Information about the service

Your Data Share SIM plan (Plan) is for a mobile data sharing service. Your Data Share SIM allows you to access mobile data by sharing with other eligible services on the same account.

BYO device

You can bring your own (BYO) Telstra Mobile Network compatible tablet when you take up this Plan. Be sure to check that your device supports 3G-850MHz and both 4G 1800MHz and 4G 700MHz banding, to ensure you get the best possible experience on the Telstra Mobile Network. Check your device manual or manufacturer's website.

Device Payment Contract

You may purchase a tablet to use with your Plan and pay off that device over 12 or 24 interest-free monthly payments with a Device Payment Contract.

If your Plan and your Device Payment Contract have the same start date and your Device Payment Contract has a 24-month term, you may receive a monthly credit towards your Plan.

If you cancel your Plan or Device Payment Contract before the end of your Device Payment Contract term, you won't be eligible for the credit and you'll need to pay the balance of any remaining device repayments.

Minimum term

Month-to-month – you can cancel your Plan at any time but if you cancel you will have to pay any charges up to the point of cancellation.

If you have a Device Payment Contract, you can move to a higher Data Share SIM plan, but you cannot move to a lower Data Share SIM plan than your original Plan. If you choose to move to a Data Share SIM plan lower than your original Plan or you cancel your Plan before the end of your Device Payment Contract, the remaining device payments will be higher as you'll no longer receive a discount to offset your device cost.

Information about pricing

Your minimum monthly charge

\$35 – this monthly charge is an access fee only. It doesn't include any call, SMS or MMS. Your monthly charges for this Plan are billed according to your billing cycle.

Mobile Data charges

This Plan draws on mobile data from Eligible Data Share Services. Mobile Data charges are based on how much mobile data you use accessing email, some mobile apps and mobile internet. To understand how much data you might need, go to telstra.com.au/postpaid-data-calculator

Extra Data

If you use more than your account's shared Monthly Mobile Data allowance, we will automatically add extra data to your Plan in 1GB blocks charged at \$10 per block (even if you only use part of that block) (Extra Data). The Extra Data is for use in Australia and will expire at the end of your billing month. Your Extra Data will be shared with all Eligible Data Share Services on your account.

Other information

Billing

The figures in this Critical Information Summary are for a full billing cycle but your first bill may include pro rata charges for part of the month if you started or changed your Plan part way through a billing period – refer to the 'Important information about your first bill' section below for more information.

Important information about your first bill

When you first start a Plan or change your Plan part way through a billing period, your first bill will have additional charges. You'll still receive a full month's call and data allowance.

This Plan requires paperless billing and electronic payment. A **\$2.20** charge will be applied a month in arrears if you receive a paper bill; and a **\$1.00** charge will be applied a month in arrears if you make a bill payment in person or via mail. Some exemptions may apply. Visit telstra.com/emailbill to request an email bill and/or set up direct debit. For more information on other bill payment options, go to telstra.com/billpay
