Part B – Current Post-paid Plans

Certain words are used with the specific meanings set in [Part A – General of the Telstra Mobile section](#), or in [the General Terms of Our Customer Terms](#).

1 About this Part

- 1.1 This is part of the Telstra Mobile section of Our Customer Terms. Provisions in other parts of the Telstra Mobile section, as well as in the General Terms of Our Customer Terms, may apply.

2 Eligibility for various plans

- 2.1 In addition to our rights under the General Terms, you may not be eligible to apply for the offers listed below or we may disconnect you from an offer if you:
- a) charge any other person for any of the services or benefits provided to you under the offer;
 - b) enter into any agreement or understanding under which someone agrees to pay you (in cash or kind) for services or benefits provided to you under an offer; or
 - c) act as agent for any person in entering into an offer.

3 Calculating your early termination charge (ETC)

- 3.1 If you need to pay an ETC under the terms of your plan, it will be calculated according to the following formula:

$$\frac{\text{Base ETC} \times \text{number of months (or part thereof) remaining in your minimum term}}{\text{Total number of months in the minimum term}}$$

- 3.2 The Base ETC for your plan and the circumstances in which you may be required to pay an ETC are set out in the section of this part that relates to your plan.

4 Telstra Mobile Plans

For new connections on and from 1 July 2022. Bundle Plans available for new connections on and from 2 August 2022.

Eligibility

- 4.1 To be eligible for a Telstra Mobile Plan, you must be a new customer or an existing customer with a 13-digit account number.
- 4.2 If you are a business customer, you must provide us with proof of your ABN, ACN or ARBN.

Availability

Part B – Current Post-paid Plans

- 4.3 All Mobile Plans are month-to-month plans that are available until withdrawn by us. At the end of each month your Mobile Plan will automatically roll over to the next month unless you or we change or cancel the plan.
- 4.4 To connect your existing Telstra mobile service to a new Mobile Plan, you must request to be moved and connected to a new Mobile Plan. This will lead to the cancellation of your existing Telstra mobile plan. We will not charge any applicable early termination charges for your service, however you'll have to pay us any fees and remaining device repayments arising from that cancellation, in full, if an associated device cannot be upgraded or transferred across to the new Mobile Plan.
- 4.5 International Call Packs offered before 1 July 2020 are not compatible with Mobile Plans and cannot be added or brought across to your Mobile Plan.
- 4.6 To be eligible for Bundle Plans, you must have an Essential or Premium Mobile Plan. You are eligible to add on up to 5 Bundle Plans.

Device Options

- 4.7 Mobile Plans are for personal use with compatible smartphones only. Other devices including tablets or mobile broadband devices are not eligible for use with Mobile Plans and may be blocked.
- 4.8 If you take up a Mobile Plan, you may:
- a) purchase an eligible device on a Device Payment Contract (DPC). The DPC terms and conditions are set out in Part C – Special Promotions of the Telstra Mobile Section of Our Customer Terms; or
 - b) bring your own (BYO) compatible handset or purchase a Telstra Mobile Network compatible handset. For the best possible experience on the Telstra Mobile Network, use a handset that supports both 4G 1800MHz and 4G 700MHz, and 5G 3500 MHz banding. Check your device manual or manufacturer's website for more information.
- 4.9 We may choose to offer Device Payment Discounts (**DPD**) from time to time if you purchase an eligible handset on a DPC. If you purchase an eligible handset:
- a) you will receive the DPD amount as a credit towards your handset repayments each month for the term of your DPC;
 - b) we will tell you the DPD amount when you take up your eligible DPC; and
 - c) the monthly device repayments (if any) on your bill are the monthly amount you owe after the DPD amount has been applied.
- 4.10 If you cancel your Mobile Plan or your DPC, you will no longer be entitled to any DPD and you must pay the balance of any remaining device repayments in full.

Part B – Current Post-paid Plans

Accessory Repayment Option

- 4.11 You can choose to buy compatible mobile accessories with your Mobile Plan through an Accessory Repayment Option (**ARO**). If you cancel your ARO, you'll have to pay the remaining cost of the accessories in full. The ARO terms and conditions are set out in [Part C – Special Promotions of the Telstra Mobile Section of Our Customer Terms](#).

