Connection timeframes

Once we've accepted your application, we'll try to connect your home phone service on the date you ask for, but this might not always be possible.

If there has been a previous working home phone service at your property and we can reconnect it without having to visit your property, the local telephone exchange or anywhere in between, then we aim to connect the service within 2 working days of your request. If this isn't possible, then we aim to connect your service within 5 to 15 working days, depending on your location.

If you or someone living in your home has a diagnosed life threatening medical condition and your life may be at risk without access to a home phone service, you can request to be a Priority Assistance customer. We aim to connect Priority Assistance customer's home phone service within 24 hours of being asked in urban and rural areas, or within 48 hours in remote areas.
