### IMPORTANT SAFETY INSTRUCTIONS

**For Your Safety**

Do not use the telephone during an electrical storm as it is possible to get a shock. Refer to the Telstra White Pages directory for further information.

### RENTAL TERMS AND CONDITIONS

Your rental telephone is subject to the terms and conditions set out in Part A - General of the Basic Telephone Service Section of Our Customer Terms, which is available for inspection at most Telstra shops or at [www.telstra.com.au/customerterms/index.htm](http://www.telstra.com.au/customerterms/index.htm).

### RENTAL TELEPHONE FAULTS

For any service difficulties and faults call **13 2203** for Residential or **13 2255** for Small Business customers or check the Telstra White Pages directory for further contact numbers.

### TELSTRA TEXT MESSAGING (SMS) SERVICE

Call **0198339999** and follow voice prompts for information on how to use your Telstra text messaging (SMS) feature.

### CARE OF THE TELEPHONE

- Avoid hard knocks and do not drop the telephone.
- Keep the telephone away from heaters.
- Clean the telephone surface with a damp cloth. Do not use detergents or immerse the telephone in water.
- The performance of the telephone may be affected by electro-magnetic interference if placed near radio transmitters, diathermy machines, welding machines etc.

GETTING STARTED

When you unpack the telephone you will need to ensure the cords are placed in the slots provided in the base as shown in the diagram below. When you connect the telephone to a line, the display will show the power pack icon. Lift the handset to ensure the telephone is powered up, will ring correctly and is ready to use.

Repeat this step whenever the telephone has been disconnected from the line.

Desk/Wall Mounting Your Telstra T1000C

Wall mounting diagram

An additional line socket is located at the rear of the phone to allow for connection of other ACA approved equipment, e.g. an answering machine, extension ringer or modem.

Visual Message Waiting Power Pack socket is located at the rear. An adjustable handset hook can be set in position for wall mounting by rotating the dial on the rear left side of the phone.

Press \(\uparrow\) and follow the message service prompts.

Note: Your PIN is not required for Telstra Home Messages 101.
Note: Your PIN number will only be visible when entering.

To change your number to access other messaging services

Press \(\uparrow\) then \(\downarrow\) then \(\uparrow\) to change your access number.

Visual Message Waiting Indication (VMWI)

The T1000C is designed to provide Visual Message Waiting (a flashing red indicator) when you connect the T1000C Power Pack. To purchase the T1000C Power Pack and arrange the connection to the VMWI service, simply call Telstra on 13 2200. When a message is left in your MessageBank service, a signal is sent to your telephone and the red indicator will flash and the word “VOICE MESSAGE” will be displayed. The red indicator will stop flashing a short time after you have listened to all your messages.

3. Monthly charges apply for MessageBank. Message retrieval is free from Telstra fixed phones anywhere in Australia. Retrieval charges apply from mobiles, payphones and for calls using a Telstra Telecard®.
Installing the Visual Message Waiting Indication Feature
When you purchase the T1000C Power Pack, follow the instructions provided and plug the unit into the special socket labelled “POWER” located at the rear of the telephone.
Note: Telstra Home Messages 101 and MessageBank can interfere with the operation of some personal alarm devices used to contact emergency services. If you use a personal alarm please consult the provider of your service before activating Home Messages 101 on your telephone.

On-hook features without power adaptor
The following functions can be performed without lifting the handset:
• You can pre-dial a number on the display, and then dial it by simply lifting the handset.
• Adjust the phone settings (except the earpiece volume).
• View the Callers List.
• View the Memory List.
• View the text message list.
• Compose and send a text message.
• Delete an entry in the Callers List or Memory List.
• Add numbers and names to Memory.
Note: Press \ to clear the display.

Additional features when the Power Pack is connected:
• Light flashes with ring and when there are unviewed text messages.
• A key tone sounds for each valid key pressed.

HOW TO USE YOUR TELSTRA T1000C TELEPHONE FEATURES (available in most areas)

To turn on Call Waiting
This feature enables you to answer a second call while you are on the phone.
1. Press \ to swap between callers.

To cancel Call Back

- Press -KV, KMU, -KV, KMU

Using Telstra Feature Assistant

If your fixed home phone is with Telstra you can ‘tell’ your phone to turn Call Waiting or Call Forward on or off, check their status, or listen to information on other Telstra features. The Telstra Voice Assistant button dials 1# for you.

