## Information about the service

Your plan includes:

- a home phone service
- a home internet service.

### Minimum term

Month-by-month or 24 months

### Service availability

Service not available to all areas, homes or customers.

The type of service offered (the nbn™ network, ADSL, ADSL2+, Cable & Velocity) may be subject to further qualification checks to determine what's available at your location.

If we can't connect all your Bundle services, we'll try to contact you to discuss further options. If we can't contact you, we'll put your connected services on the lowest-priced plan(s). We'll let you know if this happens and you may cancel your order free of charge.

### Broadband speeds

Broadband speeds vary due to quite a number of factors, including:

- type of technology available at your address
- any Speed Boost you may have purchased
- network capacity
- set up at your home (such as location of your modem and how the internet is used in your home)
- whether your device is connected by Wi-Fi rather than Ethernet cable
- if you're a Telstra Air member and using your broadband services at the same time.

For information on the nbn network broadband types and the speeds available please visit [telstra.com/nbn-speeds](http://telstra.com/nbn-speeds)

This plan includes Standard Evening Speed for the nbn network and Velocity customers.

This provides typical minimum speeds between 7pm-11pm of at least 15Mbps. Typical nbn Fixed Wireless speeds will be lower.

The following Speed Boosts are available on the nbn network:

Speed Boost	Typical minimum speeds between 7pm-11pm	Price
<b>Standard Plus Evening Speed</b>	30Mbps	\$20/mth
<b>Premium Evening Speed</b> (excludes nbn Fixed Wireless)	60Mbps	\$30/mth

For FTTN/FTTB services, actual speeds and Speed Boost eligibility will be confirmed following activation. For Cable and Velocity customers, a Premium Evening Speed Boost is also available for \$20/mth.

Your bill will show an additional charge each month for your speed upgrade. If you already have a Speed Boost then you will continue to receive your Speed Boost and be charged for it each month unless you cancel it.

If you exceed your monthly data allowance your broadband speed will slow to 256kbps until the next month.

### Telstra Air®

Telstra Air membership is included as part of your Bundle if you have an eligible service type and Gateway. It allows you to access free Wi-Fi at over 1 million hotspots in Australia and millions of Fon spots overseas. For details visit [telstra.com/air](http://telstra.com/air)
