

ISDN on BusinessLine® Part

Information about the service

The Integrated Services Digital Network (ISDN) is a digital network technology that can carry voice and data services in a digital format over the public switched telephone network. Your plan sets out the pricing that applies when you make and receive calls on your ISDN Service.

Telstra offers two types of Basic Rate services – ISDN 2 or ISDN 2 Enhanced, and one Primary Rate service, ISDN 10/20/30.

Availability

You can get an ISDN Basic Rate service if your local exchange has the technical capacity to provide the service and your premises are not so far from the exchange that transmission losses are above levels we consider acceptable. There also needs to be enough local cable available.

Our BusinessLine Part plan for ISDN is only available for ISDN 2. It is not available for ISDN 10/20/30 or ISDN 2 Enhanced.

You do not have to pre-select us for long distance, international calls and calls to mobiles.

Minimum term

3 months.

ISDN Cease Sale and Intention to Exit Notification

We are ceasing the sale of ISDN to all customers effective 30 June 2018. Customers can still make configuration, software and record changes to their existing services. Disconnections will occur from 30 September 2019. The final exit date for ISDN will occur by 2022 and we shall communicate the date in due course. Further information can be found at telstra.com/specialservices

Information about pricing

Connection charges

The following charges apply to connect your ISDN service.

Connection charges	Charge
Each new connection of any ISDN 2 service (one service)	\$420
For the second and subsequent services connected at the same time as the first (per service)	\$360
Each in-place connection of ISDN 2 or ISDN 2 Enhanced (one service)	\$140

Conversion charges

Conversion charges	Charge
From a Basic Telephone Service to ISDN 2 or ISDN 2 Enhanced (one service)	\$250
From a Basic Telephone Service with Indial to ISDN 2 Direct Indial (one service)	\$250
Between ISDN 2 Direct Indial and ISDN with Multiple Number (one service)	\$250

Minimum cost

Your minimum cost will be the combined monthly charge for the services you use on your ISDN service plus connection charges.

Early Termination Charges

If your plan is cancelled before your minimum term has ended, you'll need to pay us an Early Termination Charge (ETC). The ETC decreases by equal instalments each month that you remain on your plan.

The maximum ETC you'll pay is an amount equal to the service charges that would have been payable until the end of the minimum term.

ACT customers

If your telephone line is at an address within the ACT Government area including the Jervis Bay area of NSW, you may be charged an ACT Government Utilities Tax Charge in addition to the Minimum Monthly Charge. We charge this annually based on the number of services you have in the ACT Government area.

Other charges

If one of our suppliers raises its prices in the future, this may result in the cost of your service increasing. We'll let you know before this happens.

Other information

Billing

On the same day of each month you'll be billed in advance for the Minimum Monthly Charge and for use during the month. Your first bill will include a proportion of your minimum monthly charge, as well as the next month's full minimum monthly charge in advance.

Register for Online Bill to view your bills online 24 hours a day, 7 days a week. To opt into receiving paperless billing, visit telstra.com/emailbill to request an email bill and/or set up direct debit. For more information on other bill payment options, go to telstra.com/billpay

Connection timeframe

Once we've accepted your application we'll try to connect your phone service on the date you ask for but this might not always be possible.

Transferring to the nbn™ network

If the nbn network comes to your area and you wish to transfer to the nbn network with Telstra, we'll take responsibility for managing your transfer to this new network. To do this, we'll need your agreement and help to access your premises, and we'll talk with you about installation requirements. We'll work with you to make this as simple as possible.

If you don't want to transfer to the nbn network, we'll continue to provide your service up until we're required to disconnect it as part of the migration to the nbn network. At this time we will cancel your services and no ETC will be charged. We'll let you know the details before any changes happen.
