Part B – Pricing Plans – Pre Paid Pricing Plans

Certain words are used with the specific meanings set in Part A – General of the Telstra Mobile section, or in the General Terms of Our Customer Terms.

1 About this Part

- 1.1 This is part of the Telstra Mobile section of Our Customer Terms. Provisions in other parts of the Telstra Mobile section, as well as in the General Terms of Our Customer Terms, may apply.

See clause 1 of the General Terms of Our Customer Terms for more detail on how the various sections of Our Customer Terms should be read together. To see these terms – home and family customers [click here](#); business and government customers [click here](#).

See clause 1 of Part A – General of the Telstra Mobile section for more detail on how the various parts of the Telstra Mobile section should be read together. To see these terms – home and family customers [click here](#); business and government customers [click here](#).

2 Changing Our Customer Terms - pre-paid customers

This clause 2 applies to you if you are a pre-paid customer. You will be a pre-paid customer if you acquire one of the services in this Part B - Prepaid Pricing Plans of the Telstra Mobile Section of Our Customer Terms. You are not a pre-paid customer if you acquire a Calling Card or Pre-paid Phonecard. See the [Calling Cards Section](#) or the [Public Payphone Section](#) of Our Customer Terms.

Our right to change all terms

- 2.1 We can change any term of Our Customer Terms by:

- (a) getting your consent; or
- (b) complying with this clause.

The steps we have to take depend on the type of change.

Changes that benefit you or have neutral impact on you

- 2.2 If we reasonably consider that a change to any term of Our Customer Terms is likely to:

- (a) benefit you; or
- (b) have a neutral impact on you,

Part B – Pricing Plans – Pre Paid Pricing Plans

we can make the change immediately and do not need to tell you.

Some examples of changes that will benefit you are:

- a reduction in long distance call rates;
- offering additional features or free services; or
- changes that increase our obligations or introduce new rights for you.

An example of a change that will have a neutral impact on you is if we change the access number for message retrieval.

Changes that have minor detrimental impact on you

2.3 If we reasonably consider that a change to any term of Our Customer Terms is likely to have a minor detrimental impact on you, we will tell you individually at least 3 days beforehand.

Some examples of changes that we consider have minor detrimental impact on you:

- a small increase in the price of an STD call; or
- withdrawing a minor feature of the service.

Urgent changes

2.4 We consider changes that are:

- (a) required by law; or
 - (b) necessary for security reasons, to prevent fraud or for technical reasons,
- to be urgent changes.

We will try to tell affected customers three days before an urgent change to Our Customer Terms by any method we consider reasonable in the circumstances, including text message, voice recordings or public notice. Sometimes, due to the nature of the change, we may not be able to tell affected customers three days beforehand but we will give as much warning as we reasonably can.

Changing or imposing tax-based charges

2.5 We can change any term of Our Customer Terms that applies to your service to increase an existing charge or to introduce a new charge where that charge is a tax imposed by law, and if you are an affected customer, we will tell you individually at

Part B – Pricing Plans – Pre Paid Pricing Plans

least 3 days beforehand.

Changing charges for international services or international roaming services

- 2.6 We can change the charges for international services and international roaming services, and if you are an affected customer, we will tell you individually at least 3 days beforehand. The current charges for international calls, international SMS can be found at <http://www.telstra.com.au/mobile/prepaid/rates/> and <http://www.telstra.com.au/mobile/products/overseas/roamingoutbound.cfm> respectively.

Changing or imposing charges for ancillary services

- 2.7 If we increase or introduce charges for an ancillary service, and it is a type of ancillary service for which we do not offer a reasonable alternative at the same or reduced cost, we will tell you individually at least 3 days beforehand.

Changing prices for content or premium services

- 2.8 We can change the charges for content and premium services provided by us to you where those content and premium services:
- (a) are acquired by us from a third party for resale; or
 - (b) incorporate or rely upon content and premium services provided to us by third parties,

and the change is a direct result of an increase in the price from our third party supplier. If we increase these charges, we will tell affected customers at least 10 days beforehand via a text message. You will be able to elect not to use the content or premium service without attracting additional charges.

Examples of content or premium services that are provided by us to you in which we resell or incorporate content and services provided to us by third parties:

- BlueSkyFrog for Telstra;
- BigPond Mobile Services (previously known as Telstra Active or WAP).

Note: Some services provided to customers are provided under a “credit provider” model, where the third party content provider actually supplies the content directly to customers and Telstra bills the customer. In these cases the content provider sets the charges for the content.

All other changes

- 2.9 If we make a change to Our Customer Terms and the change is not of a type described in clauses 2.2 to 2.8 above, we will tell all affected customers a

Part B – Pricing Plans – Pre Paid Pricing Plans

reasonable period (but at least 30 days) before the change, so affected customers who still have credit in their service will have a reasonable opportunity to use up any pre-paid credits before the change.