Telstra Text Messaging (SMS)

Your Telstra T1000C SMS can send text messages to and receive text messages from compatible mobile telephones and compatible fixed line telephones in Australia.

Important: Text message functionality available to eligible Telstra and Telstra reseller customers with text capable phones such as this T1000C. Telstra expects the fixed line text messaging functionality will become more widely available at a later stage and all other customers wishing to use this function should confirm its availability with their service provider.

How to register to Telstra’s text messaging service

Registration is automatically done when you send or receive your first text message from your Telstra T1000C SMS Phone. When registration occurs, the system will send you a text message welcoming you to the service and confirming your registration.

Calling Line Identification and text messaging

In accordance with worldwide standards for text messaging, all messages (including reply messages) will display the telephone number of the sender. If you have a Silent Line or have blocked Calling Line Identification and attempt to send a message, your message will be rejected.

To alter your service so that you can send text messages, call the Telstra Fixed Phone SMS service on 0198339999 and use the setup menu to turn off Silent Line or Calling Line Identification blocking for text messaging ONLY.

Note: For information on how to use your Telstra text messaging service call 0198339999 and follow the voice prompts.

Sending of text messages

The text message service will make repeated attempts to deliver a message if your line is busy or otherwise unavailable. Undelivered text messages will be stored for a maximum of 7 days. After 7 days the message will be deleted from the server.

To compose and send text messages

With text messaging you can send and receive text messages up to 160 characters long. You can type in messages using the letters on the keypad as normal. Some special Key Characters are included on the following keys:

1. Press - to display shows “SEND NEW SMS”.
2. Press - to display shows “ENTER MESSAGE”.
3. Use the letter keys to enter the text message.
4. Press - to select. Display shows “ENTER NUMBER”.
5. Enter the telephone number including area code, or press - or - and scroll to required number and press - to select.
6. Press - to display shows “SEND SMS?”.
7. Press - to display shows “SENDING”.

Note: To edit the text message, press - . Display shows “EDIT SMS?” . Press - and enter revised text. Then press - . Display shows “SEND SMS?”.

Sending of text messages

 undelivered text messages will be stored for a maximum of 7 days. After 7 days the message will be deleted from the server.

To compose and send text messages

With text messaging you can send and receive text messages up to 160 characters long. You can type in messages using the letters on the keypad as normal. Some special Key Characters are included on the following keys:

1. Press - to display shows “SEND NEW SMS”.

Note: Display shows “SENT TO #” when text message is sent.

Applicable call costs and usage charges apply. Available most areas.

Available to most customers who are directly billed by Telstra for access and local calls.

Applicable call costs apply for forwarded calls. Calls can be forwarded to most numbers in Australia.

Charges apply for each message sent even if not received.

Charges apply for each message sent even if not received.
Receiving text messages

Your T1000C SMS can store up to 25 incoming text messages. When the memory is full, the phone will display "SMS LIST FULL". When you receive a text message you will hear a short ring and the display will show "*SMS". If you have connected the T1000C Power Pack the light will be flashing.

To view received text messages

When you receive a text message the display will show "*SMS"
1. Press \( \text{VIEW} \) Display shows "VIEW RECEIVED MESSAGES".
2. Press \( \text{VIEW} \) Display shows the 1st message phone number and the 1st line of the message.
3. Press \( \text{VIEW} \) to scroll through all received messages.
4. Press \( \text{VIEW} \) to select a message and press \( \text{VIEW} \) or \( \text{VIEW} \) to read the full message and to see the date and time of the message.
5. Press \( \text{VIEW} \) to return to the received messages list.

To reply to a text message

1. While viewing a selected received text message, press \( \text{VIEW} \) Display shows "REPLY?".
2. Press \( \text{VIEW} \) Display shows "ENTER MESSAGE". Enter your text message using letters on keypad.
3. Press \( \text{VIEW} \) Display shows "SEND SMS?".
4. Press \( \text{VIEW} \) again to return to standby mode or press \( \text{VIEW} \) or \( \text{VIEW} \) to view other received text messages.

To forward a text message

1. While viewing a selected received text message, press \( \text{VIEW} \) and scroll to "FORWARD SMS?" using \( \text{VIEW} \).
2. Press \( \text{VIEW} \) Display shows "ENTER NUMBER".
3. Enter telephone number including area code, or press \( \text{VIEW} \) or \( \text{VIEW} \) and scroll to required number and press \( \text{VIEW} \) to select.
4. Press \( \text{VIEW} \) Display shows "SEND SMS?".
5. Press \( \text{VIEW} \) to "SENDING".
6. Note: Display shows "SENT TO #" when text message is sent.