What you must pay each month

4.13 Each month you must pay us:

- the minimum monthly charge for your Mobile Plan;
- for all usage other than included allowances;
- if you have a DPC, for any handset or device repayments (taking into account any DPD amount, if eligible);
- any accessory repayments under any ARO;
- any other value added services; and
- any amounts for usage outside Australia.

Changing you to a different plan

4.14 From time to time we may make changes to your Plan or to the add-ons available with your plan (including price and inclusions), or we may move you to a new Plan (which may cost more).

4.15 If we change your Plan or move you to a new Plan, and that change has more than a minor detrimental impact on you:

- We'll give you at least 30 days' notice before making changes or automatically moving you to the closest available Plan

Part B – Current Post-paid Plans

- b) If you don't like changes or the new Plan, you can choose a new Plan or cancel your Plan on Fair Terms.

Changing or cancelling your plan

- 4.16 You can change to a different available Mobile Plan once a month. If you change your plan, then you'll immediately be moved to the new plan, and at the end of the month, you'll be billed a pro-rated amount based on how much time you spent on each plan.

Example: If you joined Telstra on the Basic Mobile Plan on 1 July 2022, and then increase your plan to the Essential Mobile Plan on 10 July 2022, you'll immediately be moved on to the Essential Mobile Plan on 10 July 2022 and enjoy benefits such as an increase from 40 to 180GB of data. At the end of that month (31 July 2022), you'll be billed at a pro rata rate for 10 days of the Basic Mobile Plan and 21 days of the Essential Mobile Plan amount, and after that your next monthly bill will be for the Essential Mobile Plan amount if you don't change again

- 4.17 You can cancel your plan at any time without incurring any early termination charges for the service. However, you'll need to pay:
- a) a pro-rated amount for your last billing period based on when you cancel your plan; and
 - b) if you've taken up a DPC or ARO associated with that plan, the balance of all remaining repayments in full.
- 4.18 If you cancel or change your Essential or Premium Mobile plan you will no longer be eligible for Bundle Plans and existing Mobile Bundle Plans or Data Bundle Plans will be moved to the nearest in-market plans. We'll be in touch to let you know about these changes.

Standard and Non-Standard Calls and Messages

- 4.19 With your Mobile Plan all Standard Calls and Messages are included in your minimum monthly charge. However, in addition to your minimum monthly charge, you must pay for Non-Standard Calls and Messages as set out in [Part D – Other Call Types of the Telstra Mobile section of our Customer Terms](#).

Standard Calls and Messages	Non-standard Calls and Messages

No International Calls and SMS Allowance (from Australia)

4.20 Mobile Plans do not include any allowance for international calls, SMS or MMS while you are in Australia. If you make any international calls or send international SMS or MMS while you are in Australia, you can:

- a) purchase an International Call and SMS Pack for unlimited standard international calls or SMS to eligible countries (you will be charged extra for all non-standard international calls or SMS and all international calls or SMS outside eligible countries); or
- b) pay standard Pay-as-You-Go (PAYG) rates for all international calls, SMS or MMS.

International Roaming

4.21 International roaming is automatically activated on Mobile Plans (unless you're recontracting with your existing number or have chosen to opt to bar international roaming for that mobile service). Standard international roaming rates apply. You can disable International Roaming in the My Telstra app, or by calling us between 8am-7pm AEST Monday to Friday on 125 109 from within Australia or +61 439 125 109 outside of Australia free of charge from your Telstra service. See [Part I – Heading Overseas \(International Roaming\) of the Telstra Mobile Section of Our Customer Terms](#).

Part B – Current Post-paid Plans

International Roaming Day Pass

- 4.22 All Mobile Plans have an International Day Pass activated, which for an additional charge per day lets you make and receive unlimited standard voice calls and SMS and includes 1GB data for use each day (AEST) when travelling in Eligible Roaming Destinations. If you use more than your included data allowance on your International Day Pass, we'll automatically add extra data to your service in blocks of 1GB for \$10 valid for 31 days. You can disable International Day Pass in the My Telstra app (charges may apply outside of Australia), or by calling us between 8am-7pm AEST Monday to Friday on 125 109 from within Australia or +61 439 125 109 outside of Australia free of charge from your Telstra service. If you disable International Day Pass without disabling International Roaming, you may be subject to standard international roaming SMS and MMS rates and mobile data at \$3 per MB (charged per KB or part). For more information refer to [Part I – Heading Overseas \(International Roaming\) of the Telstra Mobile Section of Our Customer Terms](#).
- 4.23 Standard international roaming calls, SMS and MMS rates and mobile data at \$3 per MB (charged per KB or part) applies where you:
- a) use your mobile outside of Eligible Roaming Destinations; or
 - b) choose to opt out of your International Day Pass.

