Information about the service

Your plan is for a mobile data service that provides access to the Telstra Mobile Network. Your plan is for use in a tablet and you can't share the mobile data with other services on your account.

Your Device Payment Contract

You may purchase an eligible device with this plan, payable over 12 or 24 interest-free monthly payments. If you cancel your Plan or Device Payment Contract early, you'll need to pay the balance of any remaining device payments.

Bring your own (BYO) device

You can bring your own compatible device with this plan. You'll get the best experience if your device supports 3G-850MHz, 4G-1800MHz and 4G-700MHz banding. Check your device manual or manufacturer's website for details.

Peace of Mind data

Unless you have opted out, Peace of Mind data is included with your plan.

If you exceed your included data allowance, your data speeds are capped at 1.5Mbps until the end of your bill cycle (not suitable for HD video or high speed applications, and means that some web pages, video/social media content and some large files may take longer to load) and slowed further during busy periods.

Extra Data

If you have opted out of Peace of Mind data, and you use more than your Monthly Data allowance, we will automatically add extra data to your service in blocks of 1GB for \$10 (Extra Data). Extra Data is for use in Australia and expires at the end of your billing month and is not sharable with other services on your account.

Information about pricing

Refer to the Plan Cost table. If you use your mobile for things not included in your Plan or exceed your Monthly Data allowance, you'll have to pay more than the Minimum Monthly Charge set out in the Plan Cost table.
