

Setting up Smart Controls restrictions is an easy 6-step process

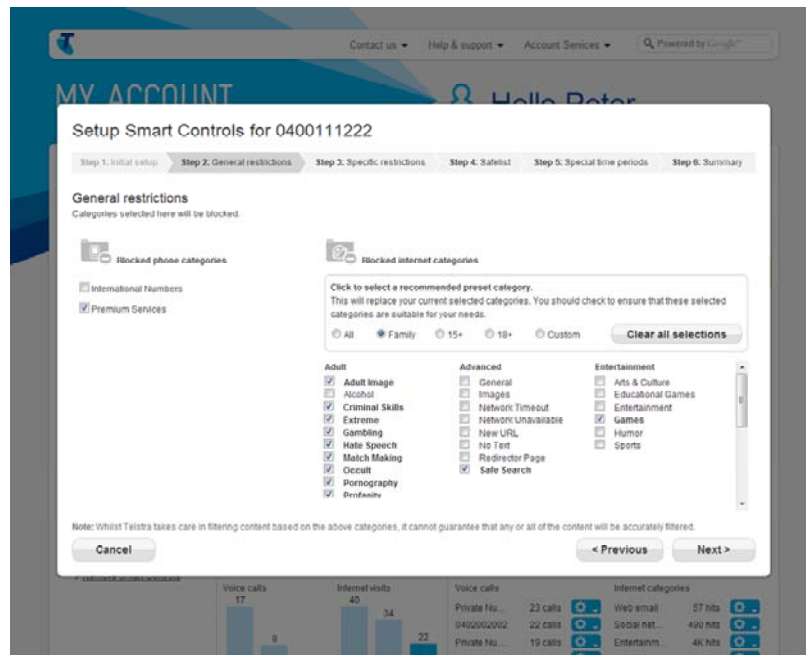

1. On the dashboard, select the mobile service that you would like to setup restrictions for and click 'Setup restrictions'.

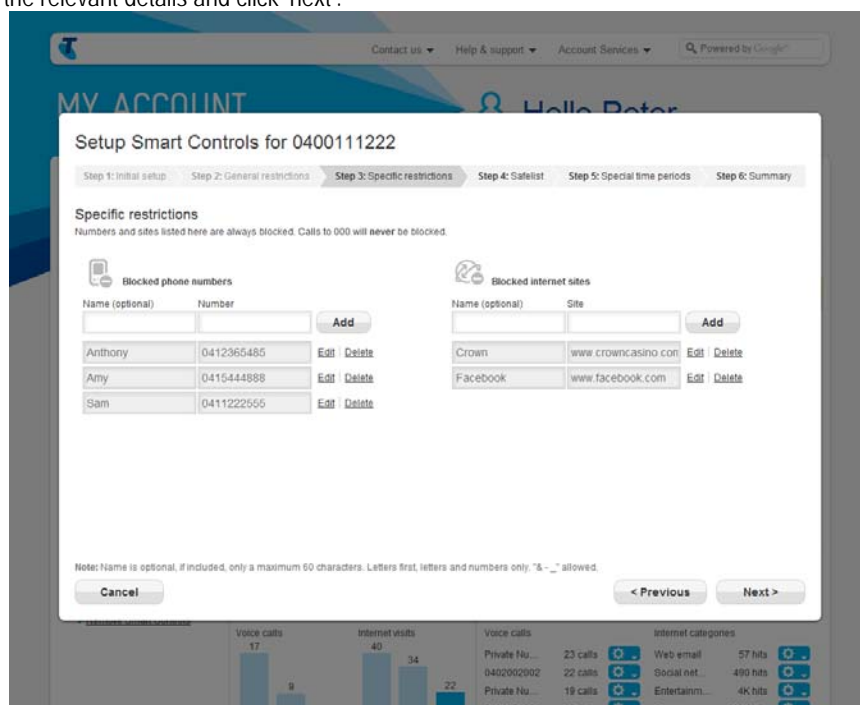

2. 'Initial setup' allows you to input a name you would like to assign to this mobile service for easy reference, select 'Setup restrictions' and click 'next'.

3. 'General restrictions' is where you can select recommended voice call and internet categories to block, check the boxes according to your needs and click 'next'.

