## Using your service overseas

Your new Mobile services have International Roaming already activated (unless you're recontracting with your existing number, or have chosen to opt out). The cost of using your service overseas is higher than in Australia. Your monthly Plan allowance does not include use while you're overseas, so you will be charged separately for this usage.

Here are the main charges that apply:

- **calls and SMS while overseas** – our International Roaming charges can be found at [telstra.com.au/mobile-phones/international-roaming/availability-pricing](https://telstra.com.au/mobile-phones/international-roaming/availability-pricing)
- **mobile data while overseas** – **\$3** per MB (charged per KB or part thereof).

When you arrive in an overseas country, you will receive SMS alerts about International Roaming if your device is capable of receiving SMS. These alerts will notify you of pricing information (including services that may not incur a charge when you are in Australia) as well as how to stop roaming while you are overseas.

You can also use our spend management tools to help you monitor your international roaming usage. For more information, including how to register for these tools, visit [telstra.com/manageirusage](https://telstra.com/manageirusage)

If you would like to de-activate international roaming, please call us on 12 5109.