Who we consider to be affected customers

- 2.10 For the purpose of this clause 2, we consider a customer to be affected by a change of a term in Our Customer Terms if that customer still has credit in the service affected by the change or is in a recharge only period in relation to that service, and we reasonably consider that the change will have more than a minor detrimental impact on the customer.

How we can tell you about the changes

- 2.11 We can tell you about changes to Our Customer Terms in relation to a pre-paid service, unless specified otherwise in this clause, by sending you a text message or providing a recorded voice announcement at the number you use to access your pre-paid service or otherwise in writing, directing you to further information about the changes (such as on telstra.com or at a Telstra Shop). In addition to this notice, we may also publish a notice in a national newspaper.

If you have a Telstra Pre-Paid Service on the GSM, 3G or Next G networks, you can also access this information by dialling #100# or #125# from your mobile. You will also receive an SMS 8 days and then 2 days before your credit expiry date is reached to remind you that your credit expiry date is about to end.
- 3.9 Your service enters a recharge only period after the credit expiry date.

Part B – Pricing Plans – Pre Paid Pricing Plans

3.10 You can change your credit expiry date by recharging your service. The way in which your credit expiry date will change upon recharge depends on the particular pre-paid promotional offer you have selected.

Credit expiry date for new activations and transfers on and from 4 November 2008

3.11 If you activated your Telstra Pre-Paid service from 4 November 2008 or transferred your service to our post 3 November 2008 pre-paid offers, and you recharge your service before your credit expiry date, your new credit expiry date will be the later of either:

- (a) the expiry date for your existing balance (before you recharged); or
- (b) the expiry date for your new recharge amount.

3.12 The expiry date for your recharge amount will vary depending on which Pre-paid offer you have selected and how much recharge credit you have purchased. Any benefit associated with a recharge amount will expire after a set amount of time (depending on your offer and recharge amount). Expiry periods are as follows:

Terms for details on each offer.

- 3.13 Any recharge credit (ie credit equivalent to the amount paid for the recharge offer) that remains on your account from a previous recharge will remain in your account when you recharge before the relevant expiry date. The expiry date for your entire account balance (excluding any offer bonus) will be re-set to the new expiry date applicable to your recharge amount. You may use this recharge credit to purchase any product or service available to your pre-paid account, except for data usage above your data allowance (ie pay as you go data). Any old recharge will expire once its expiry period has elapsed if you do not recharge your account before the credit expiry period has elapsed.

Credit expiry date for new activations and transfers prior to 4 November 2008

- 3.14 If you activated your Telstra Pre-Paid service prior to 4 November 2008 and have not transferred your service to our post-4 November 2008 pre-paid offers, and you recharge your service before your credit expiry date, your credit expiry date is extended by adding the access period applicable to your recharge amount to the current credit expiry date. This provides you with your new credit expiry date. The credit expiry date can only be extended to a maximum of 24 months from the date on which you last recharged your service.
- 3.15 You can extend your credit expiry date by the amount that you pay to recharge as follows:

Recharge amount:	Access period:
\$1 to \$10 (Credit Me2U recharges only)	Please see paragraphs 3.65 and 3.66 for details
\$20	1 month
\$30	2 months
\$50	3 months
\$60	3 months
\$100	6 months

For example, if you buy a Telstra Pre-Paid handset pack with 6 months network access, and you recharge after 1 month by purchasing and activating a \$30 recharge card, your credit expiry date will be 7 months from the date of recharge.

If you select the Long Life offer, the Telstra Pre-Paid Friends offer or the Talk & Text More offer, the network access period for recharges is different. Full details of these offers are available at

Charges for Telstra Pre-Paid iPad Mobile Broadband service in Australia on and from 28 May 2010.

- 5.21 We charge you the following rates for your Telstra Pre-Paid iPad service in Australia. Your data rate and effective allowance are determined by your most recent recharge amount.

\$10	5c	200	30 days
\$15	5c	300	30 days

Part B – Pricing Plans – Pre Paid Pricing Plans

\$20	1.9531c	1024	30 days
\$30	0.9765c	3072	30 days
\$40	0.9765c	4096	30 days
\$50	0.9765c	5120	30 days
\$60	0.9765c	6144	30 days
\$80	0.8680c	9216	30 days
\$100	0.8138c	12288	30 days
\$180	1.4648c	12288	365 days

5.24 For the avoidance of doubt, your recharge amount does not entitle you to a pre-determined volume of data. 5.25 The charges for Telstra Pre-Paid iPad service in clause 5.21 are available when the SIM card included in your starter kit is inserted in the Apple iPad device.
