## INFORMATION ABOUT THE SERVICE

ARISapp is a Mobile Business App. Mobile Business Apps are a range of applications designed to increase business productivity and can be accessed on compatible mobile handsets and tablets with an internet connection (**Compatible Devices**). You can purchase Mobile Business Apps licences from Telstra's T-Suite® web-based portal.

ARISapp is a subscription service which helps you build, manage and monitor your team's financial and non-financial performance. You can designate program groups, set up challenges, initiate approvals, automate responses and track team and individual results via your computer or Compatible Device.

### T-Suite

The T-Suite web-based portal enables you to purchase and manage various software applications that we make available from time to time.

You need to meet minimum system requirements to use certain T-Suite software applications, which will be set out on [telstra.com/t-suite](http://telstra.com/t-suite) and Our Customer Terms. You're responsible for ensuring that you meet these requirements.

### Minimum term

### What's not

To access ARISapp, each user will need to download the ARISapp from their Compatible Device's application store. Data charges will apply.

In order to integrate ARISapp with back-end systems, your system environment must be properly configured and you may need to make changes to your system set-up. You are responsible for the configuration of your system environment and this is not included in your monthly licence fee. If you require system integration, before purchasing licences for ARISapp, please contact us to discuss your specific business needs.

### Other important information

Each licence can be used on one Compatible Device. If a user wants to access ARISapp on several Compatible Devices, additional licences will be required.