Monthly Mobile Data Allowance

- 4.24 Each Mobile Plan has a non-shareable monthly data allowance for use within Australia. Any unused monthly data allowance expires at the end of each billing month. You'll receive notifications of your data usage at approximately 50%, 85% and 100% of your data allowance to help you make the most of your data allowance. You can also check how much data you've used via the My Telstra app, MyAccount, and the Mobile Data Usage Meter.
- 4.25 Your Monthly Mobile Data Allowance cannot be shared with the data allowances of services on the same account as your Mobile Plans.
- 4.26 Your Monthly Mobile Data Allowance can only be used in Australia and cannot be used for sending SMS or MMS to international numbers. If you send SMS or MMS to international numbers or if you use your services overseas, additional charges will apply.
- 4.27 If you use more than your monthly data allowance in a month, you will not be charged extra for use of data within Australia and will continue to receive additional data with speeds capped at 1.5Mbps for the rest of the month until your next billing period. This is not suitable for HD video or high-speed applications, and means that some webpages, video/social media content and may take longer to load. You can still use your device to tether or create a wireless hotspot for other devices, but your speeds may be slowed further. We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.
- 4.28 If you have exceeded your monthly data allowance, you can increase your plan (once per

Part B – Current Post-paid Plans

month) to increase your monthly data allowance. See clause 4.16 on how to change your plan.

4.29 When calculating mobile data volumes:

- a) if the volume of data transferred is not a whole number of kilobytes, it is rounded up to the next kilobyte at the earlier of the end of each session or 24 hours; and
- b) 1024 bytes = 1 kilobyte (KB) and 1024 kilobytes = 1 megabyte (MB) and 1024 MB = 1 gigabyte (GB).

FairPlay Policy

4.30 Our FairPlay Policy (set out in the [General Terms for Consumer Customers](#)) applies to your Mobile Plan.

4.31 You must comply with our FairPlay Policy and not use your service in an unacceptable, unreasonable or fraudulent manner, or in a way that detrimentally interferes with the integrity of, or causes significant congestion to, the network. We may take action if you breach the FairPlay Policy, including suspending or cancelling your service.

Electronic Billing and Payment

4.32 Your Mobile Plan requires electronic payment. A \$1.00 fee will apply each month in arrears if you make a bill payment in person or via mail.

4.33 Exemptions from these fees are available for:

- a) Telstra Pensioner Discount customers;
- b) Telstra Disability Equipment Program customers, including those receiving a Braille or Large Print Bill;
- c) Australian Government Health Care Card Holder customers; and
- d) customers who do not have an email address or internet access.

4.34 **Paperless Bill:** You may receive an Email Bill or you can view your bill online via MyAccount on telstra.com. The terms and conditions for Email Bill and Online Billing are set out in the General Terms for Consumer Customers section of Our Customer Terms.

4.35 **Electronic Payment:**

For new connections and existing services changing to these plans from 27 October 2020

4.36 You must pay your account via direct debit when connecting a new service on, or changing an existing service to one of the plans outlined in this section. If you are not already registered with direct debit, you will be required to do so as a condition of the

Part B – Current Post-paid Plans

plan. Direct debit applies to the entirety of your billing account – if other services are on the same billing account they will also be paid via direct debit.

Some exceptions may apply depending on your circumstances such as:

- a) Customers with a Centrelink payment arrangement, Telstra Bill Assistance Certificate
- b) No access to a Bank Account or Credit/Debit card.

