Information about the service

Your plan is a Bundle which includes:

- a home phone service
- Telstra home broadband for your internet service.

The details of these are set out in the table above.

Minimum term

Month-by-month or 24-months

Service availability

Service not available to all areas, homes or customers.

While we perform preliminary qualification checks upfront for broadband service availability, the type of service offered (the nbn™ network, ADSL, ADSL2+, Cable & Velocity) may be subject to further qualification checks to determine what is available at your location.

If we are unable to connect all your Bundle services, we will attempt to contact you to discuss further options first or will place your connected services on the lowest-priced plan(s) if we can't contact you after making reasonable attempts. If this occurs, you will be notified and you may cancel your order free of charge.

Broadband speeds

Broadband speeds vary due to quite a number of factors, including:

- type of technology available at your address
- any Speed Boost you may have purchased
- network capacity
- set up at your home (such as location of your modem and how the internet is used in your home)
- whether your device is connected by Wi-Fi rather than Ethernet cable
- if you're a Telstra Air member and using your broadband services at the same time.

Typical nbn Fixed Wireless speeds will be lower than other nbn access types. For information on broadband types and the speeds available please visit telstra.com/nbn-speeds.

This plan includes Standard Plus Evening Speed for nbn customers (excluding Fixed Wireless customers who will receive Standard Evening Speed).

Customers on the nbn network may take up a Premium Evening Speed Speed Boost for \$30/mth (excluding nbn Fixed Wireless). For FTTN/FTTB services, actual speeds and Speed Boost eligibility will be confirmed following activation.

For Cable and Velocity customers, a Premium Evening Speed Speed Boost is also available for \$20/mth.

Your bill will show an additional charge each month for your speed upgrade. If you already have a Speed Boost then you will continue to receive your Speed Boost and be charged for it each month unless you cancel it.

Telstra Air®

If a Home Network Gateway is included in your Bundle, Telstra Air membership is included on compatible broadband services. If a Home Network Gateway is not included with your Bundle, you can join Telstra Air but you may need to buy a compatible gateway. For details visit telstra.com/joinair

Telstra Broadband Protect

You are entitled to receive a full discount off the standard monthly charge while you remain on this Bundle and otherwise the standard terms for this service apply. See the Telstra Broadband Protect Critical Information Summary for further information.

Mobile Bundle Bonus

You'll receive the Mobile Bundle Bonus on up to four eligible mobiles on the same Single Bill as your Bundle. It includes a \$50 additional allowance for calls, MMS and SMS to standard Australian numbers per month on your eligible mobile service. Excludes use overseas. Unused allowance expires each month. For a full list of mobile plans eligible for the Mobile Bundle Bonus please see telstra.com.au/bundlebonus

Moving to the nbn network

Your 24 month contract could overlap with the rollout of the nbn network. If you wish to transfer to Telstra on the nbn network, please contact us. If you don't wish to, we'll continue to provide your service up until the date on which we're required by law to disconnect your services. No ETC will be charged in these circumstances.

If you cancel your Bundle or any Hardware Repayment Option early, you'll need to pay any remaining hardware payments.
