- Foxtel from Telstra.

The details of these are set out in the table above.

### Minimum term

### Service availability

Service not available to all areas, homes or customers.

While we perform preliminary qualification checks upfront for broadband service availability, the type of service offered (nbn™ network, ADSL, ADSL2+, Cable & Velocity) may be subject to further qualification checks to determine what is available at your location.

If we are unable to connect all your plan services, we will attempt to contact you to discuss further options first or will place your connected services on the lowest-priced plan(s) if we can't contact you after making reasonable attempts. If this occurs, you will be notified and you may cancel your order free of charge.

A Very Fast Speed Boost is available for an additional \$20 per month on nbn or a Super Fast Speed Boost for an additional \$20 per month for Cable or \$30 per month on nbn (except on nbn Fixed Wireless).