For new connections and existing services changing to these plans prior to 27 October 2020

- 4.37 You may pay your bill via Direct Debit, BPAY®, telstra.com, over the phone or via a Centrelink Payment or Telstra Bill Assistance Certificate. (A payment processing fee applies for credit card payments. Refer to your bill for the amount of the fee)

Important Satellite Messaging information

- 4.38 In the event that your device is unable to connect to the Telstra Mobile Network, you may be able to send and receive an SMS via satellite in Australia, when enabled by us on your Telstra Mobile Plan, and provided you have a compatible device with the latest operating system.
- 4.39 Satellite Messaging is available from most outdoor areas in mainland Australia and Tasmania and with direct line of sight to the sky, excluding the Australian Radio Quiet Zone in Western Australia and remote offshore territories and islands of Australia. Do not go outside to use Satellite Messaging if conditions are not safe for you to do so.
- 4.40 Satellite Messaging requires:
- your Telstra Mobile Plan to be enabled for Satellite Messaging;
 - an eligible Mobile Plan with Satellite Messaging included (check the Critical Information Summary of your Mobile Plan to confirm);
 - a compatible device with the latest software uploaded (see < <https://www.telstra.com.au/coverage-networks/mobile-technology/satellite-to-mobile> for relevant page which will keep an updated list of compatible devices);
 - you to be located outdoors within the satellite network coverage area with a clear line of sight to the sky; and
 - the Telstra Mobile Network to be unavailable.
- 4.41 Do not rely on Satellite Messaging for help in an emergency, including because Satellite Messaging:
- cannot be used to access emergency services, including 000;

Part B – Current Post-paid Plans

- is not suitable for telling or warning people about serious risks or asking emergency services to come to someone's aid; and
- does not support one-way messaging such as emergency broadband messaging.

4.42 Availability of Satellite Messaging is not guaranteed.

- a) Satellite Messaging relies on a third party satellite network and is subject to the availability of satellites on that network.
- b) Satellites do not provide continuous coverage and your ability to access and use Satellite Messaging depends on a range of factors, such as your device, your location, the conditions/environments in which it is being used and the location of satellites.
- c) Satellite Messaging has not been tested for use in all conditions and locations. The suitability and performance of Satellite Messaging may depend on the environment and conditions in which it is used.
- d) While we will take reasonable steps to deliver SMS using the Satellite Messaging service, an SMS may not be delivered from time to time for various reasons, including technological difficulties, the recipient's device being unable to receive the SMS (including because it is not working properly, is switched off, out of range or the message storage space is full), the destination number is invalid or barred to SMS, or extreme weather events.

4.43 To use Satellite Messaging, some other services or service features (ours or third parties) may need to be disabled by us or a third party. You acknowledge that these impacted services, or service features, will not be available and that we are not liable for their unavailability.

4.44 Satellite Messaging can only be used to send and receive SMS to standard Australian and international numbers. Satellite Messaging uses a satellite network and your experience in sending and receiving an SMS is likely to be different to your experience sending and receiving an SMS using a mobile network. Some SMS may take minutes or longer to send and receive, depending on location, device and availability of satellites.

4.45 Satellite Message cannot be used to:

- a) access emergency services, including 000;
- b) receive one-way messages (such as emergency broadcast messages);
- c) send or receive MMS;
- d) send or receive instant messages that require the internet such as WhatsApp;
- e) make or receive video or voice calls;

Part B – Current Post-paid Plans

- f) access data; or
 - g) send or receive SMS while overseas.
- 4.46 We may need to actively manage the satellite network capacity when we reasonably determine the circumstances require it (for example, to ensure service availability for those we determine require priority or to maximise access for a majority of users). This may mean we need to de-prioritise your use of the Satellite Messaging service or block access. Telstra's Fair Use Policy also applies.

International Roaming

This is not suitable for HD video or high-speed applications, and means that some webpages, video/social media content and may take longer to load. You can still use your device to tether or create a wireless hotspot for other devices, but your speeds may be slowed further. We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.
- 5.18 Any unused Monthly Mobile Data Allowance will expire at the end of each billing month.
- 5.19 When calculating mobile data volumes:
- a) if the volume of data transferred is not a whole number of kilobytes, it is rounded up to the next kilobyte at the earlier of the end of each session or 24 hours; and
 - b) 1024 bytes = 1 kilobyte (KB) and 1024 kilobytes = 1 megabyte (MB) and 1024 MB = 1 gigabyte (GB).
