnsmith.com or www.facebook.com/johnsmith).
- 11.14 Our Privacy Statement sets out how we may collect, use and disclose your personal information. A copy of this statement can be obtained at telstra.com/privacystatement.

Reports

- 11.15 You can view recent activity which shows:
- (a) blocked incoming and outgoing voice calls, SMS and MMS; and
 - (b) all incoming voice calls, SMS and MMS received, and all outgoing voice calls, SMS and MMS made, which are allowed.

Part F – Managing Calls

- 11.16 You can choose to receive recent activity reports each day via email or SMS. We will not charge you an additional fee to send these reports.
