Information about the service

Your plan is a Bundle which includes:

- a home phone service
- Telstra home broadband for your internet service.

Minimum term

Month-by-month or 24 months

Service availability

Service not available to all areas, homes or customers. While we perform preliminary qualification checks upfront for broadband service availability, the type of service offered (the nbn™ network, ADSL, ADSL2+, Cable & Velocity) may be subject to further qualification checks to determine what's available at your location.

If we can't connect all your Bundle services, we'll try to contact you to discuss further options. If we can't contact you, we'll put your connected services on the lowest-priced plan(s). We'll let you know if this happens and you may cancel your order free of charge.

Broadband speeds

Broadband speeds vary due to quite a number of factors, including:

- type of technology available at your address
- any Speed Boost you may have purchased
- network capacity
- set up at your home (such as location of modem and how the internet is used in your home)
- whether your device is connected by WiFi rather than Ethernet cable
- if you're a Telstra Air member and using your broadband services at the same time.

This plan includes Standard Evening Speed for nbn and Velocity customers. This provides typical minimum speeds between 7pm-11pm of at least 15Mbps.

The following Speed Boosts are available on the nbn network:

Speed Boost	Typical minimum speeds between 7pm-11pm	\$
Standard Plus Evening Speed	30Mbps	\$20/mth
Premium Evening Speed (excludes nbn Fixed Wireless)	60Mbps	\$30/mth

For FTTN/FTTB services, actual speeds and Speed Boost eligibility will be confirmed following activation.

For Cable and Velocity customers, a Premium Evening Speed boost is also available for \$20/mth.

Your bill will show an additional charge each month for your speed upgrade. If you already have a Speed Boost then you will continue to receive your Speed Boost and be charged for it each month unless you cancel it.

If you exceed your monthly data allowance your broadband speed will slow to 256kbps until the next month. For information on broadband types and the speeds available please visit telstra.com/nbn-speeds