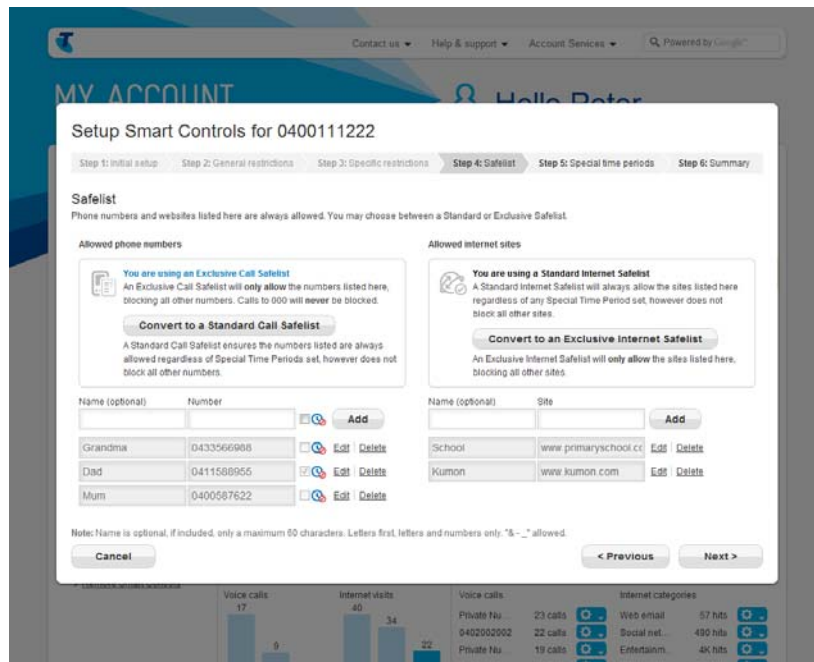

- 'Specific restrictions' is where you can include specific phone numbers and/or websites you would like to always block. Input the relevant details and click 'next'.

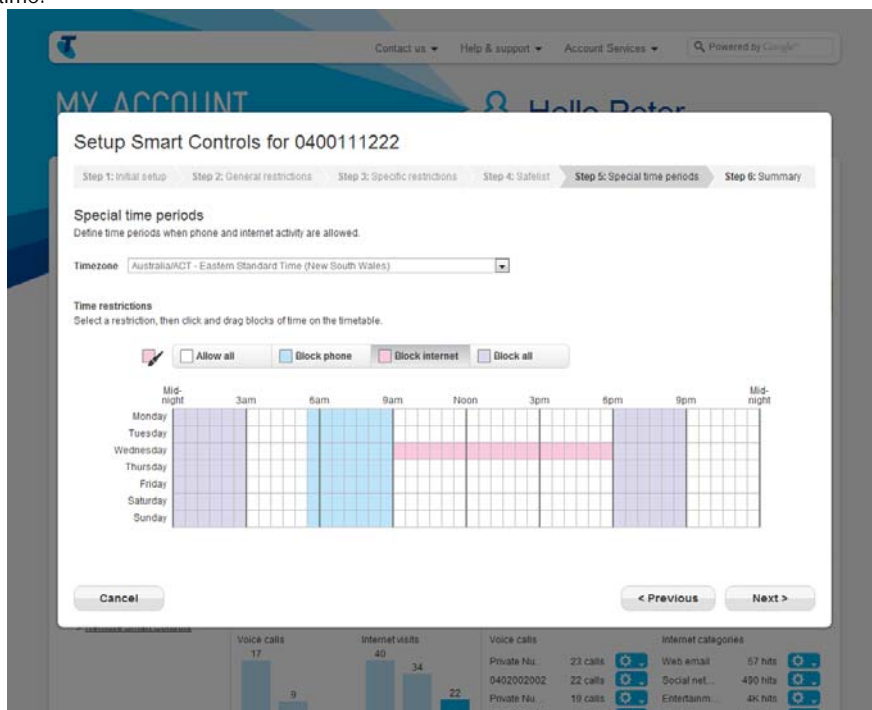

- 'Safelist' allows you to specify any phone numbers and/or websites that are always allowed (and will always be allowed even if you have applied time restrictions). There are two types of safe lists - Standard and Exclusive.
 - Standard safelist (default) refers to a list of phone numbers and websites that are always allowed (even if you have applied time restrictions), but does not block all phone numbers or websites by default.
 - Exclusive safelist is the same as the above, however will block all other phone numbers and websites.

If you would like to set a safelist, choose the type of safelist you would like to use and input the relevant details and click 'next'.

- 'Special time periods' is where you can define the time of the day, for each day of the week when you would like the restrictions to be in place. For example, block voice calls and internet access during school hours and homework time.

- 'Summary' screen will display all the restrictions you have just included and if you are happy with them, click 'Apply'.

Setup Smart Controls for 0400111222

Step 1: Initial setup Step 2: General restrictions Step 3: Specific restrictions Step 4: Safelist Step 5: Special time periods **Step 6: Summary**

Summary

Below is a summary of all the restrictions you've setup. Click 'Apply' to complete the setup.

Call Safelist

You are using an Exclusive Call Safelist
An Exclusive Call Safelist will **only allow** the numbers listed here, blocking all other numbers. Calls to 000 will never be blocked.

Allowed phone numbers

Grandma	0423566988
Dad	0411500955
Mum	0400587622

Internet Safelist

You are using a Standard Internet Safelist
A Standard Internet Safelist will always allow the sites listed here regardless of any Special Time Period set, however does not block all other sites.