To call the sender of a text message

While viewing a selected received text message, press \( \text{VIEW} \) and scroll to "CALL?" using \( \text{VIEW} \). Press \( \text{VIEW} \) Display shows telephone number; then lift handset to call.

To store the sender's telephone number in memory while viewing a received text message:

1. Press \( \text{VIEW} \) then \( \text{VIEW} \) until display shows "VIEW RECEIVED MESSAGES".
2. Press \( \text{VIEW} \) then \( \text{VIEW} \) to select text message number.
3. Press \( \text{VIEW} \) to enter name using letters on keypad.
4. Press \( \text{VIEW} \) to save name and number in memory.
5. Press \( \text{VIEW} \) to return to standby mode or press \( \text{VIEW} \) or \( \text{VIEW} \) to view other received text messages.

If the text message memory is full

When the text message memory is full, the phone will display the number of unviewed text messages followed by "SMS LIST FULL" e.g. "10 SMS LIST FULL". If all the messages have been viewed but not deleted, the phone will display "SMTP LIST FULL".
You need to delete some received messages to make room for new ones.

To delete individual text messages

1. Press \( \text{VIEW} \) and scroll to "VIEW RECEIVED MESSAGES".
2. Press \( \text{VIEW} \) and scroll to the message you want to delete.
3. Press \( \text{VIEW} \) Display shows "DELETE?".
4. Press \( \text{VIEW} \) again to delete message.
5. Note: Display moves to next message.

To delete all text messages

1. Press \( \text{VIEW} \) Display will show "DELETE SMS OR MESSAGEBANK PIN".
2. Press \( \text{VIEW} \) Display will show "DELETE ALL SENT SMS?".
3. Press \( \text{VIEW} \) to "DELETE ALL UNSENT SMS?" OR Press \( \text{VIEW} \) to "DELETE ALL RECEIVED SMS?"
4. Press \( \text{VIEW} \) or \( \text{VIEW} \) to delete the select messages.

10. Charges apply for each message sent even if not received.
**SMS Service Centre numbers**
The Telstra SMS Service Centre Send and Receive numbers are preset in your T1000C SMS phone. If you accidently change the Send or Receive numbers you will need to re-enter them in order for your text messaging service to work.
Telstra’s Send SMS service Centre number is 01983391.
Telstra Receive SMS service Centre number is 01983391.
The default terminal number is 0.

**Changing the SMS service phone numbers**
To change the SMS service number for sending text messages:
1. Press Display will show “TERMINAL ID 0”.
2. Press Display will show “OUTGOING SMSC 01983391”.
3. Enter the new number.
4. Press to store the new number.

To change the SMS service number for receiving text messages:
1. Press Display will show “TERMINAL ID 0”.
2. Press Display will show “INCOMING SMSC 01983391”.
3. Enter the new number.
4. Press to store the new number.

**Note:** SMS Service Centre phone numbers cannot be blank.

**Sub-addressing of text messages**
Telstra’s fixed text messaging service allows you to send text messages to a specific phone when there is more than one phone connected to a telephone line. This may be useful when you want to direct a message to a specific household member for privacy reasons. Each phone can be given a different terminal number (from 1-9), text messages can be sent to an individual phone by simply adding an extra digit to the phone number corresponding to the terminal number of the particular phone. For example, if a text message is sent to a fixed line with an additional digit “1” added to the telephone number, only a phone set up with terminal number “1” on that line would receive the message. The default terminal number for your phone is “0” and your phone will automatically receive all text messages sent unless they have an additional sub-address digit added.

**Changing the terminal number**
To change the terminal number or sub-address for sending and receiving text messages:
1. Press Display will show “TERMINAL ID 0”.
2. Enter the new terminal number (1 to 9).
3. Press to store the new number.

**Two or more SMS phones on the same line**
If you have more than one SMS phone on the same line the phones may not operate properly when receiving text messages. To overcome this you should change the terminal number(s) so that only one phone has a terminal number of 0. The phone with a terminal number of 0 will receive all text messages sent to your default address. The other phone(s) will only receive text message sent to their specific sub-address. All phones will be able to send text messages.
